**Of No Fixed Abode** John Stewart,1975      **No Fixed Abode** R. Humphreys,1999-08-02 Homelessness is now a much greater problem than twenty years ago In Britain today around half a million homeless people form a regrettable permanent underclass This book spells out their similarities with the spurned vagrant of bygone days It traces how for centuries emergent laws have combated alleged threats from unruly vagrants while largely ignoring causal factors like economic fluctuation bad harvests disease and war It is argued that only educational and social reform will alleviate the homeless plight      **The Welfare State and the 'Deviant Poor' in Europe, 1870-1933** B. Althammer,A. Gestrich,J.

Gründler,2014-05-28 The strife for social improvement that arose in the decades around the turn of the 20th century raised the issue of social conformity in new ways how were citizens who did not adhere to the rules to be dealt with This edited collection opens new perspectives on the history of the emerging welfare state by focusing on its margins      **The Study of**

**Social Policy** Barbara Rodgers,2025-07-15 Originally published in 1979 this book enabled students and practising professionals who wished to deepen their understanding of their subject by using a comparative approach The book begins with a stringent treatment of methodological problems moves on to suggest how they can be tackled and sets up a conceptual and analytical framework for the four case studies and the comparative analysis arising out of them These case studies from Britain France Israel and Australia are deliberately focused on the personal social services and social work although these are necessarily set within the political economic and social context and related to other areas of social provision in each country      **Health and Welfare States of Britain** Arthur P. Williamson,Graham Room,1983

**Crossing the Line** Svetlana Stephenson,2006 This pioneering book is the first to explore the experiences of homeless people in Russia in the late Soviet period and during post socialist transition By using in depth interviews Svetlana Stephenson places the narratives within the framework of theoretical perspectives on social spatial exclusion and advances the understanding of homelessness in Russia as an extreme case of social territorial displacement      **Narratives and**

**Imaginations of Citizenship in Latin America** Cristina Rojas,Judy Metzler,2016-01-08 This book looks at how citizenship has been imagined and transformed in Latin America through the twentieth and early twenty first centuries from different disciplinary perspectives including anthropology history urban planning geography and political studies It looks beyond citizenship as a formal legal status to explore how ideas about citizenship have shaped political and historical landscapes in different ways through the region It shows how conceptions of citizenship are intertwined with understandings of natural spaces and environments how indigenous politics are de colonizing western liberal conceptions of citizenship and how citizenship is being transformed through local level politics and projects for development In addition to showcasing some of the novel emerging forms of citizenship in the region the book also traces the ways in which historical narratives of citizenship and national belonging persist within present day politics Collectively the chapters show that citizenship remains

an important entry point for understanding politics projects of reform and struggles for transformation in Latin America This book was published as a special issue of Citizenship Studies

Allen, Mike, Benjaminsen, Lars, 2020-02-26 Homelessness is on the increase in most European states and remains at stubbornly high levels across developed nations This is despite increased policy attention economic provision and the implementation of strategies that have promised to stop homelessness in its tracks rather than simply manage the crisis Providing an in depth exploration of the experiences of Ireland Denmark and Finland in their various initiatives designed to end homelessness this book presents an authoritative comparative account of policies and strategies that have worked along with an exposition of those that have not Making an invaluable and timely contribution to the current debate it provides essential policy lessons for the multiple jurisdictions seeking to successfully bring homelessness to an end

**Fraudulent Lives** Steven King, 2024-11-15 The Western welfare state model is beset with structural financial and moral crises So called scroungers cheats and disability fakers persistently occupy the centre of public policy discussions even as official statistics suggest that relatively small amounts of money are lost to such schemes In Fraudulent Lives Steven King focuses on the British case in the first ever long term

