## Scientific Basis Of Child Custody Decisions:

**The Scientific Basis of Child Custody Decisions** Robert M. Galatzer-Levy, Louis Kraus, Jeanne Galatzer-Levy, 2009-03-23 The legal system requires mental health professionals to provide research summaries to support their evaluations in child custody cases Contributions from leading developmental researchers legal professionals and clinicians describe how scientific evidence is properly used in court Timely and current this book helps evaluators access the best information to fulfill their obligations to their clients and the court The Second Edition adds chapters on family observation parental alienation and sexual abuse Forensic psychologists family lawyers and judges will be equipped with the most current information to aid in custody decisions

**Handbook of Child Custody** Mark L. Goldstein, 2015-08-03 This authoritative reference brings together leading experts for up to date theory findings and guidelines on the core aspects of child custody evaluations Contributors offer steps for gathering more accurate family data through home observations interviews and collateral information Chapters examine psychological assessment tools commonly used in evaluations including measures relating to parenting competencies mental illness domestic violence and substance abuse and consider increasingly salient issues such as relocation and families in therapy The section on case studies shows best practices applied in real life custody situations and a chapter authored by a family court judge offers rarely seen perspective from the bench Featured in the Handbook A survey of ethical and professional issues Observing and interviewing children adolescents and adults Psychological assessment and personality testing A detailed review of the Bricklin scales Specialized issues including parental alienation attachment cults and more Illustrative case studies and psychological reports Mental health professionals who conduct child custody evaluations including psychiatrists clinical psychologists clinical social workers family and marriage counselors and licensed clinical professional counselors will appreciate the Handbook of Child Custody Family law attorneys will also find the Handbook useful in assisting them in child custody litigation Its thorough coverage will aid evaluators in making recommendations that are professional ethical and impartial and family lawyers in understanding the evaluation process and preparing for expert testimony

*Parenting Assessments in Child Welfare Cases* Terry D. Pezzot-Pearce, John W. Pearce, 2004-01-01 Perry Pezzot Pearce and John Pearce guide practitioners through the steps of assessment from negotiating the initial referral through data collection and report writing to court testimony

**Learning Forensic Assessment** Rebecca Jackson, 2007-10-08 Providing an excellent resource for forensic psychology undergraduate students this book offers students the opportunity to learn from experts through the collection of outstanding articles Unlike other books in the area that are topic specific it also gives them comprehensive coverage of the subject Divided into five broad topic areas it covers professional issues juvenile assessment criminal forensic assessment civil forensic assessment pervasive issues malingering and psychopathy Written by a group of internationally renowned contributors and including didactic information as well as pro

Handbook of Forensic Sociology and Psychology Stephen J. Morewitz, Mark

L. Goldstein,2013-08-20 The role of behavioral and social sciences in the courtroom setting has expanded exponentially in the past few decades It is now widely recognized that scientists in these areas provide critical contextual information for legal decision making and that there is a reliable knowledge base for doing so While there are many handbooks of forensic psychology this is the first such volume to incorporate sociological findings broadening the conceptual basis for examining cases in both the civil and criminal realms including immigration issues personal injury child custody and sexual harassment This volume will examine the responsibilities of expert witnesses and consultants and how they may utilize principles theories and methods from both sociology and psychology It will show these disciplines together can improve the identification and apprehension of criminals as well as enhance the administration of justice by clarifying profiles of criminal behavior particularly in cases of serial killers death threat makers stalkers and kidnappers The volume is quite comprehensive covering a range of medical school environmental and business settings Throughout it links basic ideas to real applications and their impact on the justice system      *Overcoming Parent-Child Contact Problems* Abigail M. Judge,Robin M.

Deutsch,2016-10-05 In recent years there has been heightened interest in the clinical and legal management of families in which children resist contact with one parent and become aligned with the other following divorce Families affected by these dynamics require disproportionate resources and time from mental health and legal professionals and cases require a specialized clinical approach Traditional models of individual and family therapy are not designed to address these issues and strategies and resources for mental health and legal professionals have been extremely limited *Overcoming Parent Child Contact Problems* describes interventions for families experiencing a high conflict divorce impasse where a child is resisting contact with a parent It examines in detail one such intervention the *Overcoming Barriers* approach involving the entire family and combining psycho education and clinical intervention The book is divided into two parts Part I presents an overview of parental alienation including clinical approaches and a critical analysis of the many challenges associated with traditional outpatient family based interventions Part II presents the *Overcoming Barriers* approach describing core aspects of the intervention and ways to adapt its clinical techniques to outpatient practice *Overcoming Parent Child Contact Problems* is geared toward mental health clinicians and legal professionals who work with families in high conflict and where a child resists visitation with a parent      **Clinical Assessment of Malingering and Deception** Richard Rogers,Scott D.

