Odyssey The Authorised Biography Of Arthur C Clarke:

Odyssey Neil McAleer,1992 *Arthur C. Clarke* Neil McAleer,1993-08 sure to enlighten and enhance the reading pleasure of Arthur C Clarke s countless followers Arthur C. Clarke Gary Westfahl,2018-06-14 Already renowned for his science fiction and scientific nonfiction Arthur C Clarke became the world s most famous science fiction writer after the success of 2001 A Space Odyssey He then produced novels like Rendezvous with Rama and The Fountains of Paradise that many regard as his finest works Gary Westfahl closely examines Clarke s remarkable career ranging from his forgotten juvenilia to the passages he completed for a final novel The Last Theorem As Westfahl explains Clarke s science fiction offered original perspectives on subjects like new inventions space travel humanity s destiny alien encounters the undersea world and religion While not inclined to mysticism Clarke necessarily employed mystical language to describe the fantastic achievements of advanced aliens and future humans Westfahl also contradicts the common perception that Clarke s characters were bland and underdeveloped arguing that these reticent solitary individuals who avoid conventional relationships represent his most significant prediction of the future as they embody the increasingly common lifestyle of people in the twenty first century **The Oxford Companion to English Literature** Dinah Birch,2009-09-24 Written by a team of more than 150 contributors working under the direction of Dinah Birch and ranging in influence from Homer to the Mahabharata this guide provides the reader with a comprehensive coverage of all aspects of English literature **Cult Film as a Guide to Life** I.Q. Hunter,2016-09-08 Cult Film as a Guide to Life investigates the world and experience of cult films from well loved classics to the worst movies ever made Including comprehensive studies of cult phenomena such as trash films exploitation versions cult adaptations and case studies of movies as different as Showgirls Room 237 and The Lord of the G Strings this lively provocative and original book shows why cult films may just be the perfect guide to making sense of the contemporary world Using his expertise in two fields I Q Hunter also explores the important overlap between cult film and adaptation studies He argues that adaptation studies could learn a great deal from cult and fan studies about the importance of audiences emotional investment not only in texts but also in the relationships between them and how such bonds of caring are structured over time The book s emergent theme is cult film as lived experience With reference mostly to American cinema Hunter explores how cultists with their powerful emotional investment in films care for them over time and across numerous intertexts in relationships of memory nostalgia and anticipation **Oxford Dictionary of National Biography 2005-2008** Lawrence Goldman,2013-03-07 Who made modern Britain This book drawn from the award winning Oxford Dictionary of National Biography tells the story of our recent past through the lives of those who shaped national life Following on from the Oxford DNB s first supplement volume noteworthy people who died between 2001 and 2004 this new volume offers biographies of more than 850 men and women who left their mark on twentieth and twenty first century Britain and who died in the years 2005 to 2008 Here are the people responsible for major developments in national life from

