Off the Edge Orvar Löfgren, Richard R. Wilk, 2006 Have you ever heard of the cream effect or witnessed the power of cultural backdraft Have you watched the slow process of fossilization or used the tactics of cultural stealth You might be waiting for just the right word to describe what you have seen and done This collection revitalizes the study of the cultural processes of stability and change The 25 essays invent new processes for a rapidly changing world They illustrate how different perspectives enrich cultural analysis and add a bit of playfulness and experimentation to a longstanding academic issue The authors from anthropology European ethnology sociology and cultural studies are peeking into blind spots and looking under the furniture in order to understand why and how some kinds of social life become visible while so many others remain unseen This book will inspire researchers and students to develop new approaches in cultural analysis This is a reprint of the journal *Ethnologia Europaea* Journal of European Ethnology

Religion & Contemporary Art Anthony Padgett, 2010-02 These essays explore the relationship between art and religion The first part 2001-2002 is essays about The Ism where 1994-9 Padgett united religious and spiritual perspectives by uniting the art forms appropriate to them The second part is essays from 2002-2005 when Padgett studied at Wimbledon School of Art London for an MA in Theory of Contemporary Art and Performance Padgett looks at artists Damien Hirst Thomas Hirschhorn Anton Artaud Jake and Dinos Chapman Brothers Guillermo Gomez Pena etc and develops the idea of Postmodern Religious Art His program of uniting the art forms is progressed by uniting the specific material forms of religions in semi irony with the profane whilst keeping the sacred as of highest importance The final part is the questionnaire that Padgett submitted to the Employment Tribunals giving the main arguments behind his claim that the Tate Galleries were exercising religious discrimination in the way they selected artworks

Damage Control Kerry Brougher, Russell Ferguson, Dario Gamboni, 2013 Timely and wide ranging this volume explores in depth the theme of destruction in international contemporary art While destruction as a theme can be traced throughout art history from the early atomic age it has remained a pervasive

and compelling element of contemporary visual culture Damage Control features the work of more than 40 international artists working in a range of media painting sculpture photography film installation and performance who have used destruction as a means of responding to their historical moment and as a strategy for inciting spectacle and catharsis as a form of rebellion and protest or as an essential part of re creation and restoration Including works by such diverse artists as Jean Tinguely Andy Warhol Bruce Conner Yoko Ono Gordon Matta Clark Pipilotti Rist Yoshitomo Nara and Laurel Nakadate the book reaches beyond art to enable a broader understanding of culture and society in the aftermath of World War II under the looming fear of annihilation in the atomic age and in the age of terrorism and other disasters real and imagined

The Key Issues Concerning Contemporary Art Gary Willis, 2010 This thesis argues that the contemporary artist's objective is the production of new social space and the institution of new cultural knowledge It does this by drawing an unexpected parallel between the social and political expectations facing the contemporary artist and the deepest philosophic conception of the artist's function It traces art's historical trajectory from 20th century modernism post modernism to post colonialism from a broad range of critical theoretical and curatorial perspectives

The Contemporary Museum Simon Knell, 2018-10-11 The Contemporary Museum issues a challenge to those who view the museum as an artefact of history constrained in its outlook as much by professional institutional and disciplinary creed as by the collections it accumulated in the distant past Denying that the museum can locate its purpose in the pursuit of tradition or in idealistic speculation about the future the book asserts that this can only be found through an ongoing and proactive negotiation with the present the contemporary This volume is not concerned with any present but with the peculiar circumstances of what it refers to as the global contemporary the sense of living in a globally connected world that is preoccupied with the contemporary To situate the museum in this world of real and immediate need and action beyond the reach of history the book argues is to empower it to challenge existing dogmas and inequalities and sweep aside old hierarchies As a result fundamental questions need to be asked about such things as the museum's relationship to global time and space to systems and technologies of knowing to the life well lived to the movement and rights of people and to the psychology permanence and organisation of culture Incorporating diverse viewpoints from around the world The Contemporary Museum is a follow up volume to Museum Revolutions and as such should be essential reading for students in the fields of museum and heritage studies cultural studies communication and media studies art history and social policy Academics and museum professionals will also find this book a source of inspiration

Art of the Deal Noah Horowitz, 2014-08-31 Art today is defined by its relationship to money as never before Prices of living artists' works have been driven to unprecedented heights conventional boundaries within the art world have collapsed and artists now think ever more strategically about how to advance their careers Artists no longer simply make art but package sell and brand it Noah Horowitz exposes the inner workings of the contemporary art market explaining how this unique economy came to be how it works and where it's headed He takes a unique look at the globalization of the art world and the changing face of the business offering the clearest analysis yet of how investors speculate in the market and how emerging art forms such as video and installation have been drawn into the commercial sphere By carefully examining these developments against the backdrop of the deflation of the contemporary art

Harvie, 2013-08-29 This book asks what is the quality of participation in contemporary art and performance Has it been damaged by cultural policies which have entrepreneurialized artists cut arts funding and cultivated corporate philanthropy Has it been fortified by crowdfunding pop ups and craftsmanship And how can it help us to understand social welfare *Contemporary British Art* Grant Pooke, 2012-11-12 The last few decades have been among the most dynamic within recent British cultural history Artists across all genres and media have developed and re-fashioned their practice against a radically changing social and cultural landscape both national and global This book takes a fresh look at some of the themes ideas and directions which have informed British art since the later 1980s through to the first decade of the new millennium In addition to discussing some iconic images and examples it also looks more broadly at the contexts in which a new post conceptual generation of artists those typically born since the late 1950s and 1960s have approached and developed aspects of their professional practice *Contemporary British Art* is an ideal introduction to the field To guide the reader the book is organised around genres or related practices painting sculpture and installation and film video and performance The first chapter explores aspects of the contemporary art market and some of the contexts within which art is made supported and exhibited The chapters that discuss various genres of art practice also mention books that may be useful to support further reading Extensively illustrated with a wide range of work both known and less well known from artists such as Chris Ofili Rachel Whiteread Damien Hirst Banksy Anthony Gormley Jack Vettriano Sam Taylor Wood Steve McQueen and Tracey Emin and many more Scale in Contemporary Sculpture Rachel Wells, 2017-07-05 The first book to devote serious attention to questions of scale in contemporary sculpture this study considers the phenomenon within the interlinked cultural and socio historical framework of the legacies of postmodern theory and the growth of global capitalism In particular the book traces the impact of postmodern theory on concepts of measurement and exaggeration and analyses the relationship between this philosophy and the sculptural trend that has developed since the early 1990s Rachel Wells examines the arresting international trend of sculpture exploring scale including American precedents from the 1970s and

1980s and work by the Young British Artists Noting that the emergence of this sculptural trend coincides with the end of the Cold War Wells suggests a similarity between the quantitative ratio of scale and the growth of global capitalism that has replaced the former status quo of qualitatively opposed systems This study also claims the allegorical nature of scale in contemporary sculpture outlining its potential for critique or complicity in a system dominated by quantitative criteria of value In a period characterised by uncertainty and incommensurability Wells demonstrates that scale in contemporary sculpture can suggest the possibility of and even an unashamed reliance upon comparison and external difference in the construction of meaning
