The Ashgate Research Companion to Byzantine

Hagiography Stephanos Efthymiadis, 2020-02-25 For an entire millennium Byzantine hagiography inspired by the veneration of many saints exhibited literary dynamism and a capacity to vary its basic forms. The subgenres into which it branched out after its remarkable start in the fourth century underwent alternating phases of development and decline that were intertwined with changes in the political, social and literary spheres. The selection of saintly heroes, an interest in depicting social landscapes and the modulation of linguistic and stylistic registers captured the voice of homo byzantinus down to the end of the empire in the fifteenth century. The seventeen chapters in this companion form the sequel to those in volume I which dealt with the periods and regions of Byzantine hagiography and complete the first comprehensive survey ever produced in this field. The book is the work of an international group of experts in the field and is addressed to both a broader public and the scholarly community of Byzantinists, medievalists, historians of religion and theorists of narrative. It highlights the literary dimension and the research potential of a representative number of texts, not only those appreciated by the Byzantines themselves but those which modern readers rank high due to their literary quality or historical relevance. **The**

Ashgate Research Companion to Byzantine Hagiography Professor Stephanos Efthymiadis, 2013-07-28 Hagiography is the most abundantly represented genre of Byzantine literature and it offers crucial insight to the development of religious thought and practice, social and literary life and the history of the empire. It emerged in the fourth century with the pioneering life of St Antony and continued to evolve until the end of the empire in the fifteenth century and beyond. The appeal and dynamics of this genre radiated beyond the confines of Byzantium and it was practised also in many Oriental and Slavic languages within the orbit of the broader Byzantine world. This companion is the work of an international team of specialists and represents the first comprehensive survey ever produced in this field. It consists of two volumes and is addressed to both a broader public and the scholarly community of Byzantinists, medievalists, historians of religion and theorists of the narrative. This first volume covers the authors and texts of the four distinctive periods during which Greek Byzantine hagiography developed as well as the hagiography produced in Oriental and Slavic languages and in geographical milieux around the periphery of the empire, from Italy to Armenia. Volume II addresses questions of genres and the social and other contexts of Byzantine hagiography. **The New Cambridge History of the Bible: Volume 2, From 600 to 1450**

Sharing the Sacred Arie Kofsky, Guy G. Stroumsa, 1998 In a contrast to the more monolithic religious history of other lands or geographical entities the plurality of religious traditions and identities is an essential and distinctive factor in the history of the Holy Land These identities have usually developed in opposition to one another and inter religious relations have more often than not reflected negative if not openly hostile attitudes to outsiders Nonetheless the daily polemical or intellectual encounter between members of different religious traditions has occasionally led to a particular dynamic that influences the internal evolutions of each community Sometimes even common interests or patterns have appeared among the different traditions and communities Through a series of case studies *Sharing the Sacred* exemplifies the variety of issues and methods involved in the study of the religious history of the Holy Land
