Of Spirit Jacques Derrida, Martin Heidegger, 1987 Of Derrida, Heidegger, and Spirit David Wood, 1993 Jacques Derrida's *De l'esprit Heidegger et la question* is one of his most interesting and accessible later works In it Derrida attempts to come to terms with Heidegger's Nazi connections by way of an extended reflection on Heidegger's use of the term Geist In *Of Derrida Heidegger and Spirit* David Wood presents a variety of powerful and distinctive responses to Derrida's book

Interpreting Hegel's Phenomenology of Spirit Ivan Boldyrev, Sebastian Stein, 2021-11-29 This book focuses on the interpretations of Hegel's *Phenomenology of Spirit* that have proved influential over the past decades Current readers of Hegel's *Phenomenology* face an abundance of interpretive literature devoted to this difficult text and confront a plethora of different philosophical presuppositions research strategies and hermeneutic efforts To enable a better orientation within the interpretative landscape the essays in this volume summarize contextualize and critically comment on the issues and currents in contemporary Phenomenology scholarship There is a common set of three questions that each of the contributions seeks to answer 1 What kind of text is *The Phenomenology of Spirit* 2 What do the different strategies of interpretation conceptually bring to the text 3 How do different interpreters justify their verdict on

whether the Phenomenology is still a viable project **Jacques Derrida** Zeynep Direk, Leonard Lawlor, 2002 These three volumes assemble the most important essays written on Jacques Derrida's philosophy since he became established in 1967 These volumes make well known essays easily available and also present many essays never translated in English *Life after God: An Encounter with Postmodernism* Mark Bevir, 2022-03-16 In this volume Mark Bevir argues that postfoundationalism is compatible with humanism and historicism He shows how postmodernists especially Derrida and Foucault drew on structuralism and the avant garde in ways that led them to downplay human agency and historical context He then explores how we today might recover and rethink humanism and historicism And finally he discusses the critical and ethical practices that such ideas might inspire **Unconditional Life** Yoriko Otomo, 2016-05-27 Drawing on philosophy history and critical theory Unconditional Life introduces a new perspective on the significance of post war international law developments The book examines the public discourse regarding technological risk in World War II texts of unconditional surrender in the World Trade Organisation's EC Biotech dispute and in the International Court of Justice's Nuclear Weapons Advisory Opinion The volume describes international law in terms of its management of and relation to the risks associated with technological innovation in war and in trade It proposes that international law too is itself a kind of technology one intended to manage the material and existential risks inherent in the creation of a new international postcolonial political community emerging out of the Second World War Members of this community are imagined to possess a universal quality humanness which itself is underscored by a power of invention Yoriko Otomo demonstrates how international lawyers' inability to adjudicate questions of large scale technological risk is due to the competing and intractable claims of international law Offering a feminist analysis of the political economy that has created this crisis of governance the book provides a way of understanding the structural inequities that will need to be addressed if international law is to remain a relevant forum for the adjudication of war and trade into the 21st century *The Bloomsbury Companion to Heidegger* Francois Raffoul, Eric S. Nelson, 2013-08-15 The definitive reference guide to Heidegger's life and work including 57 original essays covering all the key aspects of his thought Heidegger's Ways Hans-Georg Gadamer, 1994-01-25 The combination of author and subject matter found here makes an unusually interesting text on the Continental European Philosophy of the twentieth century As Heidegger's former student colleague and lifelong friend Gadamer offers a particularly insightful commentary on Heidegger's thinking Not only do the essays focus on Heidegger's thought but they also often begin with a description of the philosophical scene in which he first appeared giving the reader a genuine feel for the kind of impact he made But the essays do not leave off in the past rather they lead into the present giving Heidegger a voice which continues to have a revolutionary impact The text does not only provide a commentary on Heidegger it also provides a fascinating look at Gadamer himself The narratives provide us with an intimate look at both the author and his hermeneutics at work and his commentary on Heidegger's thought is a commentary on his own thought as well **The Verge of Philosophy** John

Sallis, 2009-10-15 *The Verge of Philosophy* is both an exploration of the limits of philosophy and a memorial for John Sallis's longtime friend and interlocutor Jacques Derrida. The centerpiece of the book is an extended examination of three sites in Derrida's thought: his interpretation of Heidegger regarding the privileging of the question, his account of the Platonic figure of the good, and his interpretation of Plato's discourse on the crucial notion of the chora, the originating space of the universe. Sallis's reflections are given added weight even poignancy by his discussion of his many public and private philosophical conversations with Derrida over the decades of their friendship. This volume thus simultaneously serves to mourn and remember a friend and to push forward the deeply searching discussions that lie at the very heart of that friendship. All of John Sallis's work is essential, but this book in particular is remarkable. Sallis shows better than anyone I have ever read what it means to practice philosophy on the verge. Walter Brogan, Villanova University

