starting point and rooted in Nuar Alsadir's experience as a poet and psychoanalyst *Animal Joy* seeks to recover the sensation of being present and embodied Writing in a poetic associative style blending the personal with the theoretical Alsadir ranges from her experience in clown school Anna Karenina's morphine addiction Freud's un-Freudian behaviors marriage brokers and war brokers to Not Jokes Abu Ghraib Frantz's negrophobia smut the Brett Kavanaugh hearings laugh tracks the problem with adjectives and how poetry can wake us up At the center of the book however is the author's relationship with her daughters who erupt into the text like sudden unexpected laughter These interventions frank tender and always a challenge to the writer and her thinking are like tiny revolutions pointedly showing the dangers of being severed from one's true self and hinting at ways one might be called back to it A bold and insatiably curious prose debut *Animal Joy* is an ode to spontaneity and feeling alive

Beethoven's Ninth Esteban Buch, 2004-05 Who hasn't been stirred by the strains of Beethoven's Ninth Symphony That's a good question claims Esteban Buch German nationalists and French republicans communists and Catholics have all in the course of history embraced the piece It was performed under the direction of Leonard Bernstein at a concert to mark the fall of the Berlin Wall yet it also serves as a ghastly and ironic leitmotif in Stanley Kubrick's *A Clockwork Orange* Hitler celebrated his birthdays with it and the government of Rhodesia made it their anthem And played in German concentration camps by the imprisoned it also figured prominently at Mitterrand's 1981 investiture In his remarkable history of one of the most popular symphonic works of the modern period Buch traces such complex and contradictory uses and abuses of Beethoven's Ninth Symphony since its premier in 1824 Buch shows that Beethoven consciously drew on the tradition of European political music with its mix of sacred and profane military and religious themes when he composed his symphony But while Beethoven obviously had his own political aspirations for the piece he wanted it to make a statement about ideal power he could not have had any idea of the antithetical political uses nationalist and universalist to which the Ninth Symphony has been put since its creation Buch shows us how the symphony has been deployed throughout nearly two centuries and in the course of this exploration offers what was described by one French reviewer as a fundamental examination of the moral value of art Sensitive and fascinating this account of the tangled political existence of a symphony is a rare book that shows the life of an artwork through time shifted and realigned with the currents of history

When Race Trumps Merit Heather Mac Donald, 2023-04-18 Does your workplace have too few black people in top jobs It's racist Does the advanced math and science high school in your city have too many Asians It's racist Does your local museum employ too many white women It's racist too After the Black Lives Matter protests of 2020 prestigious American institutions from the medical profession to the fine arts pleaded guilty to systemic racism How else explain why blacks are overrepresented in prisons and underrepresented in C suites and faculty lounges their leaders asked The official answer for those disparities is disparate impact a once obscure legal theory that is now transforming our world Any traditional standard of behavior or achievement that impedes exact racial proportionality in any enterprise is now presumed

racist Medical school admissions tests expectations of scientific accomplishment in the award of research grants the enforcement of the criminal law all are under assault because they have a disparate impact on underrepresented minorities When Race Trumps Merit provides an alternative explanation for those racial disparities It is large academic skills gaps that cause the lack of proportional representation in our most meritocratic organizations and large differences in criminal offending that account for the racially disproportionate prison population The need for such a corrective argument could not be more urgent Federal science agencies now treat researchers skin color as a scientific qualification Museums and orchestras choose which art and music to promote based on race Police officers avoid making arrests and prosecutors decline to bring charges to avoid disparate impact on minority criminals When Race Trumps Merit breaks powerful taboos But it is driven by a sense of alarm supported by detailed case studies of how disparate impact thinking is jeopardizing scientific progress destroying public order and poisoning the appreciation of art and culture As long as alleged racism remains the only allowable explanation for racial differences we will continue tearing down excellence and putting lives as well as civilizational achievement at risk *Children of the Stone* Sandy Tolan,2015-04-07 From the author of top selling

Sport and Art Andrew Edgar, 2016-04-08 *Sport and Art* explores relationship of sport to art It does not argue that sport is one of the arts but rather that sport and art hold common ground Both are ways in which humans confront philosophical challenges though they do this through very different media While art deploys sensual media such as paint or sound sport is the pursuit of a physical challenge at which the athlete may fail This is to propose in an argument that has its roots in Hegel's aesthetics that sport may be interpreted as a way of reflecting upon metaphysical and normative issues such as the nature of human freedom fate and chance and even our sense of space and time This argument is developed by proposing the concept of a sportworld an atmosphere of theory and a knowledge of history through which an event is interpreted and thereby constituted as sport Ultimately *Sport and Art* argues that in order to be truly appreciated sport must be understood within a modernist aesthetics That is to say that sport is not about beauty but rather about the struggle to find meaning in sporting triumph and crucially sporting failure This book was published as a special issue of *Sport Ethics and Philosophy* **German Information Center Film and Video Catalog**, 1990 Celsius 7/7 Michael Gove, 2014-08-21 *Celsius 7 7* analyses how the West's approach to fundamentalism is destined to lead to further atrocities In his column which appeared in *The Times* on the morning of 9 11 Michael Gove prophetically argued that the West's policy of appeasement towards terror was destined to provoke yet greater atrocities In *CELSIUS 7 7* Gove explores the roots of Islamic rage the historical factors which culminated in the current terrorist campaign and the Muslim world's troubled accommodation with modernity He also analyses the intellectual roots and political appeal of Islamism explains the factors behind Jihadi violence and places the current fundamentalist challenge in context Combining a broad historical sweep with character sketches of key figures such as Michel Aflaq Charles de Gaulle Sayyid Qutb Donald Rumsfeld Abu Musab al Zarqawi Henry Kissinger and Osama bin Laden as well as a detailed survey of Western political failures Gove's account is a shrewd and detached analysis that provides powerfully convincing recommendations for future action *Sport, Music, Identities* Anthony Bateman, 2016-01-08 Despite the close and longstanding links between sport and music the relationships between these two significant cultural forms have been relatively neglected This book addresses the oversight with a series of highly original essays written by authors from a range of academic disciplines including history psychology musicology and cultural studies It deals with themes including sport in music music in sport the use of music in mass sporting events and sport music and protest In so doing the book raises a range of important themes such as personal and collective identity cultural value ideology globalisation and the
