Remillard, Ok-Kyeong Kim, 2020-03-16 The book presents comparative analyses of five elementary mathematics curriculum programs used in the U S from three different perspectives the mathematical emphasis the pedagogical approaches and how authors communicate with teachers These perspectives comprise a framework for examining what curriculum materials are comprised of what is involved in reading and interpreting them and how curriculum authors can and do support teachers in this process Although the focus of the analysis is 5 programs used at a particular point in time this framework extends beyond these specific programs and illuminates the complexity of curriculum materials and their role in teaching in general Our analysis of the mathematical emphasis considers how the mathematics content is presented in each program in terms of sequencing the nature of mathematical tasks cognitive demand and ongoing practice and the way representations are used Our analysis of the pedagogical approach examines explicit and implicit messages about how students should interact with mathematics one another the teacher and the textbook around these mathematical ideas as well as the role of the teacher In order to examine how curriculum authors support teachers we analyze how they communicate with teachers and what they communicate about including the underlying mathematics noticing student thinking and rationale for design elements The volume includes a chapter on curriculum design decisions based on interviews with curriculum authors **Scott Foresman-Addison Wesley Middle School Math** ,2002 *Mathematics* ,2004 **Scott Foresman - Addison Wesley Mathematics** Randall Inners Charles, Scott, Foresman and Company, Addison-Wesley Publishing Company, Pearson Education, Inc, 2004 **Middle School Math Practice Workbook, Course 3** Addison Wesley, Scott Foresman-Addison Wesley, 1999 Sfaw Math Grade 3 Practice Workbook Scott Foresman, 1997-07-22 Scott Foresman Addison Wesley MATH 2001 components for Grade 3 Assessment that Informs Practice ,2000 *Maximum Math* Kathryn Stout, 2004 Scott Foresman - Addison Wesley Mathematics: Student text ,2005 **Scott Foresman - Addison Wesley Mathematics** ,2004 Teaching resources for each grade Assessment source book Discovery Channel school masters Every student learns Home school connection Homework workbook Math diagnosis and intervention system booklet teaching guide Practice masters workbook Problem solving masters workbook Reteaching masters workbook SAT 9 practice and test prep with teacher s guide Spiral review and test
