Encyclopedia of Twentieth-Century Photography, 3-Volume Set Lynne Warren,2005-11-15 The Encyclopedia of Twentieth Century Photography explores the vast international scope of twentieth century photography and explains that history with a wide ranging interdisciplinary manner This unique approach covers the aesthetic history of photography as an evolving art and documentary form while also recognizing it as a developing technology and cultural force This Encyclopedia presents the important developments movements photographers photographic institutions and theoretical aspects of the field along with information about equipment techniques and practical applications of photography To bring this history alive for the reader the set is illustrated in black and white throughout and each volume contains a color plate section A useful glossary of terms is also included **Walker Evans** Stephanie Schwartz,2023-10-15 NO POLITICS whatever Walker Evans made this emphatic declaration in 1935 the year he began work for FDR's Resettlement Administration Evans insisted that his photographs of tenant farmers and their homes breadlines and the unemployed should be treated as pure record The American photographer's statements have often been dismissed In Walker Evans No Politics Stephanie Schwartz challenges us to engage with what it might mean in the 1930s and at the height of the Great Depression to refuse to work politically Offering close readings of Evans's numerous commissions including his contribution to Carleton Beals's anti imperialist tract The Crime of Cuba 1933 this book is a major departure from the standard accounts of Evans's work and American documentary Documentary Schwartz reveals is not a means of being present or being political It is a practice of record making designed to distance its maker from the scene of the crime That crime Schwartz argues is not just the Depression it is the processes of Americanization reshaping both photography and politics in the 1930s Historicizing documentary this book reimagines Evans and his legacy the complexities of claiming no politics *Walker Evans* Judith Keller,1995-11-02 Walker Evans is widely recognized as one of the greatest American photographers of the twentieth century and the J Paul Getty Museum owns one of the most comprehensive collections of his work including more of his vintage prints than any other museum in the world This lavishly illustrated volume brings together for the first time all of the Museum's Walker Evans holdings Included here are familiar images such as Evans's photographs of tenant farmers and their families made in the 1930s and later published in Let Us Now Praise Famous Men and images that are much less familiar such as the photographs Evans made in the 1940s of the winter quarters of the Ringling Brothers circus or his very late Polaroids made in the 1970s In addition many previously unpublished Evans photographs and variant croppings of classic images appear here for the first

time Author Judith Keller has written a lively informative text that places these photographs in the larger context of Evans's life and career and the culture especially the popular culture of the time In so doing she has produced an indispensable volume for anyone interested in the history of photography or American culture in the twentieth century Also included is the most comprehensive bibliography on Walker Evans published to date **The Grove Encyclopedia of American Art** Joan M. Millichap, 2024-10-18 The story behind the most iconic American photobooks of the twentieth century In the late 1930s and early 1940s the Farm Security Administration FSA funded a now famous photography project to document and highlight American rural life and its economic challenges In time the project launched a genre of works that incorporated photographic evidence and artistic documentation of rural poverty highlighting the struggles and resilience of the American people during this period Nearly a century later these photographs have become largely synonymous with the Great Depression In *These Vivid American Documents* Joseph R. Millichap presents an illuminating examination of four photobooks born of this FSA project Archibald MacLeish and Dorothea Lange's *Land of the Free* Walker Evans and Lincoln Kirstein's *American Photographs* Dorothea Lange and Paul Taylor's *An American Exodus* and James Agee and Walker Evans's *Let Us Now Praise Famous Men* Millichap includes in his analysis a curated selection of thirty-two photographs from these four photobooks showcasing the realities of the social individual political artistic and economic aspects of that time Through Millichap's thorough and insightful study readers will gain a deeper understanding of the significant cultural and historical impact of this photographic project Examining what are now historical American icons like Walker Evans's portrait of Allie Mae Burroughs and Dorothea Lange's *Migrant Mother* Millichap leans into the intersections tensions and meanings that this particular era and medium encapsulate His close comparison of the documentary and artistic purposes of the photobooks both analyzes how they balance text and imagery and offers a thoughtful study of the photographers and writers who produced them *These Vivid American Documents* is an illuminating volume for scholars and general readers alike *Driven to the Field* David A. emerged endured for a century and continues to resonate in American culture Following the end of slavery sharecropping initially served as an expedient solution to a practical problem but it quickly developed into an entrenched power structure situated between slavery and freedom that exploited the labor of Blacks and poor whites to produce agricultural commodities Sharecropping was the economic linchpin in the South s social structure and the region s political system race relations and cultural practices were inextricably linked with this peculiar form of tenant farming from the end of the Civil War through the civil rights movement Driven to the Field analyzes literary portrayals of this system to explain how it defined the culture of the South revealing multiple genres of literature that depicted sharecropping such as cotton romances agricultural uplift novels proletarian sharecropper fiction and sharecropper autobiographies important works of American literature that have never before been evaluated and discussed in their proper context The South by Its Photographers, 1996 Photographic

Photography and the USA Mick Gidley, 2010-11-15 From Ansel Adams to Carleton Watkins Diane Arbus to Weegee Richard Avedon to James VanDerZee American photographers have recorded their vast multicultural nation in images that for more than a hundred years have come to define the USA In Photography and the USA Mick Gidley explores not only the medium of photography and the efforts to capture key events and moments through photographs but also the many ways in which the medium has played a formative role in American culture Photography and the USA encompasses the major movements figures and works that are crucial to understanding American photography but also pays attention to more obscure aspects of photography s history Focusing on works that reveal many different facets of America its landscapes and

its people. Gidley explores the ambiguities of American history and culture. We encounter images that range from an anti-lynching demo in 1934 to Dorothea Lange's poster "All races serve the crops in California," an early photographic view of Niagara Falls, against the painstaking detail of Edward Weston's "Pepper No. 30," a fireman's fight in the San Francisco earthquake of 1906 to the Ground Zero images of 2001 by Joel Meyerowitz, an 1890s "Wanted" image to Elliot Erwitt's shot of the Nixon-Khrushchev Kitchen Debate. Organizing his narrative around the themes of history, technology, the document, and the emblem, Mick Gidley not only presents a history of photography but also reveals the complexities inherent in reading photographs themselves. A concise yet comprehensive overview of photography in the United States, this book is an excellent introduction to the subject for American Studies or visual arts students or for anyone interested in US history or culture.

Picturing Faith Colleen McDannell, 2004-01-01. Henri Peyre (1901-1988) a giant figure in French studies did more to introduce Americans to the modern literature and culture of France than any other person. Sterling Professor and chair of the French Department of Yale University for more than four decades, Peyre was also the author of forty-four books, a brilliant speaker, and a mentor to two generations of students. He left enormous legacies as both teacher and scholar. Peyre also left a large and fascinating body of correspondence. This collection of his letters documents the era in which he lived. His lively letters also bear witness to the vast network of his friends and colleagues, including such major post-war literary figures as Robert Penn Warren, André Gide, and André Malraux.
