Saints Maskarinec looks outward to examine how Rome interacted with the wider Mediterranean world in the Byzantine period During the early Middle Ages the city imported dozens of saints and their legends naturalized them and physically layered their cults onto the city's imperial and sacred topography Maskarinec documents Rome's spectacular physical transformation drawing on church architecture frescoes mosaics inscriptions Greek and Latin hagiographical texts and less studied documents that attest to the commemoration of these foreign saints These sources reveal a vibrant plurality of voices Byzantine administrators refugees aristocrats monks pilgrims and others who shaped a distinctly Roman version of Christianity City of Saints extends its analysis to the end of the ninth century when the city's ties to the Byzantine world weakened Rome's political and economic orbits moved toward the Carolingian world where the saints cults circulated valorizing Rome's burgeoning claims as a microcosm of the universal Christian church

**Pilgrims of Love** Pnina Werbner, 2016-12-19 will be of interest not only to those concerned with Pakistan and the new Muslim presence in Europe but also to those interested in an anthropological study of religion Barbara Metcalf University of California Davis Pnina Werbner traces the development of a Sufi Naqshbandi order founded by a living saint Zindapir whose cult originated in Pakistan and has extended globally to Britain Europe the Middle East and southern Africa Drawing on 12 years of fieldwork in Pakistan and Great Britain she elucidates the complex organization of Sufi orders as regional and transnational cults and examines how such cults are manifested through ritual action and embodied in sacred mythology and global diasporas A focus of the study is the key event in the order's annual ritual cycle a celebration in which tens of thousands of people gather at the saint's lodge in Pakistan and in the streets of Britain Werbner challenges accepted anthropological and sociological truths about Islam and modernity and reflects on her own role as ethnographic observer Pilgrims of Love is a major contribution to our understanding of diasporic Islamic practices highlighting the vitality of Sufi orders in the postcolonial world

**The Lengthening Shadows**, 1913 [Forgotten Saints](#) Sarah Coleman, 2025-03-02 Have you ever considered the multitude of saints whose stories once vibrant and influential have faded from popular religious memory This book *Forgotten Saints* delves into the lives and legacies of these lesser known figures exploring their profound impact on religious traditions literature and cultural history It examines why certain saints achieved widespread veneration while others despite their significant contributions receded into relative obscurity The central topics addressed are the historical

circumstances surrounding the lives and veneration of these forgotten saints the literary and artistic representations of their stories and the cultural forces that shaped their rise and subsequent decline in popularity These topics are crucial because they shed light on the complex dynamics of religious belief the evolution of cultural values and the often unpredictable nature of historical memory Understanding why some saints are remembered and others forgotten allows a deeper appreciation of the multifaceted ways in which religion and culture interact To fully appreciate the narratives presented some familiarity with basic Christian history and hagiography is helpful though not essential *Forgotten Saints* provides sufficient historical context for each saint discussed including the period in which they lived the theological currents of their time and the political landscape that influenced their actions and reputations The book argues that the fluctuating fortunes of a saint's legacy reflect broader shifts in societal values theological emphasis and cultural priorities A saint's relevance diminishes as the virtues they embody or the specific needs they address become less pressing for successive generations This argument challenges the notion of a static unchanging religious tradition and instead highlights its dynamic responsive nature *Forgotten Saints* unfolds by first introducing the concept of sainthood and the criteria traditionally used for canonization It then presents detailed biographical accounts of several overlooked saints drawn from various periods and geographical locations Each chapter focuses on a specific saint examining their life miracles writings if any and the historical context of their veneration These accounts explore the reasons for their initial popularity the factors that contributed to their subsequent neglect and the traces of their influence that can still be found in religious practices folklore and artistic representations The argument culminates in an analysis of the broader patterns and trends that emerge from these individual stories offering a framework for understanding the dynamics of religious memory and cultural change Finally the book considers what these forgotten figures can teach us about contemporary religious life and the importance of preserving diverse voices within religious traditions The evidence presented in *Forgotten Saints* draws from a wide range of primary and secondary sources including hagiographies theological treatises historical chronicles archaeological findings and artistic representations Unique data sources include previously untranslated or understudied hagiographical texts local folklore traditions and analyses of artistic depictions of these saints in lesser known churches and monasteries The book connects to several other fields of study including history literature art history and sociology of religion The historical analysis provides insights into the social and political conditions that shaped the lives of these saints The literary analysis examines how their stories were constructed and transmitted through various textual forms The art historical analysis explores the visual representations of these saints and their symbolic significance The sociological analysis investigates the dynamics of religious belief and the social functions of sainthood These interdisciplinary connections enrich the book's argument by providing multiple perspectives on the phenomenon of forgotten saints *Forgotten Saints* offers a novel perspective by focusing on figures who have been marginalized or overlooked in traditional hagiographies It challenges the dominant

