Making Accountability Work Marie-Louise Bemelmans-Videc, Jeremy Lonsdale, Burt Perrin, 2017-12-02 Like honesty and clean water accountability is invariably seen as a good thing Conversely the absence of accountability is associated with most of the greatest abuses in human history Accountability is thus closely linked with the exercise of power and the legitimacy of policies and those pursuing them This book looks at the role of evaluation and of audit as key elements in democratic accountability processes The contributors explore the apparent paradox of there being more accountability related activities today than ever before at the same time as much public debate laments what is seen as a lack of actual accountability Such a situation raises a number of questions Is there a need for different approaches to establishing accountability or can current arrangements be modified to make them more effective Are present practices part of the problem and are they preventing a mature debate about performance improvement taking place How can systems awash with performance information ensure that at least some of it makes sense to a wide range of potential users How is it that greater accountability and transparency can so quickly have become associated with concerns about perverse incentives and be seen by some as a costly burden The volume includes detailed case studies and synthesizes up to date research evidence drawn from very different governmental systems ending with practical advice for those involved in the accountability processes In doing so it attempts to address both conceptual ambiguities about the notion of accountability and the practical uncertainties over its implications for democratic government This book is aimed at serious people who think about trends in the use of evaluation and audit in seeking to hold governments accountable for their actions and performance Foundation

Shaw,Sara Goldrick-Rab,Christopher Mazzeo,Jerry A. Jacobs,2006-08-17 Today a college education is increasingly viewed as the gateway to the American Dream a necessary prerequisite for social mobility Yet recent policy reforms in the United States effectively steer former welfare recipients away from an education that could further their career prospects forcing them directly into the workforce where they often find only low paying jobs with little opportunity for growth In *Putting Poor People to Work* Kathleen Shaw Sara Goldrick Rab Christopher Mazzeo and Jerry A Jacobs explore this troubling disconnect between the principles of work first and college for all Using comprehensive interviews with government officials and sophisticated data from six states over a four year period *Putting Poor People to Work* shows how recent changes in public policy have reduced the quantity and quality of education and training available to adults with low incomes The authors analyze how two policies encouraging work the federal welfare reform law of 1996 and the Workforce Investment Act of 1998 have made moving people off of public assistance as soon as possible with little regard to their long term career prospects a government priority *Putting Poor People to Work* shows that since the passage of these work first laws not only are fewer low income individuals pursuing postsecondary education but when they do they are increasingly directed towards the most ineffective short term forms of training rather than higher quality college level education Moreover the schools most able and ready to serve poor adults the community colleges are deterred by these policies from doing so Having a competitive agile workforce that can compete with any in the world is a national priority In a global economy where skills are paramount that goal requires broad popular access to education and training *Putting Poor People to Work* shows how current U S policy discourages poor Americans from seeking out a college education stranding them in jobs with little potential for growth This important new book makes a powerful argument for a shift in national priorities that would encourage the poor to embrace both work and education rather than having to choose between the two Institute for Research on Poverty Affiliated Books on Poverty and Public Policy An Institute for Research on Poverty Affiliated Book on Poverty and Public Policy *Ethics in Higher Education* Rebecca M. Taylor,Ashley Floyd Kuntz,2022-10-18 CHOICE Outstanding Academic Title 2022 In this

thought provoking volume editors Rebecca M Taylor and Ashley Floyd Kuntz invite readers to explore the many facets of on campus ethical dilemmas and the careful nuanced decision making processes required to address them Taylor and Kuntz demonstrate how to apply collaborative multidisciplinary philosophical inquiry to deeply complex issues They present seven normative case studies focusing on a variety of campus quandaries from urgent matters such as Title IX violations and free speech in social media policy to long simmering concerns such as admissions and access and the future of historically Black colleges and universities The editors then bring together a diverse group of scholars and practitioners with a broad array of disciplinary and personal backgrounds to offer their commentary and insight on the cases Leaders in higher education are under immense pressure to respond to campus crises quickly to quell controversy and to avoid the backlash of public scrutiny in an ever shifting sociopolitical terrain Yet in tension with such pressures adequate responses to these dilemmas require leaders to make ethical contextual choices that effectively foster inclusion respect individual and institutional freedoms and promote equity Expanding the scope of inquiry the contributors challenge underlying assumptions raise points that had been omitted from the original cases and imagine alternative solutions Ethics in Higher Education appeals to readers to do the same in the interest of advancing ethical decision making on campuses **Manual of Dietetic Practice** Joan