politics the arts business technology and law to military service sport education science and medicine Many are closely connected to specific periods in Britain's recent history From the 1950s the young Harold Pinter or the Yorkshire cricketer Fred Trueman for example From the Sixties the footballer George Best photographer Patrick Lichfield and the Pink Floyd musician Syd Barrett It's hard to look back to the 1970s without thinking of Edward Heath and James Callaghan who led the country for seven years in that turbulent decade or similarly Freddie Laker pioneer of budget air travel and the comedians Ronnie Barker and Dave Allen who entertained with their sketch shows and sit coms A decade later you probably browsed in Anita Roddick's Body Shop or danced to the music of Factory Records established by the Manchester entrepreneur Tony Wilson In the 1990s you may have hoped that Things can only get better with a New Labour government which included Robin Cook and Mo Mowlam Many in this volume are remembered for lives dedicated to a profession or cause Bill Deedes or Conor Cruise O'Brien in journalism Ned Sherrin in broadcasting or indeed Ted Heath whose political career spanned more than 50 years Others were responsible for discoveries or innovations of lasting legacy and benefit among them the epidemiologist Richard Doll who made the link between smoking and lung cancer Cicely Saunders creator of the hospice movement and Chad Varah founder of the Samaritans With John Profumo who gave his name to a scandal policeman Malcolm Fewtrell who investigated the Great Train Robbery or the Russian dissident Aleksandr Litvinenko who was killed in London in 2006 we have individuals best known for specific moments in our recent past Others are synonymous with popular objects and experiences evocative of recent decades Mastermind with Magnus Magnusson the PG Tips chimpanzees trained by Molly Badham John DeLorean's gull wing car or the new British Library designed by Colin St John Wilson though as rounded and balanced accounts Oxford DNB biographies also set these events in the wider context of a person's life story Authoritative and accessible the biographies in this volume are written by specialist authors many of them leading figures in their field Here you will find Michael Billington on Harold Pinter Michael Crick on George Best Richard Davenport Hines on Anita Roddick Brenda Hale on Rose Heilbron Roy Hattersley on James Callaghan Simon Heffer on John Profumo Douglas Hurd on Edward Heath Alex Jennings on Paul Scofield Hermione Lee on Pat Kavanagh Geoffrey Wheatcroft on Conor Cruise O'Brien and Peregrine Worsthorne on Bill Deedes Many in this volume are naturally household names But a good number are also remembered for lives away from the headlines What in the 1980s became Thatcherism owed much to behind the scenes advice from Ralph Harris and Alfred Sherman children who learned to read with Ladybird Books must thank their creator Douglas Keen while without its first producer Verity Lambert there would have been no Doctor Who Others are ordinary people capable of remarkable acts Take for instance Arthur Bywater who over two days in 1944 cleared thousands of bombs from a Liverpool munitions factory following an explosion only to do the same months later in another factory Awarded the George Cross and the George Medal Bywater remains the only non-combatant to have received Britain's two highest awards for civilian bravery

2001: A Space Odyssey Peter Krämer, 2020-05-28 Stanley Kubrick's 2001 A Space Odyssey

1968 is widely regarded as one of the best films ever made. It has been celebrated for its beauty and mystery, its realistic depiction of space travel and dazzling display of visual effects, the breathtaking scope of its story which reaches across millions of years and the thought provoking depth of its meditation on evolution, technology and humanity's encounters with the unknown. 2001 has been described as the most expensive avant garde movie ever made and as a psychedelic trip, a unique expression of the spirit of the 1960s and as a timeless masterpiece. Peter Kr. mer's insightful study explores 2001's complex origins, the unique shape it took and the extraordinary impact it made on contemporary audiences, drawing on new research in the Stanley Kubrick Archive to challenge many of the widely held assumptions about the film. This edition includes a new afterword by the author.

A Companion to Science Fiction David Seed, 2008-04-15. A Companion to Science Fiction assembles essays by an international range of scholars which discuss the contexts, themes and methods used by science fiction writers. This Companion conveys the scale and variety of science fiction. Shows how science fiction has been used as a means of debating cultural issues. Essays by an international range of scholars discuss the contexts, themes and methods used by science fiction writers. Addresses general topics such as the history and origins of the genre, its engagement with science and gender and national variations of science fiction around the English speaking world. Maps out connections between science fiction, television, the cinema, virtual reality, technology and other aspects of the culture. Includes a section focusing on major figures such as H. G. Wells, Arthur C. Clarke and Ursula Le Guin. Offers close readings of particular novels from Mary Shelley's *Frankenstein* to Margaret Atwood's *The Handmaid's Tale*.

A History of the Future Peter J. Bowler, 2017-11-02. In this wide ranging survey Peter J. Bowler explores the phenomenon of futurology: predictions about the future, development and impact of science and technology on society and culture in the twentieth century. Utilising science fiction, popular science literature and the novels of the literary elite, Bowler highlights contested responses to the potential for revolutionary social change brought about by real and imagined scientific innovations. Charting the effect of social and military developments on attitudes towards innovation in Europe and America, Bowler shows how conflict between the enthusiasm of technocrats and the pessimism of their critics was presented to the public in books, magazines and exhibitions and on the radio and television. A series of case studies reveals the impact of technologies such as radio, aviation, space exploration and genetics, exploring rivalries between innovators and the often unexpected outcome of their efforts to produce mechanisms and machines that could change the world.

