## Of Light And Silence:

*T. S. Eliot and the Dynamic Imagination* Sarah Kennedy, 2018-04-05 How is a poem made From what constellation of inner and outer worlds does it issue forth Sarah Kennedy's study of Eliot's poetics seeks out those images most striking in their resonance and recurrence the sea change the light invisible and the dark ghost She makes the case for these sustained metaphors as constitutive of the poet's imagination and art Eliot was haunted by recurrence His work is full of moments of luminous recognitions moments in which a writer discovers both subject and appropriate image This book examines such moments of recognition and invocation by reference to three clusters of imagery drawing on the contemporary languages of literary criticism psychology physics and anthropology Eliot's transposition of these registers at turns wary and beguiled interweaves modern understandings of originary processes in the human and natural world with a poet's preoccupation with language The metaphors arising from these intersections generate the imaginative logic of Eliot's poetry **List of Lights and Fog Signals**, 1937 Modern American Poetry and the Architectural Imagination Jo Gill, 2023 Modern American Poetry and the Architectural Imagination The Harmony of Forms assesses the relationship between architectural and poetic innovation in the United States across the twentieth century Taking the work of five key poets as case studies and drawing on the work of a rich range of other writers architects artists and commentators this study proposes that by examining the sustained and productive if hitherto overlooked engagement between the two disciplines we enrich our understanding of the complexity and interrelationship of both The book begins by tracing the rise of what was conceived of as modern and often international style architecture and by showing how poetry and architecture in the early decades of the century developed in dialogue and within a shared and often transnational context It then moves on to examine the material aesthetic and social conditions that helped shape both disciplines offering new readings of familiar poems and bringing other pertinent resources to light It considers the uses to which poets of the period put the insights of architecture and vice versa In closing Gill turns to modern and contemporary architects written accounts of their own practice in memoirs and other commentaries and examines how they have assimilated or resisted the practice and vision of poetry **Textual Ethos Studies, Or Locating Ethics** Anna Fahraeus, AnnKatrin Jonsson, 2005 Textual ethos studies talks about critical theory and ethics Forbidden Acts Ben Hodges, 2003-09-01 Applause Theatre Lillian Hellman's classic *The Children's Hour* 1933 initially banned in London and passed over for the Pulitzer Prize because of its subject matter and Oscar Wilde 1938 by Leslie and Sewell Stokes a major award winning success that starred Robert Morley More recent plays include Mart Crowley's *The Boys in the Band* 1968 the first hit out gay play that was the most realistic and groundbreaking portrayal of gays on stage up to that time Martin Sherman's *Bent* 1978 which daringly focused on the love between two Nazi concentration camp inmates and starred Richard Gere William Hoffman's *As Is* 1985 which was one of the first plays to deal with the AIDS crisis and earned three Tony Award nominations and Terrence McNally's *Love Valour Compassion* 1994 which starred Nathan Lane and won the

**Time, Tense, and Causation** Michael Tooley, 1997 Michael Tooley presents a major new philosophical study of time and its relation to causation The nature of time has always been one of the most fascinating and perplexing problems of philosophy it has in recent years become the focus of vigorous debate between advocates of rival theories The traditional tensed accounts of time which hold that time has a direction and that the flow of time is part of the nature of the universe have been challenged by tenseless accounts of time according to which past present and future are merely subjective features of experience rather than objective features of events Time Tense and Causation offers a new approach in many ways intermediate between these two rivals Tooley shares with tensed approaches the views that the universe is dynamic and that the past and present are real while the future is not but he rejects the view that this points to the existence of irreducible tensed facts Tooley's approach accounts for time in terms of its relation to causation he argues that the direction of time is based upon the direction of causation and that the key to understanding the dynamic nature of the universe is to understand the nature of causation He analyses tensed concepts and discusses semantic issues about truth and time Finally addressing the formidable difficulties posed for tensed accounts of time by the Special Theory of Relativity he suggests that a modified version of the theory compatible with the account of time in this book is to be preferred to the standard version Time Tense and Causation is rich in sophisticated and stimulating discussions of many of the deepest problems of metaphysics It will be essential reading for anyone specialising in this area of philosophy

Kaelin,2012-12-06 In the wake of so many other keys to the treasure whoever undertakes still another book of criticism on the novels and drama of Samuel Beckett must assume the grave burden of justifying the attempt especially for him who like one of John Barth s recent fictional characterizations of himself believes that the key to the treasure is the treasure itself No one will ever have the privilege of the last word on these texts since any words other than the author s own found therein must be referred back to the text themselves for cautious verification Indeed the words the author has used to create the oeuvre stand by virtue of their own creativeness or fail in their pretense and need no critical comment to be appreciated for what they have achieved or have failed to achieve In criticism there is no privileged point of view not even the author s own He has consulted his knowledge and experience to make the work and whoever would criticize his efforts would seem to owe him the indulgence of doing the same If communication is mediated through the works the author and his readers respond in reciprocal fashion to the expressiveness of their contexts For the philosopher of art the challenge is extremely tempting on a manifold count