Bender,2020-05-28 Widely used by practitioners researchers and students and now thoroughly revised with 70% new material this is the most authoritative comprehensive book on malingering and related response styles Leading experts translate state of the art research into clear usable strategies for detecting deception in a wide range of psychological and psychiatric assessment contexts including forensic settings The book examines dissimulation across multiple domains mental disorders cognitive impairments and medical complaints It describes and critically evaluates evidence based applications of multiscale inventories other psychological measures and specialized methods Applications are discussed for specific

populations such as sex offenders children and adolescents and law enforcement personnel Key Words Subject Areas malingering deception deceptive feigning dissimulation feigned cognitive impairment feigned conditions defensiveness response styles response bias impression management false memories forensic psychological assessments forensic assessments clinical assessments forensic mental health forensic psychological evaluations forensic psychologists forensic psychiatrists psychological testing and assessment detection strategies expert testimony expert witnesses family law child custody disputes child protection child welfare Audience Forensic psychologists and psychiatrists other mental health practitioners involved in interviewing and assessment including clinical psychologists social workers psychiatrists and counselors Also of interest to legal professionals      *Motherhood, Mental Illness and Recovery* Nikole Benders-Hadi, Mary E. Barber, 2014-08-01 Despite the importance of regaining social roles during recovery from mental illness the intersection between motherhood and serious mental illness is often overlooked This book aims to rectify that neglect A series of introductory chapters describing current research and services available to mothers with serious mental illness are followed by personal accounts of clients reflecting on their parenting experiences One goal of the book is to provide clinicians with information that they can use to help patients struggling with questions and barriers in their attempts to parent The inclusion of personal accounts of mothers on issues such as stigma fears and discrimination in the context of parenting with a mental illness is intended to promote the message of mental illness recovery to a larger audience as well Finally it is hoped that this handbook will help inspire more research on mothers with mental illness and the creation of more services tailored to their needs      **Handbook of Psychology, Forensic Psychology** Alan M. Goldstein, 2003-01-07 Includes established theories and cutting edge developments Presents the work of an international group of experts Presents the nature origin implications and future course of major unresolved issues in the area      **The International Handbook of Parental Alienation Syndrome** Richard A. Gardner, S. Richard Sauber, Demosthenes Lorandos, 2006 The dramatic increase in the number of child custody disputes since the seventies has created an equally dramatic need for a standard reference work that examines the growing social problem of children who develop an irrational hatred for a parent as the result of divorce The International Handbook of Parental Alienation Syndrome Conceptual Clinical and Legal Considerations features clinical legal and research perspectives from 32 contributors representing eight countries building on the work of the late Dr Richard Gardner a pioneer in the theory practice diagnosis and treatment of Parental Alienation Syndrome PAS This unique book addresses the effects of PAS on parents and children discusses issues surrounding reconciliation between parent and alienated child and includes material published for the first time on incidence gender and false allegations of abuse in PAS Content highlights examines PAS and the roles of family members the criminal justice system and the need for public awareness and policymakers to respond to PAS Descriptive statistics on 84 cases are given and the factors affecting reconciliation between the child and target parent are listed The mild moderate and severe categories of PAS are explored and the psychological consequences of

PAS indoctrination for adult children of divorce and the effects of alienation on parents are researched The role of medical reports in the development of PAS sexual abuse allegations and future predictions on the fate of PAS children are many of the clinical considerations in this book The legal issues concern PAS in American law criticisms of PAS in courts of law protecting the fundamental rights of children in families family law reform International PAS abductions and the legal requirements of experts giving evidence to courts The impact and implications of PAS are immense and no other single source provides the depth and breadth of coverage of the topic than the clinical and forensic chapters in this book

