Early Greek history as found in the textbooks leaves spurious dark age gaps where the evidence fails to match historians fixed ideas Dramatic claims regarding everything from the Trojan War to the Mask of Agamemnon are argued in detail from both an archaeological and a literary perspective unraveling historical conundrums that have stumped classicists for generations      *Empire of Thebes, Or, Ages in Chaos Revisited* Emmet John Sweeney,2006

Inspired by Velikovsky s *Ages in Chaos* Sweeney embarks on a 3 part work to complete the reconstruction of ancient history he calls for a much more radical shortening of ancient chronology and asserts that Velikovsky placed too much reliance on the Bible as a chronological measuring rod      *The Theban Empire* Emmet Sweeney,2020-05-01

Burma is a resource rich country in transition from monarchy to British colony from independence to military dictatorships and from the Generals to the Lady Aung San Suu Kyi This book traces one of the longest civil wars in history It s about the Rohingya a brutally persecuted people It s about pro democracy uprisings about sacrifice and above all the human resilience and capacity for hope The book is based on true events and provides unique firsthand insights into key players in this enigmatic and troubled nation      **Singing Archaeology** John Richardson,1999-03-31

Illuminates the aesthetics of a major American composer      *Synchronized Chronology* Roger Henry,2003 Imagine how distorted our understanding of ancient history would be if the chronological framework around which it was built had several extra centuries added What if the backbone of Egyptian dynasties contained duplicates The *Synchronized Chronology* resolves the structural problems of Egyptian chronology and then outlines the correct history of the Middle East and Mediterranean time of Abraham and his wandering into the Empire of Alexander the Great Recognizing some overlapping of dates and names in Manetho s List of Kings frees history to place pharaohs and dynasties where archaeology supports their existence This resolves a myriad of discrepancies and unlikely assumptions that historians have been forced to swallow and neatly opens the way to synchronizing Egyptian dynasties with Biblical chronology      **Tragedy and Philosophy** Walter Kaufmann,1992

A critical re examination of the views of Plato Aristotle Hegel and Nietzsche on tragedy Ancient Greek tragedy is revealed as surprisingly modern and experimental while such concepts as mimesis catharsis hubris and the tragic collision are discussed from different perspectives      *Reclaiming the Human Sciences and Humanities Through African Perspectives* Helen Lauer,Kofi Anyidoho,2012 This compilation was inspired by an international symposium held on the Legon campus in September 2003 Hosted by the CODESRIA African Humanities Institute Programme the symposium had the theme Canonical Works and Continuing Innovation in African Arts Humanities      *Aba, the Glory and the Torment* Ruth Velikovsky Sharon,2010

**Science and Pseudoscience** Howard Burton, 2020-10-01 This book is based on an in depth filmed conversation between Howard Burton and Michael Gordin Rosengarten Professor of Modern and Contemporary History at Princeton University This thought provoking extensive conversation examines the strange case of Immanuel Velikovsky author of the bestselling book *Worlds in Collision* that managed to provocatively combine unbridled scientific speculation with ancient myth as a way of probing the often problematic boundary between science and pseudoscience By all accounts Velikovsky was a decidedly curious character The notorious Russian born doctor turned psychoanalyst turned astronomer historian autodidact not only had a flair for writing and boatloads of charisma and energy he also was on record for making a couple of concrete predictions of his radical new theory of the solar system that turned out much to the dismay of the authorities of the day to actually be correct This carefully edited book includes an introduction Harnessing the Fringe and questions for discussion at the end of each chapter

I A Counterculture Hero Introducing Immanuel Velikovsky II An Ideal Case The historical allure of Velikovsky III The Lysenko Lesson Science meets politics IV A Freudian Cosmology Validation by hostility V Enter Einstein Velikovsky makes predictions VI Responses and Reactions Publicity and hostility VII Digging In Unorthodox up to a point VIII Science vs Pseudoscience In search of a bright line IX Fringe Benefits Seeking a balance X Learning From History Towards better science XI Anthropic Digression Falsifiability today XII Better Science Educated by history About Ideas Roadshow Conversations Presented in an accessible conversational format Ideas Roadshow books not only explore frontline academic research but also reveal the inspirations and personal journeys behind the research

**Beyond Velikovsky** Henry H. Bauer, 1999 Since the appearance in 1950 of *Worlds in Collision* Immanuel Velikovsky's radical theories of planetary physics have been the center of controversy This book presents an analysis of the Velikovsky affair resolves the misunderstandings and arguments between opposing camps and leads us to an understanding of the scientific process itself

**The Pseudoscience Wars** Michael D. Gordin, 2024-05-31 Properly analyzed the collective mythological and religious writings of humanity reveal that around 1500 BC a comet swept perilously close to Earth triggering widespread natural disasters and threatening the destruction of all life before settling into solar orbit as Venus our nearest planetary neighbor Sound implausible Well from 1950 until the late 1970s a huge number of people begged to differ as they devoured Immanuel Velikovsky's major best seller *Worlds in Collision* insisting that perhaps this polymathic thinker held the key to a new science and a new history Scientists on the other hand assaulted Velikovsky's book his followers and his press mercilessly from the get go In *The Pseudoscience Wars* Michael D Gordin resurrects the largely forgotten figure of Velikovsky and uses his strange career and surprisingly influential writings to explore the changing definitions of the line that separates legitimate scientific inquiry from what is deemed bunk and to show how vital this question remains to us today Drawing on a wealth of previously unpublished

material from Velikovsky's personal archives Gordin presents a behind the scenes history of the writer's career from his initial burst of success through his growing influence on the counterculture heated public battles with such luminaries as Carl Sagan and eventual eclipse Along the way he offers fascinating glimpses into the histories and effects of other fringe doctrines including creationism Lysenkoism parapsychology and more all of which have surprising connections to Velikovsky's theories Science today is hardly universally secure and scientists seem themselves beset by critics denialists and those they label pseudoscientists as seen all too clearly in battles over evolution and climate change The Pseudoscience Wars simultaneously reveals the surprising Cold War roots of our contemporary dilemma and points readers to a different approach to drawing the line between knowledge and nonsense
