Scientific Theology: Reality Alister E. McGrath, 2007-01-23 The second volume of an extended and systematic exploration of the relation between Christian theology and the natural sciences focussing on the examination and defense of theological realism

The Collected Works of Edward Schillebeeckx Volume 2 Edward Schillebeeckx, 2014-09-25 In effect *Revelation and Theology* is Schillebeeckx's general introduction to theology. Its fifteen chapters were originally published separately between 1954 and 1962 but the thematic collection offers a vivid picture of the theological renewal in the wake of World War II. Schillebeeckx's erudition and broad scholarly orientation are clearly demonstrated in this volume. Throughout there are pointers to the at that time new ecumenical approach to Scripture and tradition. The problem concerning the function of the scholastic tradition is highlighted. Although Schillebeeckx draws extensively on Thomas Aquinas's thinking this early work already shows that he is not a neo-Thomist in the narrow sense of the word. Unlike the single Dutch volume the English version was published in two volumes. In the *Collected works of Edward Schillebeeckx* however here they are published together in the sequence that the author envisaged.

*Science and Theology* James K. Dew Jr., 2011-01-17 Alister McGrath's work on the relationship between Science and Theology makes the most notable contribution to the subject written by an evangelical in recent history. McGrath holds earned doctorates in both science and theology and his three volume set *A Scientific Theology* is the culmination of three decades of his work on the subject. In this book James K. Dew explores McGrath's contribution to the issue and highlights the benefits of adopting a critical realist perspective such as his own. In particular Dew argues that McGrath's approach helps establish a unified theory of knowledge and holds significant advantages for scientists and theologians alike.

**A Critical Realist Perspective of Education** Brad Shipway, 2010-07-20 Explores the capability of critical realism to throw light on educational theory. This book investigates the convergence and divergence between two forms of critical realism. It outlines the key characteristics that are necessary for a theological position to claim the term critical realist.

**Persons, Powers, and Pluralities** Eric G. Flett, 2012-05-31 Through an intimate conversation with the writings of Thomas F. Torrance Flett articulates a Trinitarian theology of culture. Torrance's work suggests that Christian assumptions in the areas of God creation and humanity had an important influence upon the development of Western scientific culture. This book develops each of these areas of Torrance's thought in order to articulate a theology of culture rooted in a Christian understanding of God as triune creation as contingent and human persons as stewards created in the image of God. Drawn together these three areas of Torrance's thought suggest that human culture and cultural plurality ultimately originate in the creative action of a triune God mediated through the creative activity of the human creature as it engages a contingent created order in its attempts to foster human flourishing and to bear embodied

witness to its Creator The result is not only a unique contribution to the emerging secondary material on Torrance s work but also a contribution to the field of theology of culture as a systematic locus in its own right     **Science of God** Kevin J. Sharpe,2006 Is theology responsible to tradition or new insight Institutional church or humanity at large Spiritual or everyday existence Revelation or scientific findings In his new book *Science of God Truth in the Age of Science* Kevin Sharpe proposes a method for doing theology which does not divorce it from the practical applications of science Not only does this work establish that theology ought to be empirical in what it says about the world and God s relationship to it but it also outlines a clear method for doing this Science and theology can each share the same empirical method when each attempts a description of any part of reality it is relying on its own essential assumptions or lens When applied to theology the method assumes the existence of God and then seeks the nature of God using falsifiable and verifiable techniques Starting with the sciences that examine happiness particularly biology genetics psychology and social psychology Science of God seeks to understand the spiritual nature of humans and through it the nature of God     [Ramified Natural Theology in Science and Religion](#) Rodney Holder,2020-10-15 This book offers a rationale for a new ramified natural theology that is in dialogue with both science and historical critical study of the Bible Traditionally knowledge of God has been seen to come from two sources nature and revelation However a rigid separation between these sources cannot be maintained since what purports to be revelation cannot be accepted without qualification rational argument is needed to infer both the existence of God from nature and the particular truth claims of the Christian faith from the Bible Hence the distinction between bare natural theology and ramified natural theology The book begins with bare natural theology as background to its main focus on ramified natural theology Bayesian confirmation theory is utilised to evaluate competing hypotheses in both cases in a similar manner to that by which competing hypotheses in science can be evaluated on the basis of empirical data In this way a case is built up for the rationality of a Christian theist worldview Addressing issues of science theology and revelation in a new framework this book will be of keen interest to scholars working in Religion and Science Natural Theology Philosophy of Religion Biblical Studies Systematic Theology and Science and Culture     [Beyond Evangelicalism](#) Steven Knowles,2016-12-05 A prolific author and thinker Stanley J Grenz was a respected and influential figure not only within evangelicalism but in the wider theological world Amongst the many issues tackled by him it is perhaps his revisioning of evangelical theology in the light of the postmodern challenge that has caused the biggest stir in the theological world Advocating a nonfoundationalist methodology Grenz attempts to re position evangelical theology in line with postmodern concerns This work examines the main traits of postmodern thought that would seem to directly challenge how evangelical theology is traditionally done An examination of the seminal influences on Grenz will be traced in order to understand more fully the position he takes A rigorous critique and assessment of his theological methodology will follow with the conclusion that his work goes beyond evangelicalism This will be the first book length treatment on Grenz s work on theological

