## Of War And Desire:

**The Erotics of War in German Romanticism** Patricia Anne Simpson, 2006 In *The Erotics of War in German Romanticism* Patricia Anne Simpson explores the ways early nineteenth century German philosophers poets and artists represent war and erotic desire The author argues that gender is connected to a larger debate about the construction of the self in relation to a community at a time that this definition is under revision She analyzes the culture of war as it shapes the bonds of fraternal familial and eventually national identity Simpson defines the erotics of war as discursive attempts to assert the priority of ethical identity and citizenship over individualized desire The seemingly ancillary problem of female desire emerges not as a marginal issue but as the focal point of a debate about identity **Cobbett's Complete Collection of State Trials and Proceedings for High Treason** Thomas Bayly Howell, Thomas Jones Howell, 1812 **Desire and Anxiety (Routledge Revivals)** Valerie Traub, 2015-08-11 In both feminist theory and Shakespearean criticism questions of sexuality have consistently been conflated with questions of gender First published in 1992 this book details the intersections and contradictions between sexuality and gender in the early modern period Valerie Traub argues that desire and anxiety together constitute the erotic in Shakespearean drama circulating throughout the dramatic texts traversing masculine and feminine sites eliciting and expressing heterosexual and homoerotic fantasies embodiments and fears This is the first book to present a non normalizing account of the unconscious and the institutional prerogatives that comprise the erotics of Shakespearean drama Employing feminist psychoanalytic and new historical methods and using each to interrogate the other the book synthesises the psychic and the social the individual and the institutional *War in the History of Economic Thought* Yukihiro Ikeda, Annalisa Rosselli, 2017-07-20 Even after the experience of WWII and despite the existence of various institutions such as United Nations to avoid conflict between nations we have not succeeded in making a world free from war The Cold War the Vietnam War the intervention of the superpowers in local conflicts and the spread of terrorism have made this all too clear This volume brings together contributions by leading international scholars of various countries and reconstructs how economists have dealt with issues that have been puzzling them for nearly three centuries Can a war be rational Does international commerce complement or substitute war Who are the real winners and losers of wars How are military expenses to be funded The book offers a refreshing approach to the subject and how we think about the relations between economics and war **Cobbett's Complete Collection of State Trials and Proceedings for High Treason and Other Crimes and Misdemeanors from the Earliest Period to the Present Time**, 1812 **The New York Times Current History**, 1917 *Desire in the Iliad* Rachel H. Lesser, 2022 The first study to examine desire in the Iliad in a comprehensive way explaining its relationship to the epic's narrative structure and audience reception The author offers a new reading of the poem that shows how the characters' desires especially those of mortal hero Achilles and divine king Zeus motivate plot and engage the audience **Current History**, 1916 **A Complete Collection of State Trials and Proceedings for High Treason**

and Other Crimes and Misdemeanors ,1812

**The Justice of War** Richard Hall,2019-11-06 The Justice of War Its Foundations in Ethics and Natural Law puts normative ethical theory at the forefront in its discussion of the justice of war Situating the modern theory of just war in its historical context Richard A S Hall gives full attention to natural law a mainstay of just war theory Hall considers the American philosopher Josiah Royce s implicit theory of just war with its suggestion of a fourth component of just war theory in addition to jus ad bellum jus in bello and jus post bellum namely jus ad pacem justice law for or about peace concerning the prevention of war and the maintenance of peace This book addresses and answers affirmatively the following questions raised by just war theory Can just war theory be rationally defended against its realpolitik critics Can there be such a thing as a just or moral war The book aims at showing the doubters and critics that just war theory is a viable alternative to both the political realism of realpolitik and pacifism In brief war can be morally justified though under very restrictive conditions Relief and Rehabilitation of War Victims in Indochina United States. **Relief and Rehabilitation of War Victims in Indochina** United States. Congress. Senate. Judiciary,1973 **The Thought of Death and the Memory of War** Marc Crépon,2013-10-01 War lays bare death and our relation to it And in the wars or more precisely the memories of war of the twentieth century images of the deaths of countless faceless or nameless others eclipse the singularity of each victim s death as well as the end of the world as such that each death signifies Marc Cr pon s The Thought of Death and the Memory of War is a call to resist such images in which death is no longer actual death since it happens to anonymous others and to seek instead a world in which mourning the other whose mortality we always already share points us toward a cosmopolitics Cr pon pursues this path toward a cosmopolitics of mourning through readings of works by Freud Heidegger Sartre Patocka Levinas Derrida and Ric ur and others The movement among these writers Cr pon shows marks a way through and against twentieth century interpretation to argue that no war genocide or neglect of people is possible without suspending how one relates to the death of another human being A history of a critical strain in contemporary thought this book is as Rodolphe Gasch says in the Foreword a profound meditation on what constitutes evil and a rigorous and illuminating reflection on death community and world The translation of this work

