Oedipus In The Stone Age:

Oedipus in the Stone Age Theodore Lidz, Ruth Wilmanns Lidz, 1989 A study of the initiation rituals of various tribal societies scattered within the eastern half of New Guinea Demonstrates basic core similarities of rituals despite overt differences Annotation copyrighted by Book News Inc Portland OR *Sexual Orientation and Psychodynamic Psychotherapy* Richard C. Friedman, Jennifer I. Downey, 2008-03-24 This book bridges psychoanalytic thought and sexual science It brings sexuality back to the center of psychoanalysis and shows how important it is for students of human sexuality to understand motives that are often irrational and unconscious The authors present a new perspective about male and female development emphasizing the ways in which sexual orientation and homophobia appear early in life The clinical section of the book focuses on the psychodynamics and treatment of homophobia and internalized homophobia **The Freudian Mystique**

Samuel Slipp, 1995-03 Sigmund Freud was unquestionably one of the most influential thinkers of the twentieth century yet over the last few decades his theory about women has suffered severe criticism from feminists and many psychoanalysts How could this great genius have been so wrong about women In *The Freudian Mystique* Samuel Slipp a training and supervising analyst offers an explanation of how such a remarkable and revolutionary thinker for his time could formulate such incorrect theories about female development Tracing the gradual evolution of patriarchy and phallocentrism in Western society Slipp examines the stereotyped attitudes toward women that were taken for granted in Victorian culture and strongly influenced Freud's thinking on feminine psychology Of even greater importance was Freud's relationship with his mother who emotionally abandoned him the loss of his nanny and the death of his brother Julius all before the age of three These losses occurred during the separation individuation phase disrupting the normal differentiation from his mother and consolidation of his gender identity Slipp examines not only Freud's preoedipal but also the continuing postoedipal conflicts with his mother from both an object relations and family therapy perspective He shows how Freud's unconscious ambivalence toward his mother influenced his personal relationships with women and shaped his theory of child development Freud emphasized the role of the father and the oedipal period while excluding the mother and the preoedipal and postoedipal periods Not limited to one perspective *The Freudian Mystique* analyzes how the entire contextual framework of his family relations anti-Semitism politics economics science and culture affected Freud's work in feminine psychology The book not only looks backward but also looks forward to formulating a modern biopsychosocial framework for female gender development

Anthropology and Psychoanalysis Ariane Deluz, Suzette Heald, 2002-09-11 Addresses the growing interest among anthropologists about self and subjectivity **The Subject of Anthropology** Henrietta L. Moore, 2013-04-23 In this ambitious new book Henrietta Moore draws on anthropology feminism and psychoanalysis to develop an original and provocative theory of gender and of how we become sexed beings Arguing that the Oedipus complex is no longer the fulcrum of debate between anthropology and psychoanalysis she demonstrates how recent theorizing on subjectivity agency and

culture has opened up new possibilities for rethinking the relationship between gender sexuality and symbolism Using detailed ethnographic material from Africa and Melanesia to explore the strengths and weaknesses of a range of theories in anthropology feminism and psychoanalysis Moore advocates an ethics of engagement based on a detailed understanding of the differences and similarities in the ways in which local communities and western scholars have imaginatively deployed the power of sexual difference She demonstrates the importance of ethnographic listening of focused attention to people s imaginations and of how this illuminates different facets of complex theoretical issues and human conundrums Written not just for professional scholars and for students but for anyone with a serious interest in how gender and sexuality are conceptualized and experienced this book is the most powerful and persuasive assessment to date of what anthropology has to contribute to these debates now and in the future