methodology and therefore will break new ground in this important area of study

**Essays on the Trinity** Lincoln Harvey,2018-07-23 This volume gathers together twelve essays on the doctrine of the Trinity It includes the work of systematic theologians analytic theologians and biblical scholars who address a range of issues concerning the Christian doctrine of God Contributors include Jeremy Begbie Julie Canlis Douglas Campbell William Hasker and Christoph Schubel The volume also includes a new essay written by the late Robert W Jenson shortly before his death *The Interface of Science, Theology, and Religion* Dennis Ngien,2019-03-07 In celebration of Alister E McGrath's sixty fifth birthday in 2018 this Festschrift aims to highlight him as a lauded scholar who exemplifies an interface of science theology and religion It comprises works by McGrath's theological allies and colleagues from diverse ecclesial homes including Graham Ward Oliver Crisp Tony Lane Sung Wook Chung Randall Zachman Veli Matti Kärkkäinen Jonathan Wilson Jeffrey P Greenman Robert Kolb Sister Benedicta Ward Michael Lloyd Bethany Sollereder and Patrick Franklin Critical but appreciative is the posture with which these contributors engage the wide range of McGrath's own scholarly pursuits and publications This volume edited by Dennis Ngien covers these themes that are central to the life and witness of the church atonement Christology Trinity eschatology mission Reformation science nature culture evangelism and theodicy there is much to ponder and reap here Readers will join with the contributors and pay tribute to McGrath who has risen to a life of significance as a scientist turned theologian professor author Christian apologist and churchman *Key Theological Thinkers* Svein Rise,2016-04-22 The 20th and 21st Centuries have been characterized by theologians and philosophers rethinking theology and revitalizing the tradition This unique anthology presents contributions from leading contemporary theologians including Rowan Williams Fergus Kerr Aidan Nichols G R Evans and Tracey Rowland who offer portraits of over fifty key theological thinkers in the modern and postmodern era Distinguished by its broad ecumenical perspective this anthology spans arguably one of the most creative periods in the history of Christian theology and includes thinkers from all three Christian traditions Protestant Catholic and Orthodox Each individual portrait in this anthology includes a biographical introduction an overview of theological or philosophical writing presentation of key thoughts and contextual placing of the thinker within 20th Century religious discourse Overview articles explore postmodern theology radical orthodoxy ecumenical theology feminist theology and liberation theology A final section includes portraits of important thinkers who have influenced Christian thought from other fields not least from Continental philosophy and literature *Theology in Transposition* Myk Habets,2013-11-01 T F Torrance was one of the most significant English language theologians of the 20th century known extensively for his curatorship of the English translation of Barth's Church Dogmatics but also for his own prodigious theological scholarship The complexity and astonishing breadth of Torrance's output however have made assessment and appropriation markedly difficult This volume seeks to rectify that lack of assessment through careful exposition of the vital centers and interconnections within Torrance's theology alongside constructive appraisal and critique of his contributions to

