Stalin's British Victims Francis Beckett, 2016-03-17 First published in 2004 this book tells the stories of four remarkable British women whose lives were scorched by Stalin's purges One was shot as a spy one nearly died as a slave labourer in Kazakhstan and two saw their husbands taken away to the gulag and had to spirit their small children out of the country We think of the horrors of the middle of the twentieth century the Holocaust in Central Europe the purges in the Soviet Union as something foreign terrible but remote Rosal Rust Rose Cohen Freda Utley and Pearl Rimel were all Londoners Like hundreds of young idealistic Britons in the 1930s they looked to the Soviet Union for inspiration for a way in which society could be run better without the exploitation and poverty which unrestrained capitalism had created They were less fortunate than most of us they saw their dreams fulfilled In this book Francis Beckett draws on personal letters interviews with surviving relatives and archivists to create a picture of four courageous intelligent and very different women The result is a harrowing human document with vivid and unforgettable insights into the world of Stalin's Russia its secret trials labour camps random disappearances and concealed executions

America Last: The Right's Century-Long Romance with Foreign Dictators Jacob Heilbrunn, 2024-02-20 A leading journalist and public intellectual explains the long disturbing history behind the American Right s embrace of foreign dictators from Kaiser Wilhelm and Mussolini to Putin and Orban Why do Donald Trump Tucker Carlson and much of the far Right so explicitly admire the murderous and incompetent Russian dictator Vladimir Putin Why is Ron DeSantis drawing from Victor Orb n s illiberal politics for his own policies as governor of Florida a single American state that has more than twice the population of Orb n s entire nation Hungary In *America Last* Jacob Heilbrunn a highly respected observer of the American Right demonstrates that the infatuation of American conservatives with foreign dictators though a striking and seemingly inexplicable fact of our current moment is not a new phenomenon It dates to the First World War when some conservatives enthralled with Kaiser Wilhelm II openly rooted for him to defeat the forces of democracy In the 1920s and 1930s this affinity became even more pronounced as Hitler and Mussolini attracted a variety of American admirers Throughout the Cold War the Right evinced a fondness for autocrats such as Francisco Franco and Augusto Pinochet while some conservatives wrote apologias for the Third Reich and for apartheid South Africa The habit of mind is not really about foreign policy however As Heilbrunn argues the Right is drawn to what it perceives as the impressive strength of foreign dictators precisely because it sees them as models of how to fight against liberalism and progressivism domestically *America Last* is a guide for the perplexed identifying and tracing a persuasion or what one might call the illiberal imagination that has animated conservative politics for a century now Since the 1940s the Right has railed against communist fellow travelers in America Heilbrunn finally corrects the record showing that dictator worship is an unignorable tradition within modern American conservatism and what it means for us today

Ideology and the Ideologists Lewis S. Feuer, 2017-07-05 The revival of ideology which began early in the second half of the last century has led to reconsideration of the following questions What underlies the pattern of the rise and decline of the ideological mode of thought What leads young intellectuals to search for an ideology What accounts for the changes in ideological fashion over time and nation and shifts from one set of philosophical tenets to another Who indeed are the intellectuals Studies of ideology have tended to range themselves for or against particular viewpoints or have concerned themselves with defining perspectives The purpose of this book is to examine the common causal patterns in the development of various differing ideologies Feuer finds that any ideology may be said to be composed of three ingredients The most basic and invariant is some form of Mosaic myth Every ideology also has its characteristic philosophical tenets spreading from left to right which conform to the cycle of ideas and finally an ideology must be taken up by some section of the population who can translate it into action Intellectuals in generational revolt find in some version of the ideological myth a charter and dramatization of their emotions aims and actions Since each generation of intellectuals tends to reject its predecessors doctrines a law of intellectual fashion arises the alternation of philosophical doctrines Ideology has inevitably made for an authoritarian presumption on the part of master intellectuals and marginal ones and assumes their antagonism to objective truth and science It is Feuer s contention that only when intellectuals abandon ideology in favor of science or scholarship will an unfortunate chapter in the history of human unreason be overcome
