Treasure-house of the Language Charlotte Brewer, 2007-01-01 The legendary Oxford English Dictionary today contains over 600 000 words and a staggering 2 500 000 quotations to illuminate the meaning and history of those words A glorious bursting treasure house the OED serves as a guardian of the literary jewels of the past a testament to the richness of the English language today and a guarantor of future understanding of the language In this book Charlotte Brewer begins her account of the OED at the point where others have stopped the publication of the final installment of the first edition in 1928 and carries it through to the metamorphosis of the dictionary into a twenty first century electronic medium Brewer describes the difficulties of keeping the OED up to date over time and recounts the recurring debates over finances treatment of contentious words public vs scholarly expectations proper sources of quotations and changing editorial practices With humor and empathy she portrays the predilections and personalities of the editors publishers and assistants who undertook the Sisyphean task of keeping apace with the modern explosion of vocabulary Utilizing rich archives in Oxford as well as new electronic resources the author uncovers a history no less complex and fascinating than the Oxford English Dictionary itself

English Corpus Linguistics in Japan, 2016-09-12 The existence of corpus based linguistic research in Japan has until now mainly been hidden from the view of overseas researchers partly by the language barrier and partly by the continuing dominance of generative grammar in Japan At last this volume lifts the veil to reveal the current condition of corpus based research in Japan English Corpus Linguistics in Japan contains a collection of twenty papers written by Japanese linguists reflecting the state of art in English corpus linguistics in Japan The volume covers an impressively wide range showcasing the diversity and creativity of corpus based research in this country from studies drawing on the old faithful Brown and LOB Corpora as well as the more recent Frown FLOB the Bank of English and the British National Corpus to studies based on more specific historical literary spoken and learner corpora from investigations of major levels of language description including prosody lexis morphology syntax and semantics to investigations of language variation from explorations of single variables to those of multivariant dimensions and from pedagogical applications to software applications The papers are grouped into four sections 1 Corpus based studies of contemporary English 2 Historical and diachronic studies of English 3 English corpora and English language teaching 4 Software for analyzing corpora This volume will inspire still further corpus explorations in the future both in Japan and abroad

The Convention on Cluster Munitions Gro Nystuen, Stuart Casey-Maslen, 2010-10-21 This is a commentary on the legislation around the use of cluster munitions in warfare

The Contextual Determinants of Malaria Elizabeth A. Casman, Hadi Dowlatabadi, 2010-09-30 As malaria and other tropical diseases continue their resurgence questions about

the potential impacts of environmental and demographic factors are becoming more critical Recent attempts to understand the increase in malaria incidence often acknowledge the importance of social economic and other contextual variables but fail to explicitly incorporate them into models or consider how they evolve in relation to one another This problem is of crucial interest to the climate policy community which has been buffeted by claims and counter claims concerning the impact of climate change on malaria This important volume examines the contextual determinants of malaria and attempts to develop methods for incorporating them into projections of future incidence Internationally renowned health specialists economists and other social scientists provide regional and global perspectives on risk modeling the history of eradication efforts current determinants including environmental social and economic factors and prospects for new vaccines and drugs The Contextual Determinants of Malaria argues that an association of climate change with increased malaria incidence will have at least as much to do with human aging poverty urbanization and population movement as with a rise in global temperatures By placing climate in this perspective The Contextual Determinants of Malaria focuses attention on the public health needs most critical in both the immediate and long term future It encourages multidisciplinary analysis of malaria control and improves our understanding of the interactions of the diverse range of factors involved in the incidence and spread of the disease

English mediopassive constructions Marianne Hundt, 2015-07-14 This book provides the first empirical study of the history and spread of mediopassive constructions It investigates the productivity of the pattern the spread of the construction in Modern English and looks into text type specific preferences for the construction On a more abstract level it combines the corpus based description of mediopassive constructions with cognitive linguistic models drawing largely on notions such as prototype family resemblances patch and construction The theoretical modelling is largely based on data from real texts These come from publicly available machine readable corpora text databases and a single register corpus American mail order catalogues The study combines the corpus based approach with cognitive theories and is therefore of interest to both empirical and theoretical linguists

The Logic of Love Andrew J. B. Cameron, 2022-12-29 Overlooking what makes the intersection between emotion and ethics so confusing this book surveys an older wisdom in how to manage it using a range of Christian theologians and sources More important even than managing we begin to see a vision for a better set of affections to grow within and among us In this vision emerges a practical and nuanced account of what the Christian tradition sometime summarises as love How may we recover a deep affection for what matters both within ourselves and together in groups This book also dialogues with a new movement in moral psychology social intuitionism Cameron argues that researchers in this discipline have interests and conclusions that sometimes overlap with Christian sources even where their respective lenses differ In this way the book overviews recent trends in moral psychology against a recent historical and contemporary cultural backdrop whilst assaying major sources in Christian theology that offer guidance on moral psychology