received financial support from the French Ministry of Foreign Affairs **War, Peace and the Military** Franz Kernic,2023-03-17 This book is a comprehensive analysis of the various social science approaches to explaining and interpreting war peace and the military Its central aim is to trace and reconstruct those basic assumptions constructed and thought processes undertaken by modern social sciences in their research and conceptualization of military violence and the use of force In addition to such reconstruction the aim is also to enquire into the preconditions of such thought This study therefore eschews the development of an explicit strategy in the sense of a research strategy but instead is much more concerned with thinking about its subject matter by means of re thinking and reflecting upon different theoretical

approaches and problems The investigation includes a critical reexamination of the tradition of military sociological research from the beginning of modern sociology to late twentieth century theoretical approaches regarding the security focused and or war driven aspects of modern society *Report of the Secretary of War, which Accompanied the Annual Message of the President of the United States, to Both Houses of the ... Congress ,1900* *Transforming Civil War Prisons* Paul J.

Springer,Glenn Robins,2014-09-04 During the Civil War 410 000 people were held as prisoners of war on both sides With resources strained by the unprecedented number of prisoners conditions in overcrowded prison camps were dismal and the death toll across Confederate and Union prisons reached 56 000 by the end of the war In an attempt to improve prison conditions President Lincoln issued General Orders 100 which would become the basis for future attempts to define the rights of prisoners including the Geneva conventions Meanwhile stories of horrific prison experiences fueled political agendas on both sides and would define the memory of the war as each region worked aggressively to defend its prison record and to honor its own POWs Robins and Springer examine the experience culture and politics of captivity including war crimes disease and the use of former prison sites as locations of historical memory *Transforming Civil War Prisons* introduces students to an underappreciated yet crucial aspect of waging war and shows how the legacy of Civil War prisons remains with us today

**Women as Weapons of War** Kelly Oliver,2007 From the female soldiers of Abu Ghraib prison to Palestinian women suicide bombers women and their bodies have been powerful weapons in the Afghanistan and Iraq wars Kelly Oliver reveals how the media and the George W Bush administration used metaphors of weaponry to describe women and female sexuality and forge a link between vulnerability and violence Oliver analyzes the discourse surrounding women sex and gender and the use of women to justify America s decision to go to war She also considers the cultural meaning or lack of meaning that lead female soldiers at Abu Ghraib to abuse prisoners just for fun and the commitment to death made by women suicide bombers She examines the pleasure taken in violence and the passion for death and what kind of contexts creates them Oliver concludes with a diagnosis of our fascination with sex violence and death and its relationship with live news coverage and embedded reporting which naturalizes horrific events and stymies critical reflection

**Displaced Persons, Resettlement and the Legacies of War** Jessica Stroja, 2022-06-09. This book provides a case study on the ongoing impact of displacement and encampment of refugees who do not have access to resettlement support services or are resettled in locations of low cultural and linguistic diversity. Following the journeys of displaced families and children who left Europe after the Second World War to seek resettlement in Queensland, Australia, this book brings together the rarely heard voices of these refugees from written archives along with material from more than 50 oral history interviews. It thoroughly explores the impacts of displacement, encampment, and eventually resettlement in locations without resettlement facilities or support networks. In so doing, the book brings to light important findings that can be used to help understand the experiences of those impacted by contemporary refugee crises and can be considered when developing responses and assistance in locations where there is a lack of diversity or support for refugees.