analysis of the scale meaning and consequences of welfare fraud in Western nations King argues that an expectation of dishonesty on the part of claimants was written into the basic fabric of the founding statutes of the British welfare state in 1601 and that nothing has subsequently changed Efforts throughout history to detect and punish fraud have been superficial at best because he argues it has never been in the interests of the three main stakeholders claimants the general public and officials and policymakers to eliminate it Tracing a substantial underbelly of fraud from the seventeenth century to today King finds remarkable continuities and historical parallels in public attitudes towards the honesty of welfare recipients patterns that hold true across Western welfare states      **Unsettled** Jordanna Bailkin, 2018 Over the course of the twentieth century dozens of British refugee camps housed hundreds of thousands of displaced people from across the globe *Unsettled* explores the hidden world of these camps and traces the complicated relationships that emerged between refugees and citizens      The History of Labour Intermediation Sigrid Wadauer, Thomas Buchner, Alexander Mejsstrik, 2015-04-01 Searching for a job has been an everyday affair in both modern and past societies and employment a concern for both individuals and institutions The case studies in this volume investigate job search and placement practices in European countries Australia and India in the nineteenth and twentieth centuries The contributors explore how looking for work becomes a means by which participants individuals placement agents trade unions municipalities administrations state authorities and schools articulated specific interests perspectives and agendas Taking an exploratory approach the chapters illustrate different approaches to the history of employment and job searching ranging from organizational and regulatory histories to the analysis of practices and autobiographical accounts In the process they uncover the interrelations of search practices and attempts to arrange placement services      *Citizens without Shelter* Leonard C. Feldman, 2018-07-05 One of the most troubling aspects of the politics of homelessness Leonard C Feldman contends is the reduction of the homeless to what Hannah Arendt calls the abstract nakedness of humanity and what Giorgio Agamben terms bare life Feldman argues that the politics of alleged compassion and the politics of those interested in ridding public spaces of the homeless are linked fundamentally in their assumption that homeless people are something less than citizens Feldman's book brings political theories together including theories of sovereign power justice and pluralism with discussions of real world struggles and close analyses of legal cases concerning the rights of the homeless In Feldman's view the bare life predicament is a product not simply of poverty or inequality but of an inability to commit to democratic pluralism Challenging this reduction of the homeless *Citizens without Shelter* examines opportunities for contesting such a fundamental political exclusion in the service of homeless citizenship and a more robust form of democratic pluralism Feldman has in mind a truly democratic pluralism that would include a pluralization of the category of home to enable multiple forms of dwelling a recognition of the common dwelling activities of homeless and non homeless persons and a resistance to laws that punish or confine the homeless      Rescuing the Vulnerable Beate Althammer, Lutz Raphael, Tamara Stazic-Wendt, 2016-05-01 In many ways the European

welfare state constituted a response to the new forms of social fracture and economic turbulence that were born out of industrialization challenges that were particularly acute for groups whose integration into society seemed the most tenuous. Covering a range of national cases, this volume explores the relationship of weak social ties to poverty and how ideas about this relationship informed welfare policies in the nineteenth and twentieth centuries. By focusing on three representative populations—neglected children, the homeless, and the unemployed—it provides a rich comparative consideration of the shifting perceptions, representations, and lived experiences of social vulnerability in modern Europe.

**On the Fringe** Henry Miller, 1991. Chronicles nearly seven hundred years of homelessness from fourteenth-century English troubadours through early Americans to the homeless of today.

**Swept Up Lives?** Paul Cloke, Jon May, Sarah Johnsen, 2011-01-31. Utilizing innovative ethnographic research, *Swept Up Lives* challenges conventional accounts of urban homelessness to trace the complex and varied attempts to care for homeless people. Presents innovative ethnographic research which suggests an important shift in perspective in the analysis and understanding of urban homelessness. Emphasizes the ethical and emotional geographies of care embodied and performed within homeless services spaces. Suggests that different homelessness scenes develop in different places due to varied historical, political, and cultural responses to the problems faced.

**Social Security Law in Britain and Ireland** Paul O'Higgins, Martin Partington, 1986.

**The Liverpool Underworld** Michael Macilwee, 2022-04-02. A survey of the social and economic conditions and events that gave Liverpool a reputation for being the most crime-ridden place in the country in the nineteenth century.
