## **Of Wind And Water A Kiwi Pilot In Coastal Command:**

**Of Wind and Water** James Sanders,1989      **Eyewitness RAF** James Goulty,2020-12-14 A detailed realistic picture of what it was like to serve in the Royal Air Force during WWII both on the ground and in the air using firsthand accounts Much has been written about the Royal Air Force during the Second World War memoirs biographies histories of Fighter and Bomber commands technical studies of the aircraft accounts of individual operations and exploits but few books have attempted to take the reader on a journey through basic training and active service as air or ground crew and eventual demobilization at the end of the war That is the aim of James Goulty s *Eyewitness RAF* Using a vivid selection of testimony from men and women he offers a direct insight into every aspect of wartime life in the service Throughout the book the emphasis is on the individual s experience of the RAF the preparations for flying flying itself the daily routines of an air base time on leave and the issues of discipline morale and motivation A particularly graphic section describes in the words of the men themselves what it felt like to go on operations and the impact of casualties airmen who were killed injured or taken prisoner What emerges is a fascinatingly varied inside view of the RAF that is perhaps less heroic and glamorous than the image created by some postwar accounts but gives readers today a much more realistic appreciation of the whole gamut of life in the RAF seventy plus years ago      *Cinderella Boys* Leo McKinstry,2023-06-08 Masterful David Price McKinstry has done a fine job in rescuing Coastal Command from long neglect Richard Overy The remarkable story of the unsung RAF wing who made Allied victory possible In 1943 Britain was engaged in an epic struggle for survival as deadly wolf packs of German U boats roamed the Atlantic In desperation Churchill turned to an overlooked underfunded force known as The Cinderella Service Armed with long range planes depth charges rocket projectiles and radar equipment the Cinderella boys provided vital air defence The German hunters became the hunted and in a stunning defeat fully retreated by the summer The transformation of Coastal Command from a ramshackle outfit into a formidable organisation served as one of the turning points of the war But they never received the credit they deserved Based on a wealth of new sources Leo McKinstry shines a light on the courageous pilots ingenious scientists and political risktakers who defended the freezing Atlantic from Nazi rule Engrossing Brendan Simms      *Flying against Fate* S. P. MacKenzie,2017-08-04 During World War II Allied casualty rates in the air were high Of the roughly 125 000 who served as aircrew with Bomber Command 59 423 were killed or missing and presumed killed a fatality rate of 45 5% With odds like that it would be no surprise if there were as few atheists in cockpits as there were in foxholes and indeed many airmen faced their dangerous missions with beliefs and rituals ranging from the traditional to the outlandish Military historian S P MacKenzie considers this phenomenon in *Flying against Fate* a pioneering study of the important role that superstition played in combat flier morale among the Allies in World War II Mining a wealth of documents as well as a trove of published and unpublished memoirs and diaries MacKenzie examines the myriad forms combat fliers superstitions assumed from jinxes to premonitions Most commonly airmen carried amulets or talismans lucky

boots or a stuffed toy a coin whose year numbers added up to thirteen counterintuitively a boomerang Some performed rituals or avoided other acts e g having a photo taken before a flight Whatever seemed to work was worth sticking with and a heightened risk often meant an upsurge in superstitious thought and behavior MacKenzie delves into behavior analysis studies to help explain the psychology behind much of the behavior he documents not slighting the large cohort of crew members and commanders who demurred He also looks into the ways in which superstitious behavior was tolerated or even encouraged by those in command who saw it as a means of buttressing morale The first in depth exploration of just how varied and deeply felt superstitious beliefs were to tens of thousands of combat fliers Flying against Fate expands our understanding of a major aspect of the psychology of war in the air and of World War II **Spitfire Dive-Bombers Versus**

**the V2** Bill Simpson, 2007-06-21 This WWII military history vividly recounts the Royal Air Force campaign to counter Germany's V2 rocket attacks On September 8th 1944 the first V2 rockets aimed at southern England exploded in west London They had been launched from a wooded street corner in Den Haag in the Netherlands Air Marshal Roderic Hill of Fighter Command ordered a swift response to counter the threat Six squadrons of Spitfires were sent to find and dive bomb the mobile V2 launch sites scattered throughout the Dutch countryside The missiles were well camouflaged and often positioned adjacent to dwellings occupied by civilians The RAF was under orders to cause minimum damage to Dutch property and life therefore precision bombing became a necessity This complete account of the campaign includes discussions of the strategy and tactics employed and the equipment used It also considers the effects on Dutch civilians Bill Simpson draws on the experiences of sixteen Allied pilots ground crew and the Dutch who were at the receiving end of the attacks **Air Pictorial** ,1990 The Aeronautical Journal ,1990 **Aerospace** ,1990 **Air Words** Fred Hamann,1945
