Elsevier's Dictionary of Symbols and Imagery Ad de Vries, Arthur de Vries, 2021-10-25 This dictionary supplies associations which have been evoked by plants, animals, gems, objects, and concepts throughout the history of Western civilization, from the hieroglyphs of ancient Egypt to the poetry of Dylan Thomas. It supplies background information from fields which may not be everyone's speciality, such as biology and mythology. It gives not one but several meanings which may apply simultaneously, since indefiniteness is the mark of symbols. No fine distinction is made between symbols, allegories, metaphors, signs, types, or images, since such subtle distinctions, however sensible from a scientific point of view, are useless to a person struggling with the deeper comprehension and thus appreciation of a particular symbol. Important general entries are listed, such as archetypes, the binary, bull, calendar, eagle, elements, Great Goddess, Sacred King, sun, etc., which it is advisable to read first. Information was gathered from primary sources, both famous and obscure: classical authors, the Bible, the medieval scholar and musician Hildegard von Bingen, but also Donne, Shakespeare, and Eliot. Lists of primary and secondary literature are included. From the many notes left behind by the late Ad de Vries, his son has gathered enough new material to enlarge the original 1974 edition by more than 20 per cent. Included are many new entries taken from herbals and lapidaries, as well as ancient books on medicine, architecture, and dreams. This dictionary is an invaluable source of reference for students of many disciplines, as well as for writers and artists.

Dao Companion to the Philosophy of Xunzi Eric L. Hutton, 2016-11-09 This volume presents a comprehensive analysis of the Confucian thinker Xunzi and his work which shares the same name It features a variety of disciplinary perspectives and offers divergent interpretations The disagreements reveal that as with any other classic the Xunzi provides fertile ground for readers It is a source from which they have drawn and will continue to draw different lessons In more than 15 essays the contributors examine Xunzi's views on topics such as human nature ritual music ethics and politics They also look at his relations with other thinkers in early China and consider his influence in East Asian intellectual history A number of important Chinese scholars in the Song dynasty 960-1279 CE sought to censor the Xunzi They thought that it offered a heretical and impure version of Confucianism As a result they directed study away from the Xunzi This has diminished the popularity of the work However the essays presented here help to change this situation They open the text's riches to Western students and scholars The book also highlights the substantial impact the Xunzi has had on thinkers throughout history even on those who were critical of it Overall readers will gain new insights and a deeper understanding of this important but often neglected thinker

Gastro-Postcolonialism Metaphysical Symbols in Brand Communication Oya AYAN,2023-09-05 This thesis brings together three topics that we want to search brand communication gastronomy metaphysics After completing my master s degree in marketing communications what I always had in mind was the new trends in advertising communication with the globalization of the 21st century In the design of the advertisement not only the use of elements in communication technologies but also the philosophical background in its fabric attracted my attention In this context I began to sense that there might be mythological approaches in the chemistry of advertising messages that gained importance in social media In the postmodern environment of the 21st century food nutrition culinary arts and to put it briefly gastronomy became the dominant language of communication Moreover it caused kitchen wars by becoming politicized In line with my interest in gastronomy I wanted to focus on food advertisements I started to ask myself to what extent the fast food trend that marked the 21st century was changing the Global Society Interestingly I started to observe that there were metaphysical images that were reflected from ancient wisdom to the present day in McDonald s brand communication This problem which has not been studied much yet was an important exercise for me in terms of analyzing the Global Society as a doctoral thesis I can say that doing the analysis in the light of semiology as a method has broadened my horizon by directing me to an interdisciplinary perspective I would like to acknowledge Communication Sciences and the Internet Institute which allowed me to make such a significant study Prof Dr Mete amdereli who supported me with great excitement in all phases of my thesis Prof Dr Emine Yava gel who made great contributions to deepen my research subjects in the monitoring of the thesis In addition I would like to thank Prof Dr Mim Kemal ke from whose suggestions I benefited in the historical context I am also indebted to my

colleagues and friends especially my family who buoyed me up and supported me during the research and writing process of my thesis which lasted more than 2 years I hope this study will be useful and inspire new studies in this field
