shows how they can be used for diagnosing life's problems and providing solutions. It shows how numbers are a mirror of our very essence explaining the relevance of time cycles and dates of birth. It also highlights the universal message of the ten Sikh gurus and shows how you can become a Ten in One Being. As an offering of the formula behind all formulas, it offers no quick fixes but presents numerology as a multi-faceted jewel that you can refer to again and again in your life. Not limited to any one numerology system, it reveals the ground of them all. Describing the essence of numbers, it goes beyond the usual fortune telling or application of a particular system to put the soul back into numerology. It covers dates of birth, time calendars, and spiritual bodies, telling you more about yourself in a friendly way than you imagine there is to know.

In mathematics, cranks are people who insist they understand something new about math even when the world tells them they are doing it wrong. This introduction to calculus is written with those cranks in mind based on the foundational course that Nets Katz teaches at Caltech. It emphasizes the practical purposes of the foundations such as tracking errors in calculations. In addition to covering the basics of single variable calculus, the book outlines the mathematical method: the ability to express oneself with absolute precision and then to use logical proofs to establish that certain statements are universally true. Katz emphasizes conceptual clarity as well as testing hypotheses and writing complete proofs. The result is a rigorous calculus book of use not only to future mathematicians but also to scientists and engineers. *Maths.
