College Admissions and Admissions Testing in a Time of Transformational Change Kurt F. Geisinger, 2022-12-30 Perhaps no topic in higher education is more controversial than admissions whether it be to a prestigious college, graduate schools or professional schools. In response to the pandemic and a host of race relations issues in the country many colleges and universities have changed their policies regarding admissions testing. In this foundational volume renowned chapter authors address a diverse set of themes related to college admissions examining new perspectives exploring the strengths and weaknesses of current practices and discussing how institutions might use different techniques to attract diverse students particularly those who have not traditionally attended college. Experts in college admission testing admissions research and psychology come together to provide empirically based approaches and ideas. Ultimately this volume advances a future in college admissions where more students are able to succeed in college and beyond. **Educational Measurement** Robert L. Brennan, 2023-10-03 Educational Measurement has been the bible in its field since the first edition was published by ACE in 1951. The importance of this fourth edition of Educational Measurement is to extensively update and extend the topics treated in the previous three editions. As such the fourth edition documents progress in the field and provides critical guidance to the efforts of new generations of researchers and practitioners. Edited by Robert Brennan and jointly sponsored by the American Council on Education ACE and the National Council on Measurement in Education the fourth edition provides in depth treatments of critical measurement topics and the chapter authors are acknowledged experts in their respective fields. Educational measurement researchers and practitioners will find this text essential and those interested in statistics psychology business and economics should also find this work to be of very strong interest. Topics covered are divided into three subject areas: theory and general principles; construction administration and scoring and applications. The first part of the book covers the topics of validation reliability item response theory scaling and norming linking and equating test fairness and cognitive psychology. Part two includes chapters on test development test administration performance assessment setting performance standards and technology in testing. for the all new SAT exam with advice on what to expect with the new test how to prepare for the SAT essay writing section and how to avoid common mistakes **Linking and Aligning Scores and Scales** Neil J. Dorans, Mary Pommerich, Paul W. Holland, 2007-10-15 In their preface to the second edition of Test Equating Scaling and Linking Mike Kolen and Bob Brennan 2004 made the following observation Prior to 1980 the subject of equating was ignored by most people in the measurement community except for psychometricians who had responsibility for equating p vii The authors went on to say that considerably more attention is now paid to equating indeed to all forms of linkages between tests and that this increased attention can be attributed to several factors 1 An increase in the number and variety of testing programs that use multiple forms and the recognition among professionals that these multiple forms need to be linked 2 Test developers and publishers in response to critics often refer to the role of linking in reporting scores 3 The accountability movement and fairness issues related to assessment have become much more visible Those of us who work in this field know that ensuring comparability of scores is not an easy thing to do Nonetheless our customers the test takers and score users either assume that scores on different forms of an assessment can be used interchangeably or like the critics above ask us to justify our comparability assumptions And they are right to do this After all the test scores that we provide have an impact on decisions that affect people's choices and their future plans From an ethical point of view we are obligated to get it right **The Insider's Guide to the Colleges, 2005** Yale Daily News Staff, 2004-07 College students discuss what colleges are really like including grades sports social life alcohol policies gender relations admissions and classes
