Scoring the Score Ian Sapiro, 2016-11-10

Scoring the Score is the first scholarly examination of the orchestrator's role in the contemporary film industry. Orchestrators are crucial to the production of a film's score yet they have not received significant consideration in film music research. This book sheds light on this often overlooked yet vital profession. It considers the key processes of orchestrating and arranging and how they relate musical and filmic training, the wide-ranging responsibilities of the orchestrator on a film scoring project, issues related to working practices, the impact of technology, and the differences between the UK and US production processes as they affect orchestrators. Drawing on interviews with American and British orchestrators and composers, *Scoring the Score* aims to expose this often hidden profession through a rigorous examination of the creative process and working practices and analysis of the skills training and background common to orchestrators. It will appeal to scholars, students, and practitioners of film music.

Music and the Silent Film Martin Miller Marks, 1997-02-13

In this book, a leading authority on film music examines scores of the silent film era. The first of three projected volumes investigating music written for films, this thoughtful and pathbreaking study demonstrates the richness of silent film music as it details the way in which scores were often planned from the start as an integral part of the whole cinematic experience. Following an introductory chapter that outlines several key theoretical questions and surveys eight decades of writing on film music, Martin Miller Marks focuses on those scores created between 1895 and 1924. He begins by considering two early examples: one German written by persons unknown for Skladanowsky's Bioskop exhibitions in 1895 and 1896, and one French scored by Camille Saint-Saëns for the 1908 film *L'Assassinat du Duc de Guise*. Subsequent chapters fully discuss Walter Cleveland Simon's music for the American film *An Arabian Tragedy* (1912) as well as the Joseph Breil accompaniment to D.W. Griffith's *Birth of a Nation* (1915). As described in this book, Breil's memorable score, though a compilation derived from many sources, was played by an orchestra as Griffith's sweeping images filled the screen, thus contributing significantly to the great film's success while also achieving remarkable power in its own right. Marks then concludes with a look at Erik Satie's witty and innovative music for the French film *Entr'acte* (1924), which was the first film score of consequence by an avant-garde composer. Giving unprecedented attention to a vibrant, important, and oft-neglected facet of twentieth-century music, *Music and the Silent Film* will interest scholars of film theory, film history, modern music, and modern aesthetics.

A Research Guide to Film and Television Music in the United States Jeannie G. Pool, H. Stephen Wright, 2011

Unlike sources for traditional music, those for film and television music are often difficult to locate and do not follow the patterns that researchers are trained to identify. Although there have been several self-described introductions to the field and articles that summarize the problems and state of this research, no resource gathers all the

basic information In this volume Jeannie Gayle Pool and H Stephen Wright address the difficulties that scholars encounter when conducting research on film and television music Intended as a guide for those navigating the complex world of film and television music research this book presents a detailed description of primary sources and explains how to find and interpret them The authors tackle the problems of determining film score authorship and working with recordings of film music A bibliography summarizes the major works and trends in film music research and identifies the most important resources in the field Up to date information about prominent collections of film music sources and other research materials is also included Designed to clarify the nature of source materials and how they are generated A Research Guide to Film and Television Music in the United States provides clear signposts for scholars and highlights opportunities for further investigation Book jacket **Film - An International Bibliography** Malte Hagener, Michael Töteberg, 2016-12-16 Kommentierte Bibliografie Sie gibt Wissenschaftlern Studierenden und Journalisten zuverlässig Auskunft über rund 6000 internationale Veröffentlichungen zum Thema Film und Medien Die vorgestellten Rubriken reichen von Nachschlagewerk über Filmgeschichte bis hin zu Fernsehen Video Multimedia *Checklist of Writings on American Music, 1640-1992* Guy A. Hearing Film Anahid Kassabian, 2002-06 Hearing Film offers the first critical examination of music in the films of the 1980s and 1990s and looks at the burgeoning role of compiled scores in the shaping of a film Also includes 11 musical examples Film Rhythm After Sound Lea Jacobs, 2015 The seemingly effortless integration of sound movement and editing in films of the late 1930s stands in vivid contrast to the awkwardness of the first talkies Film Rhythm after Sound analyzes this evolution via close examination of important prototypes of early sound filmmaking as well as contemporary discussions of rhythm tempo and pacing Jacobs looks at the rhythmic dimensions of performance and sound in a diverse set of case studies the Eisenstein Prokofiev collaboration Ivan the Terrible Disney's Silly Symphonies and early Mickey Mouse cartoons musicals by Lubitsch and Mamoulian and the impeccably timed dialogue in Hawks's films Jacobs argues that the new range of sound technologies made possible a much tighter synchronization of music speech and movement than had been the norm with the live accompaniment of silent films Filmmakers in the early years of the transition to sound experimented with different technical means of achieving synchronization and employed a variety of formal strategies for creating rhythmically unified scenes and sequences Music often served as a blueprint for rhythm and pacing as was the case in Mickey Mousing the close integration of music and movement in animation However by the mid 1930s filmmakers had also gained enough control over dialogue recording and editing to utilize dialogue to pace scenes independently of the music track Jacobs's highly original study of early sound film practices provides significant new contributions to the fields of film music and sound studies