Encyclopedia of Microcomputers Allen Kent, James G. Williams, 2019-08-16 The

Encyclopedia of Microcomputers serves as the ideal companion reference to the popular Encyclopedia of Computer Science and Technology Now in its 10th year of publication this timely reference work details the broad spectrum of microcomputer technology including microcomputer history explains and illustrates the use of microcomputers throughout academe business government and society in general and assesses the future impact of this rapidly changing technology Ugandan English Christiane Meierkord,Bebwa Isingoma,Saudah Namyalo,2016-10-20 Ugandan English is a variety that has scarcely been noticed in past research This timely volume brings together African and European scholars in a first ever collection of articles that offer comprehensive discussions of the historical and present day sociolinguistics of English in Uganda and fine grained analyses of the structural characteristics of and attitudes to this hitherto largely unknown variety Using rich archive corpus and interview data as well as ethnographic and observational methods the various contributions paint a comprehensive picture of Ugandan English as distinct from other East African Englishes and as characterized by nativisation despite a still strong exonormative orientation reflecting the modern nation s status as a post protectorate under the influence of globalisation Apart from advancing our understanding of Ugandan English itself the individual chapters contribute to theoretical debates on language contact and variation as regards the influence of substrate languages founder populations language ideologies and socio economic factors **The Defence of French** Robin Adamson,2007-01-01 This book aims to find out whether French one of the great languages of the world is in crisis or not It traces the history and development of language defence in France and examines the sometimes contradictory attitudes of French people to their beloved language It assesses the necessity for and the usefulness of the many activities in defence of French and suggests what its future might be *Prometheus Wired* Darin Barney,2011-11-01 From all sides we hear that computer technology with its undeniable power to disseminate information and connect individuals holds enormous potential for a reinvigoration of political life But will the Internet really spark a democratic revolution And will the changes it brings be so profound that past political thought will be of little use in helping us to understand them In *Prometheus Wired* Darin Barney debunks claims that a networked society will provide the infrastructure for a political revolution and shows that the resources we need for understanding and making sound judgments about this new technology are surprisingly close at hand By looking to thinkers who grappled with the relationship of society and technology such as Plato Aristotle Marx and Heidegger Barney critically examines such assertions about the character of digital networks Along the way Barney offers an eye opening history of digital networks and then explores a wide range of contemporary issues such as electronic commerce telecommuting privacy virtual community digital surveillance and the possibility of sovereign governance in an age of global networks Ultimately Barney argues that instead of placing power back in the hands of the public a networked economy seems to exacerbate the worst features of industrial capitalism and in terms of the surveillance and control it exerts reduces our political freedom Of vital interest to politicians communicators and anyone concerned about the future of democracy in

the digital age Prometheus Wired adds a provocative new voice to the debate swirling around the Net and the ways in which it will or will not change our political lives Mapping English Metaphor Through Time Wendy Anderson, Ellen Bramwell, Carole Hough, 2016-08-18 This volume offers an empirical and diachronic investigation of the foundations and nature of metaphor in English Metaphor is one of the hot topics in present day linguistics with a huge range of research focusing on the systematic connections between different concepts such as heat and anger fuming inflamed sight and understanding clear see or bodies and landscape hill foot river mouth Until recently the lack of a comprehensive data source made it difficult to obtain an overview of this phenomenon in any language but this changed with the completion in 2009 of The Historical Thesaurus of English the only historical thesaurus ever produced for any language Chapters in this volume use this unique resource as a basis for case studies of semantic domains including Animals Colour Death Fear Food Reading and Theft providing a significant step forward in the data driven understanding of metaphor **The Pathology of Desire in Daphne du Maurier's Short Stories** Setara Pracha, 2023-01-09 Following a resurgence of interest in Daphne du Maurier's writing The Pathology of Desire in Daphne du Maurier's Short Stories offers an overview of all her collections and a detailed reading of nine stories These contain recurrent references to the incomplete or impaired human form and are best read through a corporeal lens The criticism illustrates her importance as a cultural commentator fascinated by the results of frustrated human desire and includes a synopsis of the published collections and the stories within them to give the reader a sense of the variety of the overarching themes and the persistent force of corporeality in the stories Du Maurier is well known as a novelist but her short fiction is pivotal to understanding her position and influence as a writer She rewrites fairytales and foregrounds female violence long before it became a cultural trend Special Section, Shakespeare and Montaigne Revisited Graham Bradshaw, T. G. Bishop, Peter Holbrook, 2006-01-01 This year including a special section on Shakespeare and Montaigne Revisited The Shakespearean International Yearbook continues to provide an annual survey of important issues and developments in contemporary Shakespeare studies Contributors to this issue come from the US and the UK Canada Sweden Japan and Australia This issue includes an interview with veteran American actor Alvin Epstein during his recent acclaimed performance of King Lear for the Actors Shakespeare project in Boston *Dispute Settlement Reports 2002: Volume 1, Pages 1-585* World Trade Organization, 2004-11-04 The authorized paginated WTO Dispute Settlement Reports in English cases for 2002 **Aiding Terrorists** United States.
