**Religious and Scientific Socialism** Stefan Arvidsson,2025-05-30 This book explores the various ways in which socialists  
have understood the relationship between their political beliefs and different religious and philosophical traditions  
Considering the rise of secularism and the view that politics and life stances are two very different spheres it moves to  
examine the thought of those who believed that faith and politics are as separate as night and day those who on the contrary  
believed that socialism rests firmly on a religious foundation and those who have argued that socialism s foundations are  
solidly scientific and therefore atheist An examination of a range of perspectives on socialism as a political ideology a deep  
conviction and even a form of faith Secularist Religious and Scientific Socialism explores the aesthetic ethical and existential  
ideals that have ignited the hearts of socialists describing in detail how these ideals have been expressed in political activism  
cultural forms and ways of living It will therefore appeal to scholars of intellectual history political theory political philosophy  
and cultural history with interests in socialism and religion      Class List of the Books in the Reference Library Nottingham

Conference Professional Culture of the Specialist of the Future Professionals and experts in all fields need to be prepared to  
handle unfamiliar situations Some of these are unexpected events that may occur quite suddenly out of the blue and others  
may emerge in the course of technological development or predicted trends In order to successfully confront the future  
professionals therefore need to engage in hypothetical thinking as they entertain concrete scenarios or fictitious possibilities  
Scientists and engineers lead the way when they employ thought experiments and systematically consider alternative  
realities Educators come up with creative approaches to foster the art of the as if This highly interdisciplinary collection of 50  
papers discusses the theoretical challenge of hypothetical thinking and presents practical strategies for its promotion
