Of Principals And Projects:

Of Principals and Projects Spencer H. Wyant, Diane L. Reinhard, Richard Arends, 1980 **Compendium of Principal Energy Research and Development Legislation** United States, 1979 *Distributed Leadership* Alma Harris, 2009-03-17

Alma Harris The eld of school leadership is currently preoccupied with the idea of distributed leadership Few ideas it seems have provoked as much attention debate and c troversy Whatever your position on distributed leadership and you cannot fail to have one it is irrefutable that distributed leadership has become the leadership idea of the moment Yet it is an idea that can be traced back as far as the mid 20s and possibly earlier So why the interest Part of the answer can be found in a move away from theorizing and empirical enquiry focused on the single leader This shift has undoubtedly been fuelled by structural changes within schools and across school systems that have resulted in ternative models or forms of leadership practice Evidence highlights how those cupying formal leadership positions are increasingly recognizing the limitations of existing structural arrangements to secure organizational growth and transformation Fullan et al 2007 Harris et al 2008 Chapman et al 2008 As a consequence many heads and principals are actively restructuring realigning and redesigning leadership practice in their school Harris 2008 While the terminology to describe such changes varies the core principle is one of extending or sharing leadership practice While scholars have long argued for the need to move beyond those at the top of organizations in order to examine leadership Barnard 1968 Katz and Kahn 1966 until relatively recently much of the school leadership literature has tended to focus upon the head or the principal Regulations Governing the Certification of Teachers in Virginia Virginia. State Board of Education, 1919 **A Decade of Research on School Principals** Helene Årlestig, Christopher Day, Olof Johansson, 2015-11-13 This book provides a unique map of the focus and directions of contemporary research on school leadership since 2000 in 24 countries Each of these directions has its own particular cultural educational and policy history Taken together the various chapters in the volume provide a rich and varied mosaic of what is currently known and what is yet to be discovered about the roles and practices of principals and their contributions to the improvement of teaching and the learning and achievement of students The particular foci and methodological emphases of the research reported illustrate the different phases in the development of educational policies and provision in each country This collection is an important addition to existing international research that has shown beyond any reasonable doubt that the influence of school principals is second only to that of teachers in their capacity to impact students progress and achievement and to promote equity and social justice **Young Investigators** Judy Harris Helm, Lilian Gonshaw Katz, 2011 This bestselling book has been completely updated and expanded to help teachers use the project approach in child care centers in preschools and in kindergarten 1st grade and early childhood special education classrooms For those new to using projects the book introduces the approach and provides step by step guidance for conducting meaningful projects Experienced teachers will find the teacher interviews children s work photographs including full colour and teacher

journal entries used to document the project process in actual classrooms very useful This popular easy to use resource has been expanded to include these new features explicit instructions and examples for incorporating standards into the topic selection and planning process a variety of nature experiences with examples that show how project work is an excellent way to connect children to the natural world an update of the use of technology for both documentation and investigations including use of the Web as well as and video and digital cameras and more toddler projects that reflect our increased knowledge from recent mind brain research about toddler understanding and learning

The Allocation of Limited Entrepreneurial Attention Sharon Gifford, 2012-12-06 The Allocation of Limited Entrepreneurial Attention examines the implications of allocating limited entrepreneurial attention among activities or projects This book maintains that attention is simultaneously limited in that a decision maker can pay attention to only one thing at a time and entrepreneurial in that it may be allocated to evaluating a potential new project for possible adoption However since the outcome of the allocation of attention is not certain the number of projects among which attention can be allocated is stochastic and the maximum number of projects is endogenously determined by the optimal allocation of limited entrepreneurial attention and describes the implications of this analysis for a number of economic problems

Do Teachers Wish to Be Agents of Change? Allen Menlo, LeVerne Collet, 2015-04-27 This study surveyed principals and teachers in ten countries to compare principal and teacher attitudes toward the involvement of teachers in several change and development responsibilities The participating countries were Australia Canada China Hungary Israel Japan Netherlands Singapore South Africa and United States Each country administered mirror versions of a questionnaire to samples of at least 50 principals and at least 100 teachers The questionnaires listed twenty items describing change responsibilities in which teachers might become involved For each item both principals and teachers assigned two teacher involvement ratings their personal preference and their estimate of the preference of their role counterpart These involvement ratings produced four dependent variables Principal Preferences Principal Estimates Teacher Preferences and Teacher Estimates For each variable item responses were clustered to form index sub scores that measured attitudes toward five education domains Administration and Coordination Human Relations Teacher Support Classroom Learning and Evaluation Systematic planned comparisons were conducted to

determine the most important principal teacher issues within and between countries and how issues change across index domains Typical results indicate low awareness of each other s aspirations and expectations The first and last chapters of this book discuss the potential of teacher leaders to become agents of change within their own schools Several social psychological competencies are then described for these teachers in their work
