## **Science And Medicine In Twentiethcentury China Research And Education:**

**Science and Medicine in Twentieth-century China** John Z. Bowers, J. William Hess, Nathan Sivin, 1988 The first part of this volume is devoted to synoptical and analytical examinations by historians of attempts to root modern science in China during the Republican period The second contains reports by scientists who have been involved in China's recent efforts to modernize Topics include genetic research taxonomy contraception food policy and schistosomiasis With an introduction by Nathan Sivin

**China's Scientific Elite** Cong Cao, 2004-07-31 China's Scientific Elite is a study of those scientists holding China's highest academic honour membership of the Chinese Academy of Sciences Having carried out extensive systematic data collection of CAS members Cao examines the social stratification system of the Chinese science community and the way in which politics and political interference has effected the stratification The book then goes on to compare the Chinese system to the stratification of the US scientific elite The conclusions are fascinating not least because one national elite resides in a democratic liberal social system and the other in an authoritarian social system

*Biology and Revolution in Twentieth-Century China* Laurence Schneider, 2005-10 In this first comprehensive analysis of biological science in modern China Laurence Schneider traces its troubled development from the 1920s across the 1949 boundary and into contemporary post socialist China Schneider uses his detailed portrayals of influential scientists and key education and research institutions to explore both internal and external forces at work in scientific development The author examines the largely US sources of its technical development and the subsequent quality of its research and educational accomplishments At the same time he firmly grounds these in the context of China's national economic and social revolutions These upheavals have been the source of periodic obsessions to use science to regulate nature to manage foreign influence on science and to control scientists The author argues that populist mass science was Mao's solution to problems of control especially in the 1950s when Soviet Lysenkoism was granted the power in China to monopolize biology and ban genetics This book provides the only detailed study of Lysenkoism in China linking its ascendance to the Great Leap Forward and the Cultural Revolution It concludes with an analysis of the phoenix like rise of genetics in recent decades and the assignment of biotechnology to a leading role in plans for economic development Based on a broad range of archival materials and interviews with major actors in the story this book will be a rich resource for all those interested in contemporary China

Science and Technology in Modern China, 1880s-1940s, 2014-02-20 The first of its kind this collection of critical essays opens up new venues in the comparative study of science and culture by focusing on the formative decades of modern China in the late nineteenth and first half of the twentieth century It provides a wide ranging examination of the cultural and intellectual history of science and technology in modern China From anti imperialism to the technology of Chinese writing the commodification of novelties to the rise of the modern professional scientist new lexica and appropriations of the past the contributors map out a transregional and global circuitry of modern knowledge and practical know how nationalism and the