Beckett, Derrida, and the Event of Literature Asja Szafraniec, 2007 The late Jacques Derrida's notion of literature is explored in this new study. Starting with Derrida's self-professed inability to comment on the work of Samuel Beckett, whom Derrida nevertheless considered one of the most interesting and exemplary writers of our time, Asja Szafraniec argues that the shared feature of literary works as Derrida understands them is a double juridical/economical gesture and that one aspect of this notion, the juridical, is more hospitable to Beckett's oeuvre than the other. She then discusses other contemporary philosophical approaches to Beckett, including those of Gilles Deleuze, Stanley Cavell, and Alain Badiou. The book offers an innovative analysis of Derrida's approach to literature as well as an overview of current philosophical approaches to contemporary literature and a number of innovative readings of Beckett's work. Judaism, Philosophy, and Psychoanalysis in Heidegger's Ontology Federico Dal Bo, 2023-11-17

In this book, Federico Dal Bo analyzes the question of Heidegger's anti-Semitism from a deconstructive point of view, appealing not only to philosophy but also to psychoanalysis, gender studies, and critical studies. Deconstruction famously discourages simplistic oppositions while encouraging a more careful analysis of cultural and philosophical complexities of a semantic field. In the present case, a deconstructive analysis of Heidegger's anti-Semitism rejects both a stern condemnation of his oeuvre and a simplistic acquittal from this infamous accusation. It rather suggests that the question of his anti-Semitism shall be examined from the broader perspective from the end of metaphysics. *The Vietnam War and Theologies of Memory* Jonathan Tran, 2010-03-02

The Vietnam War and Theologies of Memory develops a theological analysis of the American war in Vietnam and constructs a Christian account of memory in relation to this tragic conflict. An elegantly written reflection on memory and forgiveness, this unique work explores the ecclesial practice of memory in relation to the American war in Vietnam. Questions how and why we choose to remember atrocity and asks whether it is ever ethical to simply forget. Explores the theological categories of time and eternity and the ideas of thinkers including Aquinas, Augustine, and Barth. Reveals broader insights about history, memory, and redemption. Resonates beyond the field of theological inquiry by offering a broader analysis of war entirely relevant to our time. *Richard Strauss and His World* Bryan Randolph

Derrida and Disinterest Sean Gaston,2005-04-14 Disinterest has been a major concept in Western philosophy since Descartes Its desirability and importance have been disputed and its definition reworked by such pivotal figures as Nietzsche Shaftesbury Locke and Kant In this groundbreaking book Sean Gaston looks at the treatment of disinterest in the work of two major modern Continental philosophers Jacques Derrida and Emmanuel Levinas He identifies both as part of a tradition obscured since the eighteenth century that takes disinterest to be the opposite of self interest rather than the absence of all interest Such a tradition locates disinterest at the centre of thinking about ethics The book argues that disinterest plays a significant role in the philosophy of both thinkers and in the dialogue between their work In so doing it sheds new light on their respective contributions to moral and political philosophy Moreover it traces the history of disinterest in Western philosophy from Descartes to Derrida taking contributions and in the of major philosopher in both the analytic Anglo American and Continental traditions Locke Shaftesbury Hume Smith Nietzsche Kant Hegel Heidegger Derrida and Disinterest offers a new reading of Derrida a stimulating account of the role and importance of disinterest in the history of Western philosophy and a provocative and original contribution to Continental ethics Matters of Spirit F. techniques and technologies on the formation of his theory of the imagination Provided by publisher **French Thought and Literary Theory in the UK** Irving Goh, 2019-10-21 This collection presents a sort of counter history or counter genealogy of the globalization of French thought from the point of view of scholars working in the UK While the dominating discourse would attribute the US as the source of that globalization particularly through the 1966 conference on the Languages of Criticism and the Sciences of Man at Johns Hopkins University this volume of essays serves as a reminder that the UK has also been a principal motor of that globalization The essays take into account how French thought and literary theory have institutionally taken shape in the UK from the 70s to today highlight aspects of French thought that have been of particular pertinence or importance for scholars there and outline how researchers in the UK today are bringing French thought further in terms of teaching and research in this twenty first century In short this volume traces how the country has been behind the reception and development of French thought in Anglophone worlds from the late 70s to the present
