Borges' Classics Laura Jansen, 2018-06-14 In *Borges Classics* Laura Jansen reads the oeuvre of the Argentine author Jorge Luis Borges as a radically globalized model for reimagining our relationship with the classical past This major study reveals how Borges constructs a new physics of reading the classics which privileges a paradoxical vision of the canon as universal yet centreless and eschews fixed ideas about the cultural history of the West Borges unique approach transforms classical antiquity into a simultaneously familiar and remote world whose legacy is both urgent and unstable In the process Borges repositions the classical tradition at the intersection of the traditional Western canon and modernist literature of the peripheral West Jansen's study traces Borges encounters with the classics through appeal to themes central to Borges thought such as history and fiction memory and forgetfulness the data of the senses and the vectors that connect cultures and countries **The Classical Review**, 1929 **The Classical Weekly**, 1921 Derek Walcott and the Creation of a Classical Caribbean Justine McConnell, 2023-05-18 Throughout his career Derek Walcott turned to the literature and cultures of ancient Greece and Rome His book length poem recasting the epics of Homer Virgil and Dante in St Lucia is best known in this regard yet *Omeros* is only the pinnacle of a lengthy and lively dialogue that Walcott developed between the ancient Mediterranean and the modern Caribbean *Derek Walcott and the Creation of a Classical Caribbean* explores how in developing that discourse between ancient and modern between Europe and the Caribbean Walcott refuted the suggestion that to engage with literature from elsewhere was to lack originality instead he asserted a place for Caribbean art in a global transhistorical canon Drawing on Walcott's own theoretical concerns this book explores his engagement with Graeco Roman antiquity from three key perspectives Firstly that a perception of time as linear must be coupled with an understanding of it as simultaneous thereby doing away with the oppressive power of history and confirming the New World on a par with the Old Secondly that syncretism lies at the heart of Caribbean life and art with influences from Africa Asia and Europe

constituting key parts of Caribbean identity alongside its indigenous cultures Thirdly that Caribbean literature creates the world anew without erasing the past With these three postcolonial conceptions at the heart of his engagement with ancient Greece and Rome Walcott revealed the reasons why classical reception has been a rich facet of Caribbean artistry **OCR Anthology for Classical Greek AS and A Level: 2026-2028** Matthew Barr, John Claughton, Benedict Gravel, Ellice Hetherington, Rowena Hewes, Stuart R.
