Of The Fall:

Legends of the Fall Jim Harrison, 1994 Three novellas explore the theme of revenge and the actions to which people resort when they feel threatened The Fall of the House of Bush Craig Unger, 2007-11-13 The presidency of George W Bush has led to the worst foreign policy decision in the history of the United States the bloody unwinnable war in Iraq How did this happen Bush's fateful decision was rooted in events that began decades ago and until now this story has never been fully told From Craig Unger the author of the bestseller House of Bush House of Saud comes a comprehensive deeply sourced and chilling account of the secret relationship between neoconservative policy makers and the Christian Right and how they assaulted the most vital safeguards of America's constitutional democracy while pushing the country into the catastrophic quagmire in the Middle East that is getting worse day by day Among the powerful revelations in this book Why George W Bush ignored the sage advice of his father George H W Bush and took America into war How Bush was convinced he was doing God's will How Vice President Dick Cheney manipulated George W Bush disabled his enemies within the administration and relentlessly pressed for an attack on Iraq Which veteran government official with the assent of the president's father protested passionately that the Bush administration was making a catastrophic mistake and was ignored How information from forged documents that had already been discredited fourteen times by various intelligence agencies found its way into President Bush's State of the Union address in which he made the case for war with Iraq How Cheney and the neocons assembled a shadow national security apparatus and created a disinformation pipeline to mislead America and start the war A seasoned award winning investigative reporter connected to many back channel political and intelligence sources Craig Unger knows how to get the big story and this one is his most explosive yet Through scores of interviews with figures in the Christian Right the neoconservative movement the Bush administration and sources close to the Bush family as well as intelligence agents in the CIA the Pentagon and Israel Unger shows how the Bush administration's certainty that it could bend history to its will has carried America into the disastrous war in Iraq dooming Bush's presidency to failure and costing America thousands of lives and trillions of dollars Far from ensuring our security the Iraq War will be seen as a great strategic pivot point in history that could ignite wider war in the Middle East particularly in Iran Provocative timely and disturbing The Fall of the House of Bush stands as the most comprehensive and dramatic account of how and why George W Bush took America to war in Iraq The RISE, the FALL and the RECOVERY of the USA Elias C.