narrative of sainthood by demonstrating the diversity of experiences and expressions of holiness within religious traditions It also employs a unique methodology that combines historical analysis literary criticism and sociological inquiry to provide a comprehensive understanding of the factors that contribute to a saint's rise and fall from popular memory The tone of the book is scholarly yet accessible aiming to engage both academic and general readers The writing style is clear concise and engaging making complex historical and theological concepts understandable to a broad audience The target audience includes students and scholars of religious studies history literature and art history as well as general readers interested in learning more about the lives of saints and the history of religious traditions The book would be valuable to them because it offers a fresh perspective on a familiar topic challenges traditional assumptions about sainthood and provides insights into the complex dynamics of religious belief and cultural change As a work of non fiction in the genres of Religion and History *Forgotten Saints* adheres to the conventions of academic scholarship including thorough research accurate citations and objective analysis It will also incorporate elements of narrative non fiction to make the stories of these forgotten saints more engaging and accessible to a wider audience The scope of the book is limited to a selection of saints from various periods and geographical locations chosen to illustrate the broader themes and arguments It does not attempt to provide a comprehensive history of all forgotten saints but rather to offer a representative sample of their stories and a framework for understanding their significance The information in *Forgotten Saints* can be applied practically by readers seeking to deepen their understanding of religious traditions to appreciate the diversity of human experience and to reflect on the values and beliefs that have shaped our world It can also inspire readers to seek out and preserve the stories of other forgotten figures both religious and secular who have contributed to our cultural heritage While the veneration of saints is often seen as a source of unity and inspiration it can also be a source of controversy and division Some critics argue that the focus on individual saints detracts from the central message of the Gospels while others question the historical accuracy of hagiographical accounts *Forgotten Saints* addresses these controversies by acknowledging the complexities of the saint making process and by emphasizing the importance of critical analysis and historical context

### **Communion of Saints**

Susan L. Miller, 2017-02-01 This collection of poems explores the saints of the church's history and contemporary persons who embody something of their charism Three sections are arranged around the themes of the three theological virtues Faith portrayed as a source of strength in times of trial Hope the darkest in the book dealing with matters of the body's frailty illness social discrimination and the search for a way to live within the constraints of society Love offering a panoply of outward looking characters who give to others in radical or personal ways The volume ends with a cycle of Franciscan poems that offer a model for the Christian life not simply in terms of individual moments but also as a complete life cycle of practice and prayer

Steve Peterson OSJ, 2012-07 Everything in our solar system casts a shadow The Earth the moon and the planets cast a shadow The only thing that does not cast a shadow is the sun The sun shines its light on one half of the planets while the other half is in the shade of its own shadow All living and non living things expose only half of themselves to the light of the sun Their other half remains in its shadow Plants and animals are born with a shadow live with a shadow and must die with a shadow Man is born with a shadow however he does not have to live and die with a shadow like the rest of the living creatures He can choose to stay confined within the shadows of earthly things or go beyond the shadows to become something like the sun But this quest takes a little something extra than most ordinary men seem to look for or even believe is possible to achieve Early on in childhood Fr Peterson wanted to fly Little did he know that his innocent desire to fly was an extraordinary shadowless thing called prayer A real and very extraordinary ear heard his plea So God's heart the only one in nature who produces no shadow was moved to help show him how to go beyond the shadows of worldly things frightful things and even deadly things
