The Almanac of Political Corruption, Scandals, and Dirty Politics Kim Long, 2008-12-18 Watergate Billygate Iran Contra Teapot Dome Monica Lewinsky American history is marked by era defining misdeeds indiscretions and the kind of tabloid ready scandals that politicians seem to do better than anyone else Now for the first time one volume brings together 300 years of political wrongdoing in an illustrated history of politicians gone wild proving that today s scoundrels aren t the first worst and surely won t be the last From high crimes to misdemeanors to moments of licentiousness and larceny this unique compendium captures in complete colorful detail the foibles failings peccadilloes dirty tricks and astounding blunders committed by politicians behaving badly Amid stories of brawlers plagiarists sexual predators tax evaders and the temporarily insane this almanac tells all about The only so far president to be arrested while in office Ulysses S Grant who was allegedly issued a ticket for racing his horse and buggy through the streets of Washington D C The former New Jersey state senator David J Friedland who disappeared during a scuba diving accident in 1985 It turns out he staged the accident and served nine years in prison after being captured in the Maldives Tape recorded instructions from highbrow president Franklin Delano Roosevelt on how his staff should carry out some low down political tricks The bizarre story of U S congressman Robert Potter who castrated two men he suspected of having affairs with his wife Potter won election to the state house while in jail but was kicked out for cheating at cards Texas congressman Henry Barbosa Gonzalez he was charged with assault in 1986 after he shoved and hit a man who called him a communist Gonzalez was seventy years old at the time At once shocking and hilariously funny here s a book that exposes the history of American politics warts and all and makes for hours of jaw dropping fascinating illuminating reading **Cadres and Corruption** Xiaobo Lü, 2000 The most up to date and comprehensive analysis of corruption and change in the Chinese Communist Party Cadres and Corruption reveals the long history of the party s inability to maintain a corps of committed and disciplined cadres Contrary to popular understanding of China s pervasive corruption as an administrative or ethical problem the author argues that corruption is a reflection of political developments and the manner in which the regime has evolved Based on a wide range of previously

unpublished documentary material and extensive interviews conducted by the author the book adopts a new approach to studying political corruption by focusing on organizational change within the ruling party In so doing it offers a fresh perspective on the causes and changing patterns of official corruption in China and on the nature of the Chinese Communist regime By inquiring into the developmental trajectory of the party's organization and its cadres since it came to power in 1949 the author argues that corruption among Communist cadres is not a phenomenon of the post Mao reform period nor is it caused by purely economic incentives in the emerging marketplace Rather it is the result of a long process of what he calls organizational involution that began as the Communist party state embarked on the path of Maoist continuous revolution In this process the Chinese Communist Party gradually lost its ability to sustain officialdom with either the Leninist cadre or the Weberian bureaucratic mode of integration Instead the party unintentionally created a neotraditional ethos mode of operation and set of authority relations among its cadres that have fostered official corruption

Crimes by the Capitalist State Gregg Barak, 1991-07-03 Crimes by the Capitalist State systematically examines a broad spectrum of state criminality including state terrorism torture and murder drug smuggling and arms trafficking espionage and surveillance and violations of internationally established human rights While exploring crimes by the state from both a national and international perspective this book also reflects the latest scholarship in comparative political and social science especially as these relate to current developments in the political economy the study of crimes by the powerful and theories on state and social control This book stresses the importance of studying crimes by the state as a prerequisite for peacemaking worldwide For example state crimes such as the Iran Contra Affair or the apartheid policies of South Africa should become the subject matter of criminologists and lay persons alike The collective evidence gathered here demonstrates that state criminality is primarily an organizational and structural phenomenon and only secondarily an individual phenomenon whether committed for ideological

reasons or for personal profit **Political Corruption** Arnold J. Heidenheimer, Michael Johnston, Victor T.

LeVine, 2024-12-20 Are phenomena labeled as corrupt subject to systematic social science investigation or does corruption lie so much in the eye of the beholder as to frustrate serious analysis The editors of this volume which follows up an important earlier work on the same subject hold that the comparative perspective involving both comparisons over time and comparisons between systems is crucial if the study of corruption is to reach the point where it can be studied as a socio political phenomenon The studies of political corruption included here pertain to all areas of the world but especially to the United States Communist systems and Europe Most were published during the last fifteen years and some were written especially for the volume Although the editors are political scientists scholars from all social science disciplines as well as law history and communications are represented among the authors of the approximately sixty selections included in this volume The first of the book's four parts deals with changing conceptualization and definition in the study of corruption The second part examines the incidence of corruption in the context of political development and modernization The third part examines the special vulnerability of some local national and international systems to corrupt practices In the final part perceptions of corruptions are related to scandal and other social control efforts as well as to studies of the effect and consequences of corruption
