Addressing Special Educational Needs and Disability in the Curriculum: Science Marion Frankland, 2017-05-18 The SEND Code of Practice 2015 reinforced the requirement that all teachers must meet the needs of all learners This topical book provides practical tried and tested strategies and resources that will support teachers in making science lessons accessible and exciting for all pupils including those with special needs The author draws on a wealth of experience to share her understanding of special educational needs and disabilities and show how science teachers can reduce or remove any barriers to learning Offering strategies that are specific to the context of science teaching this book will enable teachers to help all students develop their evidence gathering skills and aid their scientific discovery by involving the use of all of the senses and structuring tasks appropriately create a supportive environment that maximises learning opportunities plan the classroom layout and display to enhance learning use technology to adapt lessons to the needs of individual pupils successfully train and fully use the support of their teaching assistants An invaluable tool for continuing professional development this text will be essential for teachers and their teaching assistants seeking guidance specific to teaching science to all pupils regardless of their individual needs This book will also be of interest to SENCOs senior management teams and ITT providers In addition to free online resources a range of appendices provide science teachers with a variety of writing frames and activity sheets to support effective teaching This is an essential tool for science teachers and teaching assistants and will help to deliver successful inclusive lessons for all pupils

The Art and Science of Teaching Robert J. Marzano, 2007-07-15 Though classroom instructional strategies should clearly be based on sound science and research knowing when to use them and with whom is more of an art In The Art and Science of Teaching A

Comprehensive Framework for Effective Instruction author Robert J Marzano presents a model for ensuring quality teaching that balances the necessity of research based data with the equally vital need to understand the strengths and weaknesses of individual students He articulates his framework in the form of 10 questions that represent a logical planning sequence for successful instructional design 1 What will I do to establish and communicate learning goals track student progress and celebrate success 2 What will I do to help students effectively interact with new knowledge 3 What will I do to help students practice and deepen their understanding of new knowledge 4 What will I do to help students generate and test hypotheses about new knowledge 5 What will I do to engage students 6 What will I do to establish or maintain classroom rules and procedures 7 What will I do to recognize and acknowledge adherence and lack of adherence to classroom rules and procedures 8 What will I do to establish and maintain effective relationships with students 9 What will I do to communicate high expectations for all students 10 What will I do to develop effective lessons organized into a cohesive unit For classroom lessons to be truly effective educators must examine every component of the teaching process with equal resolve Filled with charts rubrics and organizers this methodical user friendly guide will help teachers examine and develop their knowledge and skills so they can achieve that dynamic fusion of art and science that results in exceptional teaching and outstanding student achievement