History of Psychiatry and Medical Psychology Edwin R. Wallace, John Gach, 2010-04-13 Most of the prefatory issues are extensively elaborated upon in the Prolegomenon which also contains the complete references to the texts and authors discussed below Nevertheless the Preface would be grossly incomplete without touching on some of these issues books and scholars Too many of this book s chapters e g Mora s Marx s D B Weiner s examine and reference important earlier as well as contemporary general histories of psychiatry and specialized monographs in German French Italian and Spanish Also in his 1968 Short History of Psychiatry discussed below Ackerknecht pp xi xii references important nineteenth and earlier twentieth century psychiatric histories in English French and German Such citations will of course not be repeated here Finally thanks to several publishers re editions of dozens of classical psychiatric texts one can consult their bibliographies as well See Prolegomenon for references to these splendid series In a rough and ready sense medical history began in classical Greece for example On Ancient Medicine While traditionally included in the Hippocratic corpus this text seems more likely to have been written by a non or even anti Hippocratic doctor Moreover the Hippocratic and other schools were hardly as secular as we now suppose On Epilepsy for example does not so much declare the prevalent denotation of it as the sacred disease erroneous as it does that it is no more nor less sacred than any other disease

Religions of Melanesia Garry Trompf, 2006-09-30 Melanesia boasts over one quarter of the world s distinct religions and presents the most complex religious panorama on earth The region is famous for its unusual new religious movements that have adapted traditional beliefs to modernity in surprising ways As the first bibliographical survey to comprehensively cover the entire region Religions of Melanesia is an invaluable research aid for anyone interested in this growing field Trompf s work is a complete listing of scholarly publications and provides readable and concise descriptions that will clearly guide the researcher toward the most relevant sources This survey covers 2188 entries organized topically and regionally Trompf covers such subjects as traditional and modern belief systems and the emergent indigenous Christianity that has taken root Regional coverage includes Irian Jaya Papua New Guinea Solomon Islands Vanuatu New Caledonia and Fiji

Western Rationality and the Angel of Dreams Murray Lionel Wax, 1999 Throughout recorded time

people have been fascinated by dreams and their meanings Tribal societies valorize knowledge obtained from dreams and respect possession as a channel for revelation In contrast implicit in Western intellectual thought is an image of the human as a non social atom with a unitary and rational mind which turns dreaming into an epiphenomenon or for Freud a neurosis in miniature Integrating materials from anthropology post Freudian psychoanalysis social evolution and the social psychology of Mead Cooley James and Sullivan this book offers a view of the self and the psyche that provides meaning to the views of traditional peoples on dreams possession and the loss of self **Parenting and Child Development** Abdul

Khaleque,2021-03-08 This research based book covers the core components of modern parenting and child development across multi ethnic and cross cultural contexts in Asia Africa Europe and North and South America with a focus on the United States Parenting and Child Development Across Ethnicity and Culture is based on a cohesive framework that links physical psychological social cognitive and emotional aspects of children s lives to their experiences of parental behavior This book covers the fundamentals of parent child relationships including the theoretical perspective of parenting positive and negative parenting behaviors and changing patterns of parenting from infancy through adolescence Explored are parent child relationships and their implications for children s health well being and quality of life in different family forms including parenting in drug addicted families homeless families cohabiting families single parent families and LGBT families around the world Using an array of theories with relevant empirical findings the practical implications for child development both within the United States and across the globe are highlighted Also included is specific information about tools and techniques for measuring intimate relationships and intervention strategies for relationship problems **Exploring the Interplay of**

Edward Sapir's Anthropology and Lacanian Psychoanalysis Lenart Kodre,2025-03-15 Was Edward Sapir s perspective on culture and personality groundbreaking or should we regard it as just one more theory that reached a scientific dead end Exploring the Interplay of Edward Sapir s Anthropology and Lacanian Psychoanalysis Culture and Subjectivity introduces a fresh perspective to traditional anthropological discourse by exploring Edward Sapir s insights into culture and personality relationship alongside Jacques Lacan s theories on the individual and collective This book reassesses the dynamics between subjective and social realms paving the way for potentially a new anthropological model of subjectivity and the definition of culture Exploring the historical context of anthropology psychoanalysis relationships this book synthesizes diverse conceptions of culture and personality through an interdisciplinary lens By leveraging Lacan s theoretical framework to interpret Sapir s bold ideas on the culture personality dyad it assesses integrating Lacanian subjectivity into the culture individual relationship bridging commonalities between the two fields and introducing insights into their interdisciplinary interplay This book summarizes key findings from Lacanian subjectivity theory and examines a new perspective on the process of cultural transmission and socialization by highlighting Sapir s pioneering view on the relationship between the individual and society It also addresses ontological epistemological and methodological questions in anthropology through

