Focus on Film , 1974 **Looking-Glass Wars: Spies on British Screens since 1960** Alan Burton, 2018-01-31 *Looking*

*Glass Wars* *Spies on British Screens since 1960* is a detailed historical and critical overview of espionage in British film and television in the important period since 1960 From that date the British spy screen was transformed under the influence of the tremendous success of James Bond in the cinema the spy thriller and of the new style spy writing of John le Carr and Len

Deighton the espionage story In the 1960s there developed a popular cycle of spy thrillers in the cinema and on television The new study looks in detail at the cycle which in previous work has been largely neglected in favour of the James Bond films The study also brings new attention to espionage on British television and popular secret agent series such as Spy Trap Quiller and The Sandbaggers It also gives attention to the more realistic representation of spying in the film and television adaptations of le Carr and Deighton and other dramas with a more serious intent In addition there is wholly original attention given to nostalgic spy fictions on screen adaptations of classic stories of espionage which were popular in the late 1970s and through the 1980s and to historical spy fiction dramas which treated real cases of espionage and their characters most notably the notorious Cambridge Spies Detailed attention is also given to the secret state thriller a cycle of paranoid screen dramas in the 1980s which portrayed the intelligence services in a conspiratorial light best understood as a reaction to excessive official secrecy and anxieties about an unregulated security service The study is brought up to date with an examination of screen espionage in Britain since the end of the Cold War The approach is empirical and historical The study examines the production and reception literary and historical contexts of the films and dramas It is the first detailed overview of the British spy screen in its crucial period since the 1960s and provides fresh attention to spy films series and serials never previously considered

**Moving Picture World and View Photographer** ,1916 **The Adaptation Industry** Simone Murray,2012-03-12 Adaptation constitutes the driving force of contemporary culture with stories adapted across an array of media formats However adaptation studies has been concerned almost exclusively with textual analysis in particular with compare and contrast studies of individual novel and film pairings This has left almost completely unexamined crucial questions of how adaptations come to be made what are the industries with the greatest stake in making them and who the decision makers are in the adaptation process The Adaptation Industry re imagines adaptation not as an abstract process but as a material industry It presents the adaptation industry as a cultural

economy of six interlocking institutions stakeholders and decision makers all engaged in the actual business of adapting texts authors agents publishers book prize committees scriptwriters and screen producers and distributors Through trading in intellectual property rights to cultural works these six nodal points in the adaptation network are tightly interlinked with success for one party potentially auguring for success in other spheres But marked rivalries between these institutional forces also exist with competition characterizing every aspect of the adaptation process This book constructs an overdue sociology of contemporary literary adaptation never losing sight of the material and institutional dimensions of this powerful process
