Morrissey on Planning, A Guide to Long-Range

Planning George L. Morrissey,1996 The second in a three volume series A Guide to Long Range Planning is written primarily for major unit or corporate group heads responsible for three to five year planning It helps the team outline long term

objectives and translate the vision mission and strategy into future organizational positioning As with the other volumes in this series George Morrissey long recognized as a leading expert in the areas of planning and strategic thinking offers his

insights into how planning actually works in organizations Succinct and easy to read the books in this series can be used in any sequence and stand on their own as individual guides to more effective planning The companion volumes include Volume

One Guide to Strategic Thinking and Volume III Guide to Tactical Planning Each draws on examples from individual departments and work units as well as from the perspective of the total organization making them useful for all types of planning at any level of an organization *Management Concepts for Civil Engineers* K. Anbuvelan,2005 Planning Educational Facilities Glen I. Earthman,2019-03-13 This book covers the entire planning process educators must employ to adequately administer the planning process for a new or renovated school building The structure of the book is to follow a sequential planning process for a new school building or renovation project from the beginning of a need for a new school to the final evaluation of the planning product and planning process In addition to complete chapters describing each planning process there are auxiliary chapters devoted to topics important to the planning process such as Green Schools Critical Issues and Safe Buildings A unique chapter is the last one dealing with Problem Based Learning In this chapter problems from actual experience in the field are presented to students for consideration and discussion