contemporary theology    [Enlightened Common Sense](#) Roy Bhaskar,2016-07-01 Since the 1970s critical realism has grown to address a range of subjects including economics philosophy science and religion It has become a complex and mature philosophy Enlightened Common Sense The Philosophy of Critical Realism looks back over this development in one concise and accessible volume The late Roy Bhaskar was critical realism's philosophical originator and chief exponent He draws on a lifetime's experience to give a definitive systematic account of this increasingly influential international and multidisciplinary approach Critical realism's key element has always been its vindication and deepening of our understanding of ontology Arguing that realist ontology is inexorable in knowledge and action Bhaskar sees this as the key to a new enlightened common sense From the definition of critical realism and its applicability in the social sciences to explanation of dialectical critical realism and the philosophy of metaReality this is the essential introduction for students of critical realism

**Natural and Cosmic Theodicy** Jongseock James Shin,2022-10-21 This book presents a third way to envision the Creatorship of the Triune God who is both compassionate and eschatologically redemptive in providential presence rather than biasedly gravitating toward the openness of a self-limiting God or God's all-determining sovereignty Not only is God in with and under creation God's kenotic presence invites creatures to participate in the self-giving love of God through both general and special divine action in a top down through bottom up mode Creatio continua is God's own journey of fulfilling the eschatological promise for creation This redemptive presence of God in creation is a Trinitarian co-protesting against the power of death sin and evil considering the cosmic dimensions of the eschatological hope promised in the resurrection of Jesus The new creation is the ultimate fulfillment of creaturely freedom and contingency divinely granted in creatio ex nihilo In arguing this Shin engages in a comparative and critical study of natural and cosmic theodicy advanced by Catherine Keller Arthur Peacocke Wolfhart Pannenberg and Robert Russell

### **The Intelligent Design Debate and the Temptation of Scientism**

Erkki Vesa Rope Kojonen,2016-04-28 The controversy over Intelligent Design ID has now continued for over two decades with no signs of ending For its defenders ID is revolutionary new science and its opposition is merely ideological For its critics ID is both bad science and bad theology But the polemical nature of the debate makes it difficult to understand the nature of the arguments on all sides A balanced and deep analysis of a controversial debate this volume argues that beliefs

about the purposiveness or non purposiveness of nature should not be based merely on science Rather the philosophical and theological nature of such questions should be openly acknowledged

*Encountering Reality* Travis M. Stevick,2016-12-01 *Encountering Reality* argues for a new appreciation of T F Torrance on epistemology and reality

According to Torrance s realism all authentic knowledge involves the nature of the object impressing its inherent rationality on the mind Consequently knowledge involves thinking in accordance with the nature of the object We shall explore the place and function of ultimate beliefs in epistemology as well as the question as to whether such beliefs imply a retreat to either foundationalism or fideism The inescapability of ultimate beliefs in all human knowledge requires a shift in the traditional notion of objectivity We find that shift in the account provided by T F Torrance whose epistemological position implies an alternative notion of truth Drawing on distinctly Christian sources Torrance emphasizes the distinction between truth and truthfulness thereby reorienting the discussion from a focus on statements to a focus on being This shift challenges the dichotomy between correspondence and coherence theories of truth and provides one way of transcending the scientific realism anti realism debate and gives rise to a practical epistemological tool disclosure models which function as self correcting self marginalizing lenses through which we encounter reality yielding knowledge in accordance to the nature of the thing known

**The Merging of Theology and Spirituality** Larry S. McDonald,2006-07-29 While acknowledging the inherent tension between evangelicals who emphasize theological propositions and those who emphasize personal experience Alister McGrath believes that spirituality represents the interface between ideas and life between Christian theology and human existence The book explores the centrality of McGrath s theology in the development of his views on spirituality McGrath does not approach spirituality from a theological void but instead uses his theological perspective as the foundation Through detailed examination of McGrath s previous work and the writing of other evangelicals *The Merging of Theology and Spirituality* offers an overview of a unique thinker s contributions and a guide for future theological and spiritual exploration
