The Divine Imprint Russell Stannard, 2017-04-20 The so called New Atheists receive much publicity but their demand to be provided with incontrovertible evidence for the existence of God and that such evidence must come from a scientific examination of the physical world is the wrong approach As many theologians and philosophers have claimed the search for God begins by looking inwards into oneself But what does that mean Surely looking inwards we find nothing but the contents of one s own mind Where does God come in It is by the examination of the contents of the mind and trying to understand how they got there that one seeks clues about God s influence on the mind Our consciousness bears a resemblance to that Consciousness from which it is directly derived It bears his imprint It is from the characteristics of that imprint we get to know what kind of God we are dealing with Only then can we be open to realising how that other creation of his the physical world also bears his imprint
