Bridget Knight,2022-12-02 Education is a values based experience Consciously or not we are highly attuned to one another s values We see time and again that the best schools are compelled and propelled by strong values which inspire and guide the creation of a meaningful context for learning and an aspirational ethos However values can often be submerged overlooked or ignored By infusing our teaching with values both explicit and implicit learning can serve a greater purpose nourishing us as humans and deepening our experience Drawing on the views and inspired teaching practice of a range of contributors this book offers both the theoretical underpinning and practical examples to bring values to life in the classroom It shows how each subject has a unique and valuable role and how a values based culture generates a powerful climate for successful learning in every subject discipline It is a bedside book that will bring joy and practical support to the many professionals who work from the heart and wish to touch the future It offers validation to those teachers who deeply care about the subject disciplines they teach ultimately making a difference to children their lives and their world In our current educational context this work is unashamedly people orientated futures thinking and forward facing
