Multiculturalism In Asia:

Multiculturalism in Asia Will Kymlicka, Baogang He, 2005-10-06 This volume explores the different ways that ethnic and religious diversity is conceptualized and debated in South and East Asia In the first few decades following decolonization talk of multiculturalism and pluralism was discouraged as states attempted to consolidate themselves as unitary and homogenizing nation states Today however it is widely recognized that states in the region must come to terms with the enduring reality of ethnic and religious cleavages and find new ways of accommodating and respecting diversity As a result many countries are now debating policies to accommodate minorities including recognition of indigenous rights minority language rights consociational power sharing regional autonomy and multination federalism This is often described as a key ingredient in any process of democratization in the region One manifestation of this new ethos is the growing rhetoric of multiculturalism often imported from the West And indeed Western models of minority rights have had an influence in many Asian countries often promoted by international organizations However Asian societies also have their own traditions of peaceful coexistence amongst linguistic and religious groups All of the major ethical and religious traditions in the region from Confucian and Buddhist to Islamic and Hindu have their own conceptions of tolerance and their own recipes for sustaining unity amidst diversity These traditions continue to shape people's beliefs and practices in the region Even the distinctive conception of Marxism developed in the region provides an influential perspective on these issues not found in the West The rhetoric of multiculturalism may be ubiquitous around the world but it is being used to express quite different ideas and norms Using both case studies and thematic essays this volume examines the pre colonial traditions colonial legacies and post colonial ideologies that influence contemporary debates on multiculturalism in the region It explores the areas of convergence and divergence between these different perspectives and the extent to which they provide viable frameworks for managing ethnic and religious diversity in the region *Multiculturalism in East Asia* Koichi Iwabuchi,, Hyun Mee Kim,, Hsiao-Chuan Hsia, 2016-10-04 The first decade of the 21st century has witnessed the decline of multiculturalism as a policy in Western countries with tighter national border controls and increasing anti migration discourse But what is the impact of multiculturalism in East Asia How will East Asian nations develop their own policies on migration and multiculturalism What does cultural diversity mean for their future Multiculturalism in East Asia examines the development and impact of multiculturalism in East Asia with a focus on Japan South Korean and Taiwan It uses a transnational approach to explore key topics including policy racialized discourses on cultural diversity and the negotiation process of marginalized subjects and groups While making a contextualized analysis in each country contributors will consciously make a comparison and references to other East Asian cases while also situating this as well as put their case in a wider transnational context

Routledge Handbook of Race and Ethnicity in Asia Michael Weiner, 2021-09-30. The Routledge Handbook of Race and Ethnicity in Asia introduces theoretical approaches to the study of race, ethnicity, and indigeneity in Asia beyond those commonly grounded in the Western experience. The volume's twenty-eight chapters consider not only the relationship between ethnic or racial minorities and the state but social relations within and between individual and transnational communities. These shape not only the contours of governance but also the means by which knowledge of national identity, self, and other have been constructed and reconstructed over time. Divided into four sections, it provides holistic and comparative coverage of South, South East, and East Asia as well as Australasia and Oceania, an area that extends from Pakistan in the West to Hawaii in the East. Contributors to this handbook offer a variety of disciplinary and interdisciplinary perspectives, opening a domain of scholarship wherein the relationship between phenotype and racism is less pronounced than European and North American approaches, which have often privileged the so-called colour stigmata, leading to further exclusions of particular ethnic, racial, and indigenous communities. This volume seeks to overcome racism and white ideologies embedded in theories of race and ethnicity in Asia, proving a valuable resource to both students and scholars of comparative racial and ethnic studies, international relations, and human rights.

Multiculturalism in Asia - Peace and Harmony, 2018 **Minority Students in East Asia** JoAnn Phillion, Ming Tak Hue, Yuxiang Wang, 2012-03-28 In *Minority Students in East Asia* Government Policies School Practices and Teacher Responses authors discuss their research on minority students schooling elementary to higher education in Mainland China Hong Kong Japan South Korea and Taiwan Minority students educational issues are often neglected in literature and in practice social and educational conditions that have resulted from globalization in particular issues pertaining to minority groups education language and other human rights receive little attention In addition many areas of East Asia have viewed themselves as single ethnicity countries and have not articulated strong agendas around minority rights The purpose of this book is to highlight key educational issues for specific minority populations in East Asia Themes addressed include government policies related to minorities equity issues in the education of minorities school practices and teacher perspectives on minorities identity construction in terms of language and culture national versus ethnic identity teacher education issues and parental concerns The authors also discuss new theoretical orientations to understanding minority educational issues A particular strength of this book is the use of multicultural education theories to both articulate concerns related to the education of minority students and to provide solutions to these concerns

Minorities and Populism - Critical Perspectives from South Asia and Europe Volker Kaul, Ananya Vajpeyi, 2020-02-28 This volume assembles renowned scholars to address for the first time the relationship between minorities and populism in South Asia and Europe from a critical perspective Despite the very different and to some extent opposite historical and political trajectories there is today a convergence on nationalist affirmation and on majoritarian politics between South Asia and Europe In India the Hindu majority rebels against wide ranging minority rights anchored in the Constitution In Europe the refugee crisis and Islamic radicalization bring to the forefront the postcolonial legacy Despite all rhetoric there are obvious dangers of majoritarianism Populist parties are divisive partisan disregard minority rights engage in lynching social division stigmatization and exclusion turning minorities into second class citizens There is a profound structural connection between minorities and the current rise of populism in India and Europe But there remains a deep perplexity and also anxiety Does the presence of minorities necessarily have to trigger majoritarian policies Are there no solutions to this dilemma Many observers considered multicultural policies and affirmative action programs in India as a possible model for Europe to adopt in order to achieve greater integration But eventually they seem to have failed Why so

Are multiculturalism and the recognition of differences still options today On the other hand most scholars in India typically reject the European model of liberal democracy and secularism as impracticable in India and locate the reason for the current malaise in the west But is liberal democracy really so bad in dealing with pluralism This volume collecting a selection of the Reset DOC Venice Padua Delhi dialogue series is going to answer two fundamental questions First what precisely is the nexus between minorities and populism in South Asia and Europe Starting from those case studies the authors will also draw some general theoretical inferences about the nature of populism Secondly given the dangers of populism for minorities the volume will look for the most adequate and feasible solutions
