*Histories of Southeastern Archaeology* Shannon Tushingham, Jane Hill, Charles H. McNutt, 2002-03-18 This volume

provides a comprehensive broad based overview including first person accounts of the development and conduct of archaeology in the Southeast over the past three decades. *Histories of Southeastern Archaeology* originated as a symposium at the 1999 Southeastern Archaeological Conference SEAC organized in honor of the retirement of Charles H McNutt following 30 years of teaching anthropology. Written for the most part by members of the first post depression generation of southeastern archaeologists this volume offers a window not only into the archaeological past of the United States but also into the hopes and despairs of archaeologists who worked to write that unrecorded history or to test scientific theories concerning culture. The contributors take different approaches each guided by experience personality and location as well as by the legislation that shaped the practical conduct of archaeology in their area. Despite the state by state approach there are certain common themes such as the effect or lack thereof of changing theory in Americanist archaeology the explosion of contract archaeology and its relationship to academic archaeology goals achieved or not achieved and the common ground of SEAC. This book tells us how we learned what we now know about the Southeast's unwritten past. Of obvious interest to professionals and students of the field this volume will also be sought after by historians political scientists amateurs and anyone interested in the South. Additional reviews: A unique publication that presents numerous historical topical and personal perspectives on the archaeological heritage of the Southeast. *Southeastern Archaeology From Distant Tales* Dominik Bonatz, John Miksic, J. David Neidel, 2009-03-26. This is the most comprehensive book devoted to Sumatra in more than half a century. It summarizes earlier studies and provides a huge amount of new knowledge for the first time in readily accessible form. Sumatra is one of the world's largest islands rich in flora and fauna minerals and timber and located at the midpoint of the maritime route between China and India. These are ideal conditions for the creation of a fascinating history. Sumatra has played a major role in world trade for 2 000 years but its culture and archaeology have been surprisingly neglected. This volume sets out to remedy this defect. With chapters on history archaeology anthropology folklore and religion the authors focus particular attention on the relations between the coastal peoples who are best known to outsiders and the hinterlands where most of the important resources lie. The list of authors includes most of the principal living authorities on Sumatra. Their cumulative experience consists of many years on all parts of the island. The book is copiously illustrated and includes a comprehensive bibliography for those who wish to pursue further study of the wide range of topics covered.

**Pre-historic Times** John Lubbock (1st baron Avebury), 1865 Popular Science Library, 1906 The Best Books: F. History and historical biography. G, Archaeology and historical collaterals. 1923 William Swan Sonnenschein, 1923

**Holocene Hunter-Gatherers of the Lower Ohio River Valley** Richard Jefferies, 2008. *Holocene Hunter-Gatherers of the Lower Ohio River Valley* addresses the approximately 7 000 years of the prehistory of eastern North America termed the Archaic Period by archaeologists. The WPA Guide to Kentucky Federal Writers' Project, 2013-10-31. During the 1930s in the United States the Works Progress Administration developed the Federal Writers Project to support writers and artists.

while making a national effort to document the country's shared history and culture. The American Guide series consists of individual guides to each of the states. Little known authors, many of whom would later become celebrated literary figures, were commissioned to write these important books. John Steinbeck, Saul Bellow, Zora Neale Hurston, and Ralph Ellison are among the more than 6,000 writers, editors, historians, and researchers who documented this celebration of local histories. Photographs, drawings, driving tours, detailed descriptions of towns, and rich cultural details exhibit each state's unique flavor. The Bluegrass State of Kentucky, which was primarily a rural state in the 1930s when this WPA Guide was published, features Louisville as the only major city. Yet this does not limit the material in the guide by any means, as it also includes essays on Daniel Boone, bluegrass music, and old Southern American culture.

Cave-men John Lubbock, 1864      **The Scientific Imagination in South Africa** William Beinart, Saul Dubow, 2021-05-20 An innovative three hundred year exploration of the social and political contexts of science and the scientific imagination in South Africa      **Archaic Societies** Thomas E. Emerson, Dale L. McElrath, Andrew C. Fortier, 2012-02-01 Sweeping and detailed, this long-awaited volume is an indispensable guide to the Archaic period across the midcontinent. Archaeologists throughout the region share the latest excavation results and analytical perspectives to reveal and reinterpret the worlds of those Native peoples who lived there for some 9,000 years up to about 3,000 years ago. Of particular concern is the establishment of relative and absolute chronologies for the Archaic period, the relationships between the artifacts left behind and the peoples who made and used them, and the changing interactions between cultures, climate, and landscape. Archaeologists offer useful up-to-date overviews of Archaic societies, assessment of stratigraphic sequences, and detailed discussions of finds and interpretations from the Mississippi and Ohio river regions and the Great Lakes. Comprehensive and accessible, this landmark book is a must for anyone wanting to understand a crucial but little-understood period in North America's prehistory.

**The Taking and Displaying of Human Body Parts as Trophies by Amerindians** Richard J. Chacon, David H. Dye, 2007-08-21 This edited volume mainly focuses on the practice of taking and displaying various body parts as trophies in both North and South America. The editors and contributors, which include Native Peoples from both continents, examine the evidence and causes of Amerindian trophy taking. Additionally, they present objectively and discuss dispassionately the topic of human proclivity toward ritual violence. This book fills the gap in literature on this subject.
