but a timely and important re invigoration of television studies in general Blood Relations Jes Batts,2005-07-15 The television series Buffy and Angel revolve around radical conceptions of family Indeed their coherence depends on the establishment of nontraditional families that admit vampires demons witches werewolves and other bizarre characters without censuring them for their peculiarities This work argues that what makes these characters enduring and engaging is their critical family connections for their most involved struggles occur not within the graveyard but around the dinner table just as the most challenging adversarial forces that they must face are not demons or vampires but the stuff of everyday life What does family encompass within these two series How does it relate to concepts of gender sexuality power and the supernatural as they emerge from the shows complex narratives This book explores such questions It also examines the chosen family an idea marketed specifically by successful programs such as Friends and Sex in the City within the past ten years juxtaposing it against various images of the fractured biological family displayed in both Buffy and Angel Through eight chapters addressing various family related aspects within both shows this work plots the trajectory of this unstable notion of family even as it is transformed remediated and rendered unrecognizable from a family values perspective by the unique and supernatural relationships that proliferate in Buffy and Angel Women in Science Fiction and Fantasy Robin Anne Reid,2008-12-30 Works of science fiction and fantasy increasingly explore gender issues feature women as central characters and are written by women writers This book examines women s contributions to science fiction and fantasy across a range of media and genres such as fiction nonfiction film television art comics graphic novels and music The first volume offers survey essays on major topics such as sexual identities fandom women s writing groups and feminist spirituality the second provides alphabetically arranged entries on more specific subjects such as Hindu mythology Toni Morrison magical realism and Margaret Atwood Entries are written by expert contributors and cite works for further reading and the set closes with a selected general bibliography Students and general readers love science fiction and fantasy And science fiction and fantasy works increasingly explore gender issues feature women as central characters and are written by women writers Older works demonstrate attitudes toward women in times past while more recent works grapple with contemporary social issues This book helps students use science fiction and fantasy to understand the contributions of women writers the representation of women in the media and the experiences of women in society