Lacanian dynamics of desire **Cumulated Index Medicus** ,1985 Thresholds of Initiation Joseph L. Henderson,2004

Basing his study on Jung's archetypal theory especially that of initiation *Thresholds of Initiation* represents thirty years of testing the theory in analytical practice Joseph Henderson considers archetypes to be predictable patterns of inner conditioning that lead to certain essential changes and shows the parallels between individual psychological self development and the rites that marked initiation in the past Dr Henderson's topics include the uninitiated return of the mother remaking a man trial by strength the rite of vision thresholds of initiation initiation and the principle of ego development in adolescence and initiation in the process of individuation This is essential reading for an understanding of the universal nature of initiation especially as it relates traditional initiatory practices to Jung's theory of archetypes **In Search of the Classic** Steven Shankman,2010-11 The classical Steven Shankman argues should not be confused with a particular historical period of Western antiquity although it may owe its original articulation to the literary and philosophical explorations of ancient Greek authors Shankman's book searches for and attempts to formulate the shape of the continuing presence as embodied in particular literary works mainly from Western antiquity and the neoclassical and modern periods of what the author calls a classical understanding of literature For Shankman literature defined from a classical perspective is a coherent compelling and rationally defensible representation that resists being reduced either to the mere recording of material reality or to the bare exemplification of an abstract philosophical precept He derives his definition largely from his reading of Greek literature from Homer through Plato from the history of literary criticism and from the Greco Roman tradition in English American and French literature Shankman reveals unsuspected yet convincing connections among authors of such widely disparate times and places His idea of the classic that authorizes these connections is presented as normative thus making possible the evaluation of literary works and in turn forthright discussion of what constitutes the literary as distinct from other kinds of discourse Shankman's study runs counter to a strong tendency of contemporary criticism that argues precisely against any distinct category of the literary He offers a series of interpretations that cumulatively advance theoretical discussion by challenging scholars to rethink the critical paradigms of postmodernism At the center of the book is a discussion of the quintessentially classic Valéry poem *Le Cimetière marin* and the classic qualities it shares with Pindar's third Pythian ode from which Valéry derives the epigraph for his poem **Sambia Sexual Culture** Gilbert Herdt,1999-06 This collection of essays on the sexual culture of the Sambia of Papua New Guinea examines fetish and fantasy ritual nose bleeding the role of homoerotic insemination the role of the father and mother in the process of identity formation A *Handbook to the Reception of Greek Drama* Betine van Zyl Smit,2016-02-29 A *Handbook to the Reception of Greek Drama* offers a series of original essays that represent a comprehensive overview of the global reception of ancient Greek tragedies and comedies from antiquity to the present day Represents the first volume to offer a complete overview of the reception of ancient drama from antiquity to the present Covers the translation transmission performance production and adaptation of

Greek tragedy from the time the plays were first created in ancient Athens through the 21st century Features overviews of the history of the reception of Greek drama in most countries of the world Includes chapters covering the reception of Greek drama in modern opera and film **Chicago Psychoanalytic Literature Index** ,1984 **Classical Myth** Barry B. Powell,2024-08-22 An overview of the history theory and stories of myths **Denken over religie** Valeer Neckebrouck,2011 *The Heritage of the Past, from the Earliest Times to 1715* Stewart Copinger Easton,1964 *The Road to Daulis* Robert Eisner,1987 Looks at how nine classical myths including Oedipus Electra and Psyche are used to explain psychological theories and assesses the validity of these comparisons