Everything Must Go Dorian Lynskey, 2025-01-28. A rich, captivating and darkly humorous look into the evolution of apocalyptic thought, exploring how film and literature interact with developments in science, politics and culture, and what factors drive our perennial obsession with the end of the world. As Dorian Lynskey writes, 'People have been contemplating the end of the world for millennia. In this immersive and compelling cultural history, Lynskey reveals how religious prophecies of the apocalypse were secularized in the early 19th century by Lord Byron and Mary Shelley in a time of dramatic social upheaval and temporary climate change, inciting a long tradition of visions of the end without gods. With a

discerning eye and acerbic wit Lynskey examines how various doomsday tropes and predictions in literature art music and film have arisen from contemporary anxieties whether they be comets pandemics world wars the Cuban Missile Crisis Y2K or the climate emergency Far from being grim Lynskey guides readers through a rich array of fascinating stories and surprising facts allowing us to keep company with celebrated works of art and the people who made them from H G Wells Jack London W B Yeats and J G Ballard to The Twilight Zone Dr Strangelove Mad Max and The Terminator Prescient and original Everything Must Go is a brilliant sweeping work of history that provides many astute insights for our times and speaks to our urgent concerns for the future

Ray Bradbury David Seed, 2015-02-28 As much as any individual Ray Bradbury brought science fiction's ideas into the mainstream Yet he transcended the genre in both form and popularity using its trappings to explore timely social concerns and the kaleidoscope of human experience while in the process becoming one of America's most beloved authors David Seed follows Bradbury's long career from the early short story masterpieces through his work in a wide variety of broadcast and film genres to the influential cultural commentary he spread via essays speeches and interviews Mining Bradbury's classics and hard to find archival literary and cultural materials Seed analyzes how the author's views on technology authoritarianism and censorship affected his art how his Midwest of dream and dread brought his work to life and the ways film and television influenced his creative process and visually oriented prose style The result is a passionate statement on Bradbury's status as an essential literary writer deserving of a place in the cultural history of his time

Space and the American Imagination Howard E. McCurdy, 2011-03 People dreamed of cosmic exploration winged spaceships and lunar voyages space stations and robot astronauts long before it actually happened Space and the American Imagination traces the emergence of space travel in the popular mind its expression in science fiction and its influence on national space programs Space exploration dramatically illustrates the power of imagination Howard E McCurdy shows how that power inspired people to attempt what they once deemed impossible In a mere half century since the launch of the first Earth orbiting satellite in 1957 humans achieved much of what they had once only read about in the fiction of Jules Verne and H G Wells and the nonfiction of Willy Ley Reaching these goals however required broad based support and McCurdy examines how advocates employed familiar metaphors to excite interest promising for example that space exploration would recreate the American frontier experience and prepare the public for daring missions into space When unexpected realities and harsh obstacles threatened their progress the space community intensified efforts to make their wildest dreams come true This lively and important work remains relevant given contemporary questions about future plans at NASA Fully revised and updated since its original publication in 1997 Space and the American Imagination includes a reworked introduction and conclusion and new chapters on robotics and space commerce

Decoding the Heavens Jo Marchant, 2010-10-19 In Decoding the Heavens Jo Marchant tells for the first time the full story of the hundred year quest to decipher the ancient Greek computer known as the Antikythera Mechanism Along the way she unearths a diverse cast of

