Proof Through The Night A B29 Pilot Captive In Japan:

Proof Through the Night Ernest Pickett, K. P. Burke, 2001 A gripping addition to WWII literature Little known history of the B 29 in India and China and a pilot's thirteen months of captivity in Japan *Forgotten Casualties* Kevin T Hall, 2023-08-01 Sheds new light on the mistreatment of downed airmen during World War II and the overall relationship between the air war and state sponsored violence Throughout the vast expanse of the Pacific the remoteness of Southeast Asia and the rural and urban communities in Nazi occupied Europe more than 120 000 American airmen were shot down over enemy territory during World War II thousands of whom were mistreated and executed The perpetrators were not just solely fanatical soldiers or Nazi zealots but also ordinary civilians triggered by the death and devastation inflicted by the war In *Forgotten Casualties* author Kevin T Hall examines Axis violence inflicted on downed Allied airmen during this global war Compared with all other armed conflicts World War II exhibited the most widespread and ruthless violence committed against airmen Flyers were deemed guilty because of their association with the Allied air forces and their fate remained in the hands of their often hostile captors Axis citizens angered by the devastation inflicted by the war along with the regimes consent and often encouragement of citizens to take matters into their own hands resulted in thousands of Allied flyers being mistreated and executed by enraged civilians Written to help advance the relatively limited discourse on the mistreatment against flyers in World War II *Forgotten Casualties* is the first book to analyze the Axis violence committed against Allied airmen in a comparative international perspective Effectively comparing and contrasting the treatment of POWs in Germany with that of their counterparts in Japan Hall's thorough analysis of rarely seen primary and secondary sources sheds new light on the largely overlooked complex relationship among the air war propaganda the role of civilians and state sponsored terror during the radicalized conflict Sources include postwar trial testimonies Missing Air Crew Reports MACR Escape and Evasion reports perpetrators explanations and rationalizations for their actions extensive judicial sources transcripts of court proceedings autopsy reports appeals for clemency and justifications for verdicts Drawing heavily on airmen's personal accounts and the testimonies of both witnesses and perpetrators from the postwar crimes trials *Forgotten Casualties* offers a new narrative of this largely overlooked aspect of Axis violence [Running Deep](#) Tom Clavin, 2025-10-21 The true story of the deadliest submarine in World War II and the courageous captain who survived torture and imprisonment at the hands of the enemy There was one submarine that outfought all other boats in the Silent Service in World War II the USS Tang Captain Richard Hetherington O Kane commanded the attack submarine that sunk more tonnage rescued more downed aviators and successfully completed more surface attacks than any other American submarine These undersea predators were the first to lead the offensive rebound against the Japanese but at great cost Submariners would have six times the mortality rate as the sailors who manned surface ships The Tang achieved its greatest success on October 24 1944 when it took on an entire Japanese convoy and destroyed it But its 24th and last torpedo boomeranged returning to strike the Tang

Mortally wounded the boat sunk coming to rest on the bottom 180 feet down After hours of struggle nine of the 87 crewmen including O Kane made it to the surface Captured by the Japanese the Tang sailors joined other submariners and flyers including Louis Zamperini and Pappy Boyington at a torture camp whose purpose was to gain vital information from inmates and otherwise let them die from malnutrition disease and abuse A special target was Captain O Kane after the Japanese learned of the headlines about the Tang Against all odds when the camp was liberated in August 1945 O Kane at only 90 pounds still lived The following January Richard O Kane limped into the White House where President Truman bestowed him with the Medal of Honor This is the true story of death and survival in the high seas and of the submarine and her brave captain who would become legends

