Ray, 2014 It has become increasingly accepted that important digital data must be retained and shared in order to preserve and promote knowledge advance research in and across all disciplines of scholarly endeavor and maximize the return on investment of public funds To meet this challenge colleges and universities are adding data services to existing infrastructures by drawing on the expertise of information professionals who are already involved in the acquisition management and preservation of data in their daily jobs Data services include planning and implementing good data management practices thereby increasing researchers' ability to compete for grant funding and ensuring that data collections with continuing value are preserved for reuse This volume provides a framework to guide information professionals in academic libraries presses and data centers through the process of managing research data from the planning stages through the life of a grant project and beyond It illustrates principles of good practice with use case examples and illuminates promising data service models through case studies of innovative successful projects and collaborations National Roster: Minority Professional Consulting Firms United States. Office of Minority Business Enterprise, 1973 *EBOOK: Business Research Methods* Boris Blumberg, Donald Cooper, Pamela Schindler, 2014-03-16 Are you about to begin your dissertation or a research project but don't know what topic to choose Are you unsure of what research methods to use and how they should be applied to your project Are you worried about how to write up your research project Then this is the book for you A balanced coverage of qualitative and quantitative methods means that no matter what approach you choose to use for your project there are examples and case studies to help guide you through the process Student Research boxes provide an insight into situations and research decisions that students have encountered in

real life projects They contain hints tips and sometimes questions to help you think through your own project A Running Case Study charts the progression of two student research projects one qualitative and one quantitative and shows how the content of each chapter can be used to develop their projects Thought provoking questions are included in order to help you consider the issues and decisions involved which you can then apply to your own project Deeper Insight boxes delve further into particular research issues offering you a detailed description to increase your understanding of these areas whilst Real Life examples put research methods into context by showing you how they have been applied in real world situations The Online Learning Centre contains a vast amount of extra resources to help you create a superior project Six statistical chapters are available to help you prepare test and analyse your hypotheses and data Extra cases appendices and dataset exercises help you to take your study further Check out the Research Skills Centre for free chapters of Study Skills books examples of good and bad proposals and templates for questionnaires and surveys All of this and more can be found at www.mcgraw-hill.co.uk/textbooks/blumberg

Management Consulting Matthias Kipping, Lars Engwall, 2002-06-20 This volume makes an important contribution to the growing literature on management consulting It brings together international contributors from a wide variety of backgrounds and draws on recent empirical research from a diverse range of countries consultancy firms and client companies The analysis focuses on three key areas The first part of the book looks at the emergence and development of the consulting industry in different countries and time periods The interplay between national systemic context and outside influences is stressed and the efforts of consultants to become recognized as legitimate knowledge carriers by their clients is highlighted in competition and sometimes cooperation with other suppliers of management knowledge notably academia The volume goes on to consider the generation management and validation of consulting knowledge by consultancy organizations and management gurus showing how these activities are influenced not only by the consultancies own characteristics in terms of size structure and national origin but also by the national and cultural context in which they are operating and by the role of gatekeepers such as book publishers or journalists The third part of the book focuses on the nature and dynamics of the consultancy client relationship focusing especially on the ways in which consultants convince managers of the need to hire outside advisors on the reaction of those concerned in the client organization towards the consultants recommendations and on the methods used by the consultants to overcome the possible reluctance and resistance from within the organization From a more theoretical point of view the chapters in this volume also show that research on management consulting has to take into account different levels of analysis the consulting industry as a whole and its position relative to other knowledge providers such as academia the specific consultancy organization and its relationships with internal and external sources of knowledge and the particular consultancy project and notably the interplay between the consultants and the various stakeholders within and outside the client organization
