Dictionary of Acronyms and Technical Abbreviations Jakob Vlietstra, 2012-12-06 My first encounter with acronyms took place when I was ten years old and growing up in an occupied COWltry during the Second World War My father proudly annoWlced one day that despite the ban imposed by the occupying administration he had managed to get a radio installed and could receive the BBC All acronyms used in this introduction are listed in this dictionary To me the meaning of BBC was that we would receive different information about the war than we got from the usual censored broadcasts There was of course the well known acronym associated with the nT but at that time I did not realize that it meant more than the postal service in those years a deteriorated service Gradually the daily use of acronyms grew Most of the newly acquired three and four letter abbreviations referred to organiza tions such as the broadcasting corporations in The Netherlands and Belgium and references to coWltries such as the USA USSR and UK When attending high school the HBS after the war my knowledge

of acronyms grew slowly Even during the ten years I spent in the Dutch Merchant Marine the GHV the number of acronyms was limited to advanced equipment that eventually became known as RADAR LORAN and DECCA **Records Management Handbook for United States Senators and Their Repositories** Karen Dawley Paul, United States.