**Parental Alienation, DSM-5, and ICD-11** William Bernet, 2010 Parental alienation is an important phenomenon that mental health professionals should know about and thoroughly understand especially those who work with children adolescents divorced adults and adults whose parents divorced when they were children In this book the authors define parental alienation as a mental condition in which a child usually one whose parents are engaged in a high conflict divorce allies himself or herself strongly with one parent the preferred parent and rejects a relationship with the other parent the alienated parent without legitimate justification This process leads to a tragic outcome when the child and the alienated parent who previously had a loving and mutually satisfying relationship lose the nurture and joy of that relationship for many years and perhaps for their lifetimes We estimate that 1 percent of children and adolescents in the U S experience parental alienation When the phenomenon is properly recognized this condition is preventable and treatable in many instances The authors of this book believe that parental alienation is not simply a minor aberration in the life of a family but a serious mental condition Because of the false belief that the alienated parent is a dangerous or unworthy person the child loses one of the most important relationships in his or her life This book contains much information about the validity reliability and prevalence of parental alienation It also includes a comprehensive international bibliography regarding parental alienation with more than 600 citations In order to bring life to the definitions and the technical writing several short clinical vignettes have been included These vignettes are based on actual families and real events but have been modified to protect the privacy of both the parents and children [Surviving and Thriving in Stepfamily Relationships](#) Patricia L.

Papernow, 2013-06-07 [Surviving and Thriving in Stepfamily Relationships](#) is designed to be useful both to stepfamily members themselves and to a wide variety of practitioners as well as to educators judges mediators lawyers and medical personnel **PARENTAL ALIENATION** Demosthenes Lorandos, William Bernet, S. Richard Sauber, 2013-12-01 Parental Alienation The Handbook for Mental Health and Legal Professionals is the essential how to manual in this important and ever increasing area of behavioral science and law Busy mental health professionals need a reference guide to aid them in developing data sources to support their positions in reports and testimony They also need to know where to go to find the latest material on a topic Having this material within arm's reach will avoid lengthy and time consuming online research For legal professionals who must ground their arguments in well thought out motions and repeated citations to case precedent

ready access to state or province specific legal citations spanning thirty five years of parental alienation cases is provided here for the first time in one place Over 1000 Bibliographic Entries 500 Cases Examined 25 Sample Motions in MS Word Format Note The eBook version contains the additional supplemental materials in PDF format only It does not contain the MS Word formatted sample motions

**The Law and Child Development** Mavis Maclean, 2017-03-02 This volume asks what legal and socio legal scholarship can contribute to understanding the role of law in the care and development of children The editors have selected key articles ranging from theoretical analysis to empirical data based research that address the law s approach in the United States and the United Kingdom to resolving parenting disputes after separation protecting children from abuse and neglect and affording children procedural protections in the juvenile justice system Their introduction to these important and often distressing areas of the law confirms the importance of understanding how law works in practice and reaffirms that law itself remains responsible for articulating and protecting society s values

**Psychological Testing in Child Custody Evaluations** Leslie Drozd, James R. Flens, 2014-06-03 A focused look at the uses and misuses of psychological tests in the context of child custody This book presents an advanced examination of psychological testing and usage in the child custody arena It addresses test selection issues provides insightful discussions of how to confront confirmatory biases and avoid the distortion of test findings and presents clear instructions for the use of specific tests including MMPI 2 and Rorschach and a point counterpoint discussion of the strengths and weaknesses of the Ackerman Schoendorf Scales for Parent Evaluation of Custody ASPECT Psychological Testing in Child Custody Evaluations can be viewed as a work in three parts The first section addresses theoretical and test usage issues with chapters focusing on addressing test selection issues from legal and psychological perspectives bias issues that interfere with the evaluator s ability to collect and consider data objectively a functional comprehensive approach to the use of psychological tests in a child custody evaluation with a conceptual framework for choosing assessment techniques to assess parenting competencies and other variables important in forming opinions about custodial placement and visitation access and a practical example of how to present psychological test data in an advisory report to the court a look at psychological testing from an attorney s point of view The second section of Psychological Testing in Child Custody Evaluations focuses on the MMPI 2 and the Rorschach Inkblot Test in the child custody context investigating hypotheses that can be inferred from the MMPI 2 regarding parenting behaviors and the use and value of the Rorschach This section examines the foundation from which the MMPI 2 can generate expectations regarding five basic issues the quality of attachment and bonding potential for antisocial behavior temper control alienation of affection and chemical abuse and dependence the range of variables that will generate useful hypotheses regarding parent child interactions and family systems the effects of the circumstances of litigation on score elevations including recommended limits as to how much elevation can be dismissed as only contextual the important differences between occasion validity and attribute validity the clinical application of an objective interpretation system

