Reminiscences, reflections and reasoning

SANJAY A PAI

(The following is a set of reviews of two books authored by Dr MK Mani)

MK Mani, Yamaraja's brother: The autobiography of Dr MK Mani, 2nd edition, ISBN 8185984824

Sometime in 1991, my uncle lent me a book with an intriguing title, Yamaraja's brother. This was the autobiography of Dr MK Mani; to say that I enjoyed reading his reminiscences would be an understatement. A couple of years later, I tried to buy the book for myself but learnt that it was out of stock. All my attempts to get the book over the next quarter-century failed. Fortunately, we now have a reprint of Dr Mani's autobiography.

Dr Mani is a pioneering nephrologist in India. He tells us about his mentors - right from the age of 7 or 8 years - when he decided to become a doctor - and how he stuck to the straight and narrow path, the razor's edge of medical practice in India. Dr Mani practised medicine in Government Medical College, Madras (now Chennai), before going to Australia for training in nephrology, then returning to India to work in Madras; and then at the Jaslok Hospital in Bombay (now Mumbai). Subsequently, he returned to his roots and has been at the Apollo Hospital, Chennai. Because this book was first published in 1989, the story ends in the 1980s. I had expected to see an update to this and would have liked to read about his life and work in Chennai. However, he has chosen not to make any changes from the first edition.

Having been an undergraduate medical student myself, I particularly enjoyed his stories from his college days as I - and I am certain I speak for many others - was able to see similarities in our own experiences many years later and in a different city. We too have had inspiring teachers who are role models as well as the opposite - insecure and boring teachers; we have wondered about the dichotomy between what is taught and what actually needs to be taught in medical college, and fully understood phrases such as "Medical college life revolved around the canteen" and "I am sorry to say there was general rejoicing when one

of the toughest...examiners...died..." (pages 15 and 19, respectively). The younger (and older) generation would do well to learn from the author on how grateful he is to his mentors and to his residents and many colleagues.

The autobiography is peppered with his thoughts and opinions and thus, is quite relevant to the readers of this journal. One might even see an apparent contradiction in some of his views - but isn't that true for all of us? For instance, he is not enamoured about the idea of students getting admission into medical college based on their sports marks - but later, he makes a point about education being "not just...instruction"...but a "strengthening of the powers of body or mind; culture" (page 21). A considerable part of the book deals with his most famous patient, Jayaprakash Narayan; his views on the multiple tumultuous medical events that took place in those years and their implications for medicine in India make for interesting reading. The JP story illustrates many aspects of life, medical or otherwise, in India in the 1970s - and much of this may well be true even today. Conflict of interest, fear of failure, problems of treating the rich and the famous, publicity-hungry politicians doing photo-ops, and overruling sound medical advice not to visit ICUs for fear of infecting patients are discussed. You will experience black humour (read about the overload of idios sent to JP for his recovery after surgery in the USA on page 139 and an abundance of medical advice from all and sundry, on various alternative medicines on page 151).

Let me end with the answer to the question that must be bothering some of you - the reference to the unusual title of his autobiography. It is an incantation to Yamaraja, the Hindu God of death, who, we learn is not as powerful as the doctor - because while Yamaraja takes away life, the doctor takes away life as well as the patient's money. Dr Mani would be an exception to this statement - as a leader in nephrology, he has been responsible for saving many lives, while always following the righteous path in medicine and in life.

MK Mani, Letters from Chennai: Random thoughts on medicine and society, ISBN 8185984832

Along with the autobiography reviewed above, for good measure, Dr Mani has published the collected Letters from Chennai, as well. This series of letters which Dr Mani started publishing since the early 1990s, were originally called Letter from Madras, and later, Letter from Chennai. The letters were published in the National Medical Journal of India. This book contains, in addition to the Letters from the Natl Med J

On the Fringe of the Never-never H. K. Bloxham, 1906 *Kursk 1943* Anthony Tucker-Jones, 2018-05-07 In 1943 as war raged along the Eastern Front the German forces attempted to push further east in the brutal Operation Citadel which saw one of the largest armoured clashes in history the Battle of Prokhorovka Countered by two Soviet attacks this operation saw the tide turn on the Eastern Front For the first time a German offensive was halted in its tracks and the Soviets ended the conflict as the decisive victors With a loss of over 200 000 men on both sides this two month clash was one of the costliest of the war In this dramatic study Anthony Tucker Jones

James Tobin, 2014-07-02 From the 1920s to the 1950s neoclassicism was one of the dominant movements in American music Today this music is largely in eclipse mostly absent in performance and even from accounts of music history in spite of and initially because of its adherence to an expanded tonality No previous book has focused on the nature and scope of this musical tradition *Neoclassical Music in America* Voices of Clarity and Restraint makes clear what neoclassicism was how it emerged in America and what happened to it Music reviewer and scholar R James Tobin argues that efforts to define musical neoclassicism as a style largely fail because of the stylistic diversity of the music that fall within its scope However neoclassicists as different from one another as the influential Igor Stravinsky and Paul Hindemith did have a classical aesthetic in common the basic characteristics of which extend to other

neoclassicists This study focuses in particular on a group of interrelated neoclassical American composers who came to full maturity in the 1940s These included Harvard professor Walter Piston who had studied in France in the 1920s Harold Shapero the most traditional of the group Irving Fine and Arthur Berger his colleagues at Brandeis Lukas Foss later an experimentalist composer whose origins lay in neoclassicism of the 1940s Alexei Haieff and Ingolf Dahl both close associates of Stravinsky and others Tobin surveys the careers of these figures drawing especially on early reviews of performances before offering his own critical assessment of individual works Adventurous collectors of recordings performing musicians concert and broadcasting programmers as well as music and cultural historians and those interested in musical aesthetics will find much of interest here Dates of composition approximate duration of individual works and discographies add to the work s reference value *Inside the Bataan Death March* Kevin C. Murphy, 2014-10-27 For two weeks during the spring of 1942 the Bataan Death March one of the most widely condemned atrocities of World War II unfolded The prevailing interpretation of this event is simple American prisoners of war suffered cruel treatment at the hands of their Japanese captors while Filipinos sympathetic to the Americans looked on Most survivors of the march wrote about their experiences decades after the war and a number of factors distorted their accounts The crucial aspect of memory is central to this study how it is constructed by whom and for what purpose This book questions the prevailing interpretation reconsiders the actions of all three groups in their cultural contexts and suggests a far greater complexity Among the conclusions is that violence on the march was largely the result of a clash of cultures undisciplined individualistic Americans encountered Japanese who valued order and form while Filipinos were active even ambitious participants in the drama **The Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1899 Catalog of Copyright Entries, Third Series ,1967 The record of each copyright registration listed in the Catalog includes a description of the work copyrighted and data relating to the copyright claim the name of the copyright claimant as given in the application for registration the copyright date the copyright registration number etc *The Publishers Weekly* ,1909