remarkable characters and explores the deep roots of modern technology in ancient Greece and the medieval European and Islamic worlds At its heart this is an epic adventure and mystery a book that challenges our assumptions about technology through the ages Fifty Key Figures in Science Fiction Mark Bould,Andrew Butler,Adam Roberts,Sherryl Vint,2009-09-10 Fifty Key Figures in Science Fiction is a collection of engaging essays on some of the most significant figures who have shaped and defined the genre Diverse groups within the science fiction community are represented from novelists and film makers to comic book and television writers Important and influential names discussed include Octavia Butler George Lucas Robert Heinlein Gene Roddenberry Stan Lee Ursula K Le Guin H G Wells This outstanding reference guide charts the rich and varied landscape of science fiction and includes helpful and up to date lists of further reading at the end of each entry Available in an easy to use A Z format Fifty Key Figures in Science Fiction will be of interest to students of Literature Film Studies and Cultural Studies *Militarizing Outer Space* Alexander C.T. Geppert,Daniel Brandau,Tilmann Siebeneichner,2020-12-02 Militarizing Outer Space explores the dystopian and destructive dimensions of the Space Age and challenges conventional narratives of a bipolar Cold War rivalry Concentrating on weapons warfare and violence this provocative volume examines real and imagined endeavors of arming the skies and conquering the heavens The third and final volume in the groundbreaking European Astroculture trilogy Militarizing Outer Space zooms in on the interplay between security technopolitics and knowledge from the 1920s through the 1980s Often hailed as the site of heavenly utopias and otherworldly salvation outer space transformed from a promised sanctuary to a present threat where the battles of the future were to be waged Astroculture proved instrumental in fathoming forms and functions of warfare s futures past both on earth and in space The allure of dominating outer space the book shows was neither limited to the early twenty first century nor to current American space force rhetorics **Encyclopedia of the British Novel** Virginia Brackett,Victoria Gaydosik,2015-04-22 Praise for the print edition comprehensive Recommended Gaither's Dictionary of Scientific Quotations Carl C. Gaither,Alma E. Cavazos-Gaither,2008-01-08 Scientists and other keen observers of the natural world sometimes make or write a statement pertaining to scientific activity that is destined to live on beyond the brief period of time for which it was intended This book serves as a collection of these statements from great philosophers and thought influencers of science past and present It allows the reader quickly to find relevant quotations or citations Organized thematically and indexed alphabetically by author this work makes readily available an unprecedented collection of approximately 18 000 quotations related to a broad range of scientific topics **Childhood's End (SparkNotes Literature Guide)** SparkNotes,2014-08-12 Childhood's End SparkNotes Literature Guide by Arthur Clarke Making the reading experience fun Created by Harvard students for students everywhere SparkNotes is a new breed of study guide smarter better faster Geared to what today's students need to know SparkNotes provides chapter by chapter analysis explanations of key themes motifs and symbols a review quiz and essay topics Lively and accessible these guides are perfect for late night

studying and writing papers Limiting Outer Space Alexander C.T. Geppert, 2018-04-18 Limiting Outer Space propels the historicization of outer space by focusing on the Post Apollo period After the moon landings disillusionment set in Outer space no longer considered the inevitable destination of human expansion lost much of its popular appeal cultural significance and political urgency With the rapid waning of the worldwide Apollo frenzy the optimism of the Space Age gave way to an era of space fatigue and planetized limits Bringing together the history of European astroculture and American Soviet spaceflight with scholarship on the 1970s this cutting edge volume examines the reconfiguration of space imaginaries from a multiplicity of disciplinary perspectives Rather than invoking oft repeated narratives of Cold War rivalry and an escalating Space Race Limiting Outer Space breaks new ground by exploring a hitherto underrated and understudied decade the Post Apollo period The History of the Science-fiction Magazine Michael Ashley, 2000 This third volume in Mike Ashley's four volume study of the science fiction magazines focuses on the turbulent years of the 1970s when the United States emerged from the Vietnam War into an economic crisis It saw the end of the Apollo moon programme and the start of the ecology movement This proved to be one of the most complicated periods for the science fiction magazines Not only were they struggling to survive within the economic climate they also had to cope with the death of the father of modern science fiction John W Campbell Jr while facing new and potentially threatening opposition The market for science fiction diversified as never before with the growth in new anthologies the emergence of semi professional magazines the explosion of science fiction in college the start of role playing gaming magazines underground and adult comics and with the success of Star Wars media magazines This volume explores how the traditional science fiction magazines coped with this from the death of Campbell to the start of the major popular science magazine Omni and the first dreams of the Internet
