*Tracing Your Irish Family History on the Internet* Chris Paton,2013-10-19 A thorough and informative guide with as many references to websites for Northern Irish genealogy as for the Republic of Ireland Who Do You Think You Are Magazine

Ireland has experienced considerably more tragedy when it comes to the preservation of resources for family historians than its close neighbor Britain. Many of the nation's primary records were lost during the civil war in 1922 and through other equally tragic means. But in this new book Chris Paton, the Northern Irish born author of the bestselling *Tracing Your Family History on the Internet*, shows that not only has a great deal of information survived, it is also increasingly being made available online. Thanks to the pioneering efforts of the Public Record Office of Northern Ireland, the National Archives of Ireland, organizations such as FindmyPast Ireland, Ancestry.co.uk, and RootsIreland, and the massive volunteer genealogical community, more and more of Ireland's historical resources are accessible from afar. As well as exploring the various categories of records that the family historian can turn to, Chris Paton illustrates their use with fascinating case studies. He fully explores the online records available from both the north and the south from the earliest times to the present day. Many overseas collections are also included, and he looks at social networking in an Irish context where many exciting projects are currently underway. His book is an essential introduction and source of reference for anyone who is keen to trace their Irish roots. Chris Paton has produced this much needed book for researchers tracing Irish roots, pulling together all the current online resources and expert advice into one handy guide. *Family Tree Magazine*      *Tracing Your Irish Family History on the Internet, Second Edition* Chris Paton, 2019-06-30. A simple, easy-to-use guide to tracing your Irish ancestry via the Internet. In this, the fully updated second edition of his best-selling guide to researching Irish history using the Internet, Chris Paton shows the extraordinary variety of sources that can now be accessed online. Although Ireland has lost many records that would have been of great interest to family historians, he demonstrates that a great deal of information survived and is now easily available to the researcher. Thanks to the pioneering efforts of the Public Record Office of Northern Ireland, the National Archives of Ireland, organizations such as FindmyPast Ireland, Ancestry.co.uk, and RootsIreland, and the volunteer genealogical community, an ever-increasing range of Ireland's historical resources are accessible from afar. As well as exploring the various categories of records that the family historian can turn to, Chris Paton illustrates their use with fascinating case studies. He fully explores the online records available from both the north and the south from the earliest times to the present day. Many overseas collections are also included, and he looks at social networking in an Irish context where many exciting projects are currently underway. Paton's book is an essential introduction and reference for anyone who is keen to trace their Irish roots. *Rural Ireland*, 1961      *Irish Late Iron Age Equestrian Equipment in its Insular and Continental Context* Rena Maguire, 2021-12-23. This is the first practical archaeological study of Irish Iron Age horsemanship. The horse and associated equipment were very much at the heart of the social changes set in motion by contact with the Roman Empire; the examination of the snaffles and bosals allows us to bring the people of the Late Iron Age in Ireland into focus.
