School Memory Album Karen J. Goldfluss, 2005-06 *School Memories* Cristina Yanes-Cabrera, Juri Meda, Antonio Viñao, 2016-09-15

This book reveals how school memories offer not only a tool for accessing the school of the past but also a key to understanding what people today know or think they know about the school of the past It describes in fact how historians work does not purely and simply consist in exploring school as it really was but also in the complex process of defining the memory of school as one developed and revisited over time at both the individual and collective level Further it investigates the extent to which what people know reflects the reality or is in fact a product of stereotypes that are deeply rooted in common perceptions and thus exceedingly difficult to do away with The book includes fifteen peer reviewed contributions that were presented and discussed during the International Symposium School Memories New Trends in Historical Research into Education Heuristic Perspectives and Methodological Issues Seville 22-23 September 2015 **School Friend**

Double Exposure Olga Shevchenko,2017-09-08 Over the past decade historians and sociologists have increasingly used visual materials in particular photographs in their work This volume brings together historians sociologists anthropologists and media and visual scholars to articulate how photography as a practice and as a visual medium can provide insights into national memory collective identities and the historical imagination This collection allows the reader to trace parallel conceptual developments occurring in the sociology and anthropology of memory and in the history and theory of photography and to illustrate the unique angles of vision these disciplines offer Photographic images commonly accompany historical accounts from documentaries to family scrapbooks and since the early days of commercial photography pictures have been viewed as tools to capture memories Later critical writing has challenged this equation by inverting it photos along with other archival practices were often viewed as falling short of their supposed function as vessels of memory and at times even denounced as devices that distorted memories How does photography participate in the formation and maintenance of collective identities and shared memory discourses from the family to the nation Furthermore how can we begin to conceptualize photography s effects on the historical imagination of individuals and groups Double Exposure endeavors to answer these questions by calling attention to the variety of contexts in which images circulate and to the narratives from which they spring and which they in turn shape This is the latest volume in Transaction s Memory and Narrative series The Future of Us Jay Asher,Carolyn Mackler,2012-10-16 A literary super duo Los Angeles Times A clever timely story that will attract any teen with a Facebook account Booklist starred review Josh and Emma are about to discover