[Swinglines](#) Fernando Benadon, 2024-06-07 The way rhythm is taught in Western classrooms and music lessons is rooted in a centuries old European approach that favors metric levels within a grand symmetrical grid [Swinglines](#) encourages readers to experience rhythms even gridded ones as freewheeling affairs irrespective of the metric hierarchy It shows that rhythms traditionally framed as deviations and non isochronous have their own identities They are coherent products of precise musical thought and action Rather than situating them in the neither here nor there author Fernando Benadon takes a more inclusive view one where isochrony and metric grids are shown as particular cases within the universe of musical time

Don Perry Produced The Music Don Perry,2016-02-25 Don Perry was an eye witness to the birth of Rock and Roll When Elvis Presley arrived Rock and Roll exploded and Don knew he wanted to be a part of it In 1963 he sold his car and armed with enough money to last six months headed to Hollywood to become a Rock star Surely that would be enough time

That six months stretched to nearly thirty years and as Rock evolved and changed so did Don's career Don Perry Produced The Music traces his journey as a singer songwriter recording engineer record producer manager concert promoter and finally music supervisor for film and TV It also traces the golden years of Rock and Roll and how they shaped every step of the way *Music and Levels of Narration in Film* Guido Heldt,2013 Music and Levels of Narration in Film is the first book length study to synthesize scholarly contributions toward a narrative theory of film music Moving beyond the distinction between diegetic and nondiegetic music or music that is not understood as part of a film's story world Guido Heldt systematically discusses music at different levels of narration from the extrafictional to focalizations of subjectivity Heldt then applies this conceptual toolkit to study the narrative strategies of music in individual films as well as genres including musicals and horror films The resulting volume will be an indispensable resource for anyone researching or studying film music or film narratology A PDF version of this book is available for free in open access via the OAPEN Library platform www.oapen.org It has been made available under a Creative Commons Attribution 4.0 International Public License and is part of Knowledge Unlatched *Baroque Music in Post-War Cinema* Donald Greig,2021-03-04 Studies of pre-existing music in narrative cinema often focus on a single film composer or director The approach here adopts a wider perspective placing a specific musical repertoire baroque music in the context of its reception to explore its mobilisation in post-war cinema It shows how various revivals have shaped musical fashion and how cinema has drawn on resultant popularity and in turn contributed to it Close analyses of various films raise issues of baroque musical style and form to question why eighteenth century music remains an exception to dominant film music discourses Account is taken of changing modern performance practice and its manifestation in cinema particularly in the biopic This question of the reimagining of baroque repertoire leads to consideration of pastiches and parodies to which cinema has been particularly drawn and subsequently to the role that neobaroque music has played in more recent films