Beyond Valor Jon Erwin, William Doyle, 2020-08-18 On April 12 1945 a fleet of American B 29 bombers flew toward Japan Their mission was simple Stop World War II by burning the cities factories and military bases of the Japanese empire thereby forcing an unconditional surrender But it didn't go as planned *Beyond Valor* is one soldier's extraordinary tale of bravery faith and devotion Onboard one of the B 29s the City of Los Angeles a phosphorus bomb detonated inside the plane Staff Sergeant Henry E Red Erwin absorbed the blast of burning phosphorus and managed to throw the still flaming bomb overboard before collapsing from the third degree burns that covered his body Breaking protocol the plane diverted to a military hospital at Iwo Jima President Truman quickly ordered that Erwin be awarded the Medal of Honor the highest honor of the American military Drawn from in depth interviews with eyewitnesses and deep archival research *Beyond Valor* tells the gripping story of Erwin's life from his upbringing in the suburbs of Birmingham Alabama to his enduring commitment to supporting veterans *Beyond Valor* gives you a front row seat to Erwin's amazing life and legacy Along the way you'll learn How Erwin's childhood in Birmingham shaped his faith and his family How a split second decision changed the course of his life The countless ways that Erwin chose to give back to his fellow veterans after he returned home *Beyond Valor* is about more than that fateful day in April 1945 It's a story of one man's journey from the ultimate despair to a place beyond service beyond honor and beyond valor a life illuminated by the light of God's love

American Book Publishing Record ,2002 **Subject Guide to Books in Print** ,2001 Memoirs of a B-29 Pilot Charles R. Reyher, 2008 Merriam Press World War 2 Review Series From training as a pilot cadet to bomb approach pilot to B 17 instructor pilot followed by training as a B 29 pilot he and his crew operated from Guam between June and September 1945 flying 13 missions against oil targets in Japan The book concludes with the author's personal views on how the war with Japan could have been ended without the use of the atomic bombs and without invading the Home Islands 228 pages 38 illustrations

Bringing the Thunder Gordon Bennett Robertson, 2018-06-28 By March 1945 when Ben Robertson took to the skies above Japan in his B 29 Superfortress the end of World War II in the Pacific seemed imminent But although American forces were closing in on its home islands Japan refused to surrender and American B 29s were tasked with

hammering Japan to its knees with devastating bomb runs That meant flying low altitude night time incendiary raids under threat of flak enemy fighters mechanical malfunction and fatigue It may have been the beginning of the end but just how soon the end would come and whether Robertson and his crew would make it home was far from certain *Thirty-Five Missions Over Japan* 1st Lt. Philip D. Webster, Charlotte B. Webster, 2017-02-09 These are the original never before published notes penned in 1944 and 1945 by B 29 pilot 1st Lt Philip D Webster concerning the 35 missions he flew from Saipan to Tokyo during WWII Two time recipient of the Distinguished Flying Cross every mission is described in detail the fighters they had to contend with the hits they took and how many the planes they shot down the flak that was encountered and the damage it caused Lt Webster wrote about weather conditions and anything he thought the intelligence people would want to know about in a debriefing meeting upon landing These notes were stored undisturbed in Phil s original Army issue briefcase for over 61 years from the time they were written until August 2005 when the briefcase was finally opened All major incidents are true and can be backed up by documentation **Fire from the Sky** Ron Greer, 2013-08-27 This is the story of the last few months of WWII in the Pacific seen through the eyes of one man a radio operator aboard a B29 Superfortress who kept a diary of 28 missions over Japan The diary tells of the horrors of war It was written in darkness and often fear with a pen light during lonely hours confined for up to 18 hours at a time Herb Greer our main author 23 years old frightened and sitting on up to 20 000 pounds of jellied gasoline napalm while blindly flying through constant flak bursts and fighter opposition The plane is blacked out save the dull red glow of the instrument panels as they pass through the target area Suddenly the most intense bright light floods the aircraft blinding us the tension in the aircraft shot up hearts started beating a whole lot faster as we instantly realized that we were being singled out of the sky by a searchlight and were now firmly in the sights of air and ground fire we were the main act and center stage From that moment everything went into slow motion as we pass through the target seconds felt like minutes and minutes hours BOOM an explosion the plane rocks bucks flak is searing its way through the fragile fabric of the fuselage loose items are flying around Im scared they say you can taste fear well theyre absolutely right This personal view gives us two perspectives the first is the story of Herb Greer speaking to us aboard a B29 through the written entries of his diary and then the second recounted from his armchair 60 years later Written with an immediacy that can only be shared by those who were there while capturing for posterity their bravery and dignity of sacrifice Praise for *Fire from the Sky* This is a book you will not be able to put down It is a well told memoir of the men whose missions will live forever in history It was my honor to have read the book it felt almost sacred to be allowed to look inside a crew members personal diary truly a treasured artifact of historic and sentimental value This is a book worth reading several times Great black and white photos as well I fully recommend this wonderful book about aviation and the men who crewed B 29s Bill McDonald president of the Military Writers Society of America As an avid reader of military history I found *Fire from the Sky* A Diary over Japan to be both a treasure trove of information and a stirring and often startling look at the air war over