including the courtroom credibility of explicit convergent validity the use of the Rorschach in child custody evaluations findings from a study using the Rorschach to address specific parenting variables The third section of Psychological Testing in Child Custody Evaluations is a focused point counterpoint discussion of ASPECT between test creator Marc J Ackerman and Mary Connell President of the American Academy of Forensic Psychology This book is essential reading for child custody evaluators family law attorneys and judges practicing in the family law arena as well as educators and students in these fields

**Creating Effective Parenting Plans** John Hartson, Brenda Payne, 2006 According to these pediatric psychologists the best interest of the child calls for a developmentally appropriate parenting plan that is custody that accurately reflects the child's physical and psychological development Even now this concept often faces courtroom challenges as it can conflict with the traditional lawyer client relationship This book explores developing alternate parenting schedules or custody with the child's best interest and developmental needs considered first Handbook of Clinical Family Therapy Jay L. Lebow, 2012-07-05 The latest theory research and practice information for family therapy The last twenty years have seen an explosion of new innovative and empirically supported therapeutic approaches for treating families Mental health professionals working with families today apply a wide range of approaches to a variety of situations and clients using techniques based on their clinically and empirically proven effectiveness their focus on specific individual and relational disorders their applicability in various contexts and their prominence in the field In this accessible and comprehensive text each chapter covers specific problems the theoretical and practical elements of the treatment approach recommended intervention strategies special considerations supporting research and clinical examples The contributors provide step by step guidelines for implementing the approaches described and discuss particular issues that arise in different couple family and cultural contexts Handbook of Clinical Family Therapy covers treatment strategies for the most common problems encountered in family therapy including Domestic violence Adolescent defiance anxiety and depression Trauma induced problems Stepfamily conflicts ADHD disruption Substance abuse in adults and adolescents Couple conflict and divorce Chronic illness A detailed reference for today's best treatment strategies the Handbook of Clinical Family Therapy brings together the top practitioners and scholars to produce an innovative and user friendly guide for clinicians and students alike

**Forensic Mental Health Assessment of Children and Adolescents** Steven N. Sparta, Gerald P. Koocher, 2006 This volume provides essential knowledge and practical suggestions for conducting forensic mental health evaluations of children and adolescents A wide range of assessment problems are described along with discussions about measurement techniques and forensic issues related to minors *The Role of the Father in Child Development* Michael E. Lamb, 2010-03-10 The Definitive reference on the important role fathers play in child development today Edited by Dr Michael Lamb the recognized authority on the role of fathers in child development The Role of the Father in Child Development Fifth Edition brings together contributions from international experts on each subject to provide a thorough and current summary of the state of

fatherhood across cultures classes economic systems and family formations This classic guide offers a single source reference for the most recent findings and beliefs related to fathers and fatherhood This thoroughly updated new edition provides the latest material on topics such as The effects of divorce Fathers from low income backgrounds Stepfathers lives exploring social context and interpersonal complexity Social policy Gay fathers Fatherhood and masculinity The definitive book on when why and how fathers matter to their children and families The Role of the Father in Child Development Fifth Edition is an essential reference for all mental health professionals who endeavor to understand and support fathers in becoming positive influences in their children s development      **Evaluating Competencies** Thomas Grisso, 2006-01-27 As in its first edition this book offers a conceptual model for understanding the nature of legal competencies The model is interpreted to assist mental health professionals in designing and performing assessments for legal competencies defined in criminal and civil law and to guide research that will improve the practice of evaluations for legal competencies A special feature is the book s evaluative review of specialized forensic assessment instruments for each of several legal competencies Three fourths of the 37 instruments reviewed in the second edition are new and thus were not reviewed in the first edition Application of the assessment model and reviews of instruments are provided for six areas of legal competence Competence to Stand Trial Waiver of Rights to Silence and Legal Counsel Not Guilty by Reason of Insanity Parenting Capacity Determination of Child Custody Guardianship and Conservatorship and Competence to Consent to Treatment
