Fillers, Pauses and Placeholders Nino Amiridze, Boyd H. Davis, Margaret MacLagan, 2010-09-29 Fillers are items that speakers insert in spontaneous speech as a

repair strategy Types of fillers include hesitation markers and placeholders Both are used to fill pauses that arise during planning problems or in lexical retrieval failure However while hesitation markers may not bear any resemblance to lexical items they replace placeholders typically share some morphosyntactic properties with the target form Additionally fillers can function as a pragmatic tool in order to replace lexical items that the speaker wants to avoid mentioning for some reason The present volume is the first collection on the topic of fillers and will be a useful reference work for future investigations on the topic It consists of typological surveys and in depth studies exploring the form and use of fillers across languages and sections of different populations including cognitively impaired speakers The volume will be interesting to typologists and linguists working in discourse studies

Crocodile Undone Marcus Baynes-Rock, 2020-03-19 Across the world animals are being domesticated at an unprecedented rate and scale But what exactly is domestication and what does it tell us about ourselves In this book Marcus Baynes Rock seeks the common thread linking stories about the domestication of Australia's native animals arguing that domestication is part of a process by which late modernity threatens to undo the world In a deeply personal account the author tells of his encounters with crocodiles and emus behind fences dingoes and kangaroos crossing boundaries and native bees producing honey in his suburban backyard Drawing on comparisons between Aboriginal and colonial Australians Baynes Rock reveals how the domestication of Australia's fauna is a process of unmaking As an extension of late modernity the connections that tie humans and other animals to wider ecologies are being severed threatening to isolate us and our domesticates from the rest of the world It is here that Baynes Rock reveals a key difference between Aboriginal and colonial Australian modes of landscape management while one is focused on a systemic approach

and sees humans as integral to ecological integrity the other seeks to sever domesticates from ecological processes The question that emerges is How might we reconfigure and maintain these connections without undoing humanity Written in the author's characteristically frank passionate and humorous style *Crocodile Undone* takes the reader on a journey across both physical and philosophical landscapes This fascinating narrative will appeal to anyone interested in the vital connections between humans and animals
