Education Marginalization in Sub-Saharan Africa Obed Mfum-Mensah, 2018-08-15 This book focuses on education policy framework for educating marginalized children in sub Saharan Africa It uses marginality as a critical discourse to highlight the complicated ways education policy making in sub Saharan Africa have constructed and perpetuated marginality in the region since Africa

s encounters with Europe The book is organized around two parts each of which discusses a specific dimension of the marginality and education policy nexus Part I focuses on theorizations of marginality and education The theoretical framework on marginality and education outlines the definitional and conceptual backgrounds on marginality the complicated ways policies of the Christian missionaries colonial governments and postcolonial governments constructed and perpetuated marginality in the region Part II focuses on addressing the issue of marginality from theory to practice These chapters highlight the ways policies shaped the educational development schooling processes and educational outcomes of selected marginalized communities and groups Attention is given to schooling in rural communities the complexities of girls education in rural contexts education of Zongo Muslim communities violence in school in rural contexts and education collaboration in rural traditional communities The book argues that education policies in sub Saharan Africa fail to address the educational needs of marginalized children because current policy frameworks are not based on examination of colonial policies which created the existing marginality In order to implement policies that address policy gaps and meet the educational needs of marginalized children strong synergies are necessary between education policy makers other education stakeholders and marginalized communities *Resources in Education* ,1998 Violence in Schools Florence Denmark,Uwe Gielen,Herbert H. Krauss,Elizabeth Midlarsky,R. Wesner,2006-06-14 During the 1940s teachers were certain they had some grievous complaints about students behavior in school Among these were excessive noise littering and gum chewing More recently teachers concerns have taken on a far more dire tone Today their focus is on the rape robbery and substance abuse incidents that occur in alarming numbers in their workplaces In recent years the news on violent crime in our schools has often been devastating And although school officials have begun taking measures to decrease the level of violence on their grounds e g installing metal detectors hiring guards to patrol hallways the violence that continues to occur is often more lethal and no less troubling To further understand and ameliorate the causes of violence among our children especially at school this book takes a comprehensive approach to addressing the issues *Violence in Schools Cross National and Cross Cultural Perspectives* provides both a broad overview of violence in schools and offers specific descriptions of models that have been used successfully within school settings to prevent violent crime from occurring For example this volume Recognizes that violence on school grounds is a global problem that requires an international perspective to counteract Takes a broad view of what constitutes violence that is the focus is not only on physical assault but the neglect and abusive behavior e g racism sexism cultural discrimination and suppression that contribute to its occurrence Explores the history of the phenomenon of school violence in order to effectively ameliorate its current condition *Violence in Schools Cross National and Cross Cultural Perspectives* speaks with legitimate authority to scholars as well as to those on the frontlines in combating school violence including school and counseling psychologists schooladministrators teachers and staff as well as concerned parents
