Oedipus In The Trobriands:

Oedipus in the Trobriands, 1993-01-01 Spiro challenges the argument of Bronislaw Malinowski that the matrilineal society of the Trobriand Islands produced a psychological constellation a matrilineal complex different from Freud's Oedipus complex and the generalization regarding the restrictive provenance of the Oedipus complex to which it gave rise Spiro undertakes a reanalysis of Malinowski's data and shows that there is enough to suggest the presence of a strong Oedipus complex Melford E Spiro is professor emeritus of anthropology at the University of California San Diego where he founded the Anthropology Department in 1968 His other works include *Gender and Culture* *Oedipus in the Trobriands* and *Culture and Human Nature* *The Trobriand Islanders' Ways of Speaking* Gunter Senft, 2010-07-19 Bronislaw Malinowski claimed in his monograph *Argonauts of the Western Pacific* that to approach the goal of ethnographic field work requires a collection of ethnographic statements characteristic narratives typical utterances items of folk lore and magical formulae as a corpus inscriptionum as documents of native mentality This book finally meets Malinowski's demand Based on more than 40 months of field research the author presents documents and illustrates the Trobriand Islanders own indigenous typology of text categories or genres covering the spectrum from ditties children chant while spinning a top to gossip songs tales and myths The typology is based on Kilivila metalinguistic terms for these genres and considers the relationship they have with registers or varieties which are also metalinguistically distinguished by the native speakers of this language Rooted in the ethnography of speaking paradigm and in the anthropological linguistics linguistic anthropology approach the book highlights the relevance of genres for researching the role of language culture and cognition in social interaction and demonstrates the importance of understanding genres for achieving linguistic and cultural competence In addition to the data presented in the book its readers have the opportunity to access the original audio and video data presented via the internet on a special website which mirrors the structure of the book Thus the reader can check the transcriptions against the original data recordings This makes the volume particularly valuable for teaching purposes in general Austronesian Oceanic documentary and anthropological linguistics and ethnology *Oedipal God* Meir Shahar, 2015-08-31 *Oedipal God* offers the most comprehensive account in any language of the prodigal deity Nezha Celebrated for over a millennium Nezha is among the most formidable and enigmatic of all Chinese gods In this theoretically informed study Meir Shahar recounts Nezha's riveting tale which culminates in suicide and attempted patricide and uncovers hidden tensions in the Chinese family system In deploying the Freudian hypothesis Shahar does not imply the Chinese legend's identity with the Greek story of Oedipus For one in Nezha's story the erotic attraction to the mother is not explicitly acknowledged More generally Chinese oedipal tales differ from Freud's Greek prototype by the high degree of repression that is applied to them Shahar argues that despite a disastrous father son relationship Confucian ethics require that the oedipal drive masquerade as filial piety in Nezha's story dictating that the child god kill himself before trying to avenge himself upon his father Combining impeccable scholarship

with an eminently readable style the book covers a vast terrain It surveys the image of the endearing child god across varied genres from oral and written fiction through theater cinema and television serials to Japanese manga cartoons It combines literary analysis with Shahar s own anthropological field work providing a thorough ethnography of Nezha s flourishing cult Crossing the boundaries between China s diverse religious traditions it tracks the rebellious infant in the many ways he has been venerated by Buddhist monks Daoist priests and possessed spirit mediums whose dramatic performances have served to negotiate individual familial and collective tensions Finally the book offers a detailed history of the legend and the cult reaching back over two thousand years to its origins in India where Nezha began as a mythological being named Nalak bara whose sexual misadventures were celebrated in the Sanskrit epics as early as the first centuries BCE Here Shahar reveals the long term impact that Indian mythology has exerted through the medium of esoteric Buddhism upon the Chinese imagination of divinity A tour de force of literary analysis ethnographic research psychological insight and cross cultural investigation Oedipal God is a must read for anyone interested in Chinese studies and the historical connection between India and China Shahar s broad reach and engaging approach will appeal to specialists and students in a variety of disciplines including Chinese religion Chinese literature anthropology Buddhist studies psychology Indian studies and cross cultural history

Underworld of Love Gunter Senft, 2011-09-29 The Trobriand Islanders eschatological belief system explains what happens when someone dies Bronislaw Malinowski described essentials of this eschatology in his articles Baloma the Spirits of the Dead in the Trobriand Islands and Myth in Primitive Psychology There he also presented the Trobrianders belief that a baloma can be reborn he claimed that Trobrianders are unaware of the father s role as genitor This volume presents a critical review of Malinowski s ethnography of Trobriand eschatology finally settling the virgin birth controversy It also documents the ritualized and highly poetic wosi milamala the harvest festival songs They are sung in an archaic variety of Kilivila called biga baloma the baloma language Malinowski briefly refers to these songs but does not mention that they codify many

aspects of Trobriand eschatology The songs are still sung at specific occasions however they are now moribund With these songs Trobriand eschatology will vanish *Textbook of Applied Psychoanalysis* Salman Akhtar, Stuart Twemlow, 2020-09-10 The Textbook of Applied Psychoanalysis is a unique and original contribution to the field of psychoanalysis Emphasizing and underscoring the need for interdisciplinary discourse in understanding the dialectical relationship between mind and culture this volume addresses a multiplicity of realms These include anthropology religion philosophy history as well as evolutionary psychology medicine race poverty migration and prejudice Dimensions of social praxis such as education health policy and cyberpsychology are also addressed The enrichment of our understanding of the fine arts e g painting sculpture poetry and performing arts e g music dance cinema by the application of psychoanalytic principles and the enhancement of psychoanalysis by bringing such arts to bear upon it also form areas of this book's concern This magisterial volume brings distinguished psychoanalysts philosophers musicians poets businessmen architects and movie critics together to create a chorus of modern anthropologically informed and culturally sensitive psychoanalysis **Depth Psychology,**

Interpretation, and the Bible Brayton Polka, 2001-02-12 Polka also raises the larger issue of the relationship between modernity hermeneutics and biblical ontology He argues that the origins and structure of modern values can be understood only through a theory of hermeneutics whose ontology overcomes the dualism between the secular and the religious between philosophy and religion Polka shows this to be possible when biblical ontology is understood to be at once rational and faithful secular and religious He uses the work of Spinoza Kant Hegel and Kierkegaard to articulate the ontological framework that makes clear how typically modern Freud is in being unable to account for the relationship of his thought to biblical religion Polka argues that Freudian metapsychology precisely because it cannot account for its own principles of explanation contradicts the insights of depth psychology Paradoxically religion returns in Freud as the repressed as it does in so much of modern thought Polka shows that what is therefore required is a hermeneutical theory whose ontological articulation of biblical religion is critically self-conscious **Inconsistencies in Greek and Roman Religion, Volume 1:**