Japan in World War II What comes across in this book is not only the dedication and heroism of a B 29 bomber crew but also the harrowing circumstances of life and death in the air Truly a remarkable book told by a remarkable man who found himself with a job to do that now in the light of the passage of time seems like an incredible and mind boggling achievement This book richly deserves its Silver Medal Award Robert McCammon New York Times bestselling author Memoirs of a Kamikaze Kazuo Odachi, Shigeru Ohta, 2020-09-15 Independent Publisher Book Award IPPY Winner An incredible untold story of survival and acceptance that sheds light on one of the darkest chapters in Japanese history This book tells the story of Kazuo Odachi who in 1943 when he was just 16 years old joined the Imperial Japanese Navy to become a pilot A year later he was unknowingly assigned to the Kamikaze Special Attack Corps a group of airmen whose mission was to sacrifice their lives by crashing planes into enemy ships Their call sign was ten dead zero alive By picking up Memoirs of a Kamikaze readers will experience the hardships of fighter pilot training dipping and diving and watching as other trainees crash into nearby mountainsides They will witness the psychological trauma of coming to terms with death before each mission and breathe a sigh of relief with Odachi when his last mission is cut short by Japan's eventual surrender They will feel the anger at a government and society that swept so much of the sacrifice under the rug in its desperation to rebuild Odachi's innate samurai spirit carried him through childhood WWII and his eventual life as a kendo instructor police officer and detective His attention to detail unwavering self discipline and impenetrably strong mind were often the difference between life and death Odachi who is now well into his nineties kept his Kamikaze past a secret for most of his life Seven decades later he agreed to sit for nearly seventy hours of interviews with the authors of this book who know Odachi personally He felt it was his responsibility to finally reveal the truth about the Kamikaze pilots that they were unsuspecting teenagers and young men asked to do the bidding of superior officers who were never held to account This book offers a new perspective on these infamous suicide pilots It is not a chronicle of war nor is it a collection of research papers compiled by scholars It is a transcript of Odachi's words **Hell for Honshu** Larry Nelson, 2007-11 Inside the cabin of a B 29 on a 3 000 mile trip to bomb Japan Larry Nelson a farm boy from South Dakota enlisted in the Army Air Corps to fulfill a romantic dream to become a pilot Romance turned to harsh reality when he failed an eye exam and became a navigator instead Harsh reality became terror inside the cabin of a B 29 When high altitude bombing raids on Japan failed they turned to devastating night fire raids on Japanese cities These raids resulted in the near total destruction of Tokyo Yokohama Kobe Osaka and other smaller cities Fight for Survival James Austin McMurria, 2005-10-01 The fight for survival of an American WWII pilot shot down in the Southwest Pacific captured endured as a prisoner of war of the Japanese for 1 000 days and one of the few to survive **Maximum Effort** Kevin Herbert, 1983  Jean Lartéguy, 1975 *Bombs Over Brookings* William McCash, 2005
