Clements, 2014-08-18 A revised and updated edition of the definitive guide to overturning Citizens United. Since the Supreme Court's Citizens United ruling that the rights of things, money and corporations matter more than the rights of people, America has faced a crisis of democracy. In this timely and thoroughly updated second edition, Jeff Clements describes the strange history of this bizarre ruling, its ongoing destructive effects and the growing movement to reverse it. He includes a new chapter, *Do Something*, showing how state by state and community by community, Americans are using creative strategies and tools to renew democracy and curb unbalanced corporate power. Since the first edition, sixteen states, one hundred sixty members of Congress and five hundred cities and towns have called for a constitutional amendment to overturn Citizens United, and the list is growing. This is a fight we can win. More relevant than ever, this updated edition of *Corporations Are Not People* chronicles the remarkably vibrant nationwide grassroots movement to get money out and voters in. Katrina vanden Heuvel, Editor and Publisher, *The Nation*. *People of the State of Illinois v. Robinson*, 1995 **Intellectually Impaired**

People Klaus Rose, 2023-03-09 *Intellectually Impaired People: The Ongoing Battle* addresses challenges against the background of history, changing societal environments and current intellectual approaches and attitudes toward persons with disabilities. The book discusses national and international conventions, societal attitudes, sheltered workshops, the right of intellectually impaired persons for self-responsibility and its limitations, and the place of mentally impaired persons in the public image. Additionally, the book attempts to capture the forces that drive the changes of our conceptual frameworks. The US Tuskegee study, which withheld antibiotics from black men with syphilis, was not ended by scientific criticism but by a courageous man, press reports and a changed social perception. The non-hiding of handicapped children is not the result of

government orders there are many non resolvable dilemmas and tension between supporting understanding and patronizing a complex situation with many potential future avenues Recognizes how contradictory feelings and attitudes toward impaired persons have a complex historical background Sheds light on society and our institutions that deal with disabled people and the limitations of an isolated medical approach Covers national and international conventions of mentally impaired persons
