freshly returned from a year in Stockholm but deeply enmeshed in the American Malaise of the late 1960s I sketched out an image of Swedish policy making that defined a generalized policy making role and sought to relate that role to both citizen attitudes and the elite political culture in Sweden. Although that sketch seems to have been taken seriously by other foreigners I think it is fair to say that the principal reaction of my Swedish friends and colleagues was amusement. When I later 1970-71 returned for another year in Stockholm I found myself being introduced at parties as the man who had written that marvelously out of date sketch of how Swedish politics used to work hah hah. Or I would be referred to as the American who like Marquis Childs some years earlier believed our propaganda. By 1970-71 of course the Swedish political environment had become more boisterous than it had been in 1967-68. Indeed during the course of that year my amused colleagues found themselves enmeshed in a strike action against the government that was part of an emotional series of such actions that some observers thought would bring most public services to a halt. If my earlier portrait had been influenced too much they thought by the American Malaise in which I was implicated so must their later reaction to my portrait have been influenced too much I thought by the Swedish Turmoil of 1970 and 1971.
