Jorgensen,2021-11-09 What values should form the foundation of music education And once we decide on those values how do we ensure we are acting on them In Values and Music Education esteemed author Estelle R Jorgensen explores how values apply to the practice of music education We may declare values but they can be hard to see in action Jorgensen examines nine quartets of related values and offers readers a roadmap for thinking constructively and critically about the values they hold In doing so she takes a broad view of both music and education while drawing on a wide sweep of multidisciplinary literature Not only does Jorgensen demonstrate an analytical and dialectical philosophical approach to examining values but she also seeks to show how theoretical and practical issues are interconnected An important addition to the field of music education Values and Music Education highlights values that have been forgotten or marginalized

underscores those that seem perennial and illustrates how values can be double edged swords **Invented Worlds** Ellen Winner,1982 Cave paintings of our prehistoric ancestors elaborate ritual dances of preliterate tribesmen long lines at the movies earnest scribbles of the three year old next door evidence of human preoccupation with art is everywhere and it is overwhelming But unlike other human universals language tool use the family art makes no material contribution to mankind s survival What impels the artist to the lonely effort at self expression What moves the audience to resonate to the work of a master What accounts for the child s inherent fascination with pictures and stories and songs These questions are among the deepest we can ask about human nature Freud deemed some of them forever unanswerable but modern psychology has made new inroads into these old mysteries Invented Worlds provides a complete authoritative account of this progress Dealing with the three major art forms painting music and literature Ellen Winner shows how the artist fashions a symbolic world that transforms the experience of the observer She probes the adult s ability to create and respond to works of art In addition she examines children s art for what it can reveal about the artistic impulse before adult convention becomes a shaping force Finally in order to reach a better understanding of the biological bases of artistry Winner discusses the art of the mentally disturbed and the neurologically impaired patient The sum of these discussions is more than an up to date handbook to the field it is nothing less than a new synthesis of our understanding of man s artistic nature Written with admirable clarity Invented Worlds is a book that can be used by professionals and students in psychology education and the arts as well as anyone with reason to be curious about the processes that underlie the creation and enjoyment of art
