**The Writings Against the Manichaeans and Against the Donatists Part I - The Manichaeans Revised** Saint Augustine, Urban Lighting, Light Pollution and Society Josiane Meier, Ute Hasenöhrl, Katharina Krause, Merle Pottharst, 2014-10-24 After decades in the shadows urban lighting is re emerging as a matter of public debate Long standing truths are increasingly questioned as a confluence of developments affects lighting itself and the way it is viewed Light has become an integral element of place making and energy saving initiatives alike Rapidly evolving lighting technologies are opening up new possibilities but also posing new challenges to planners and awareness is growing that artificial illumination is not purely benign but can actually constitute a form of pollution As a result public policy frameworks incentives and initiatives are undergoing a phase of innovation and change that will affect how cities are lit for years to come The first comprehensive compilation of current scientific discussions on urban lighting and light pollution from a social science and humanities perspective Urban Lighting Light Pollution and Society contributes to an evolving international debate on an increasingly controversial topic The contributions draw a rich panorama of the manifold discourses connected with artificial illumination in the past and present from early attempts to promote new lighting technologies in the late 19th and early 20th centuries to current debates on restricting its excessive usage in public space and the protection of darkness By bringing together a cross section of current findings and debates on urban lighting and light pollution from a wide variety of disciplines it reflects that artificial lighting is multifaceted in its qualities utilisation and interpretation Including case studies from the United States Europe and the UK Urban Lighting Light Pollution and Society is one of the first to take a serious assessment of light pollution and places and is a valuable resource for planners policy makers and students in related subjects *The Oxford Handbook of Light in Archaeology* Costas Papadopoulos, Holley Moyes, 2021-12-09 Light has a fundamental role to play in our perception of the world Natural or artificial lightscapes orchestrate uses and experiences of space and in turn influence how people construct and negotiate their identities form social relationships and attribute meaning to im material practices Archaeological practice seeks to analyse the material culture of past societies by examining the interaction between people things and spaces As light is a crucial factor that mediates these relationships understanding its principles and addressing illumination s impact on sensory experience and perception should be a fundamental pursuit in archaeology However in archaeological reasoning studies of lightscapes have remained largely neglected and understudied This volume provides a comprehensive and accessible consideration of light in archaeology and beyond by including dedicated and fully illustrated chapters covering diverse aspects of illumination in different spatial and temporal contexts from prehistory to the present Written by leading international scholars it interrogates the qualities and affordances of light in different contexts and im material environments explores its manipulation and problematises its elusive properties The result is a synthesis of invaluable insights into sensory experience and perception demonstrating illumination s vital impact

The Manichaeans were a dualistic society that focused on the goodness of the spirit and the evil of the material. While basing their belief structure of Mesopotamian Gnosticism it is hard to say for certain that they were Gnostic themselves. Augustine shows sound arguments to counter the beliefs he reveals in this collection of writings even going so far as to have a verbal parley back and forth with a leading member of the religious movement Fortunatus. Not content simply with dissolution into a transcendental otherworldly God consciousness nor with concentration on the outer life and its powers to the exclusion of anything other or higher Sri Aurobindo has created the teachings of a Divine Life on Earth. This is the second book of the series      [Handbook of Bird Biology](#) Irby J. Lovette, John W. Fitzpatrick, 2016-06-27 Selected by Forbes.com as one of the 12 best books about birds and birding in 2016. This much anticipated third edition of the Handbook of Bird Biology is an essential and comprehensive resource for everyone interested in learning more about birds from casual bird watchers to formal students of ornithology. Wherever you study birds your enjoyment will be enhanced by a better understanding of the incredible diversity of avian lifestyles. Arising from the renowned Cornell Lab of Ornithology and authored by a team of experts from around the world the Handbook covers all aspects of avian diversity: behaviour, ecology, evolution, physiology, and conservation. Using examples drawn from birds found in every corner of the globe it explores and distills the many scientific discoveries that have made birds one of our best known and best loved parts of the natural world. This edition has been completely revised and is presented with more than 800 full color images. It provides readers with a tool for life long learning about birds and is suitable for bird watchers and ornithology students as well as for ecologists, conservationists, and resource managers who work with birds. The Handbook of Bird Biology is the companion volume to the Cornell Lab's renowned distance learning course [www.birds.cornell.edu/courses/home\\_homestudy](http://www.birds.cornell.edu/courses/home_homestudy)      *Light* Bruce Watson, 2016-02-02 Light begins at Stonehenge where crowds cheer a solstice sunrise.
